Las azules aguas del Mapocho Alejandro Fuentes,2024-10-24 Esta novela es como el diario de vida de esta pareja donde el lector puede confirmar con exactitud el escenario donde y cuando transcurren los hermosos sucesos y las difíciles vicisitudes que esta pareja debe afrontar. En esta realidad casi Mágica se logra en el mundo del 1970, el primer gobierno socialista liderado por Salvador Allende. Los capítulos de esta novela conforman una bitácora que con exactitud sitúan al lector en el día, en que lo que viven nuestros personajes transcurre. Sucesos como la votación en el senado por la nacionalización del cobre, siendo en ese momento Chile el mayor productor a nivel mundial, introducen en el escenario un nuevo y peligroso actor. Los Contras. Una más de las organizaciones nacionales o extranjeras que lentamente irán creando y probando tácticas para conformar una estrategia que más tarde será usada en todo el mundo cuando surjan gobiernos de izquierda. Nuestros jóvenes personajes cometerán errores y brillantes logros en un mundo para ellos nuevo y también extraño. Por otro lado, los experimentados contrarios a estos cambios irán sucesivamente endureciendo su accionar al observar que Allende solo pierde apoyo en el mundo noticioso que ellos manejan y lentamente contra todas sus maquinaciones observan que el senado debe apoyar algunas leyes o sino de lo contrario se desvela su verdadera razón política. La estrategia de cooperación entre la policía y la delincuencia. La deliberada inoperancia de los jueces para sancionar a tiempo y en forma justa contribuye a crear un clima de inseguridad en la población. El bloqueo interno y desde el exterior de productos de uso diario e irremplazables como chupetes, condones, leche, papel higiénico se convierte en las tácticas que se usarán más tarde en todos los países que se liberan del colonialismo. El desarrollo de tácticas como las huelgas de camioneros, los acaparamientos, los drogadictos, la inoperancia policial y las permisivas condenas judiciales debutaron en el Chile de los 70.

Le Corbusier, Sert y Wiener Doris Tarchópolos,2022-03-31 Este libro reivindica las figuras de Le Corbusier, Josep Lluís Sert y Paul Lester Wiener en los planes de construcción de la ciudad de Bogotá. El impacto que tuvieron estos arquitectos en el desarrollo y en la implantación de paradigmas sociales y urbanísticos de la ciudad no es menor, a pesar de lo que se ha creído en la academia del país. Acompañado de un rico material gráfico, este libro plantea un detallado análisis del panorama histórico de dos episodios especialmente significativos en la construcción de ciudad y en las ideas de desarrollo derivadas de esta: los planes Piloto y Regulador (1949-1953). Estos proyectos delimitaron la zonificación urbana en Bogotá, el sistema vial, los regímenes de construcción, la planificación de la vivienda pública, entre otros elementos. Así, el lector encontrará en este libro cuidadosamente editado una amplia documentación de estos planes urbanos, que se recupera con un serio trabajo de archivo y con la búsqueda rigurosa de Doris Tarchópolos.
