Scott D. Richman, Steve Permuth, Paula M. Richman

The There Is No Box Simon Cleveland, Marisa Cleveland, 2022-11-08 Leading isn't just something you do; leadership is a lifestyle. In today's global economy, effective leadership requires engaging in diverse interactions, meaning there is no one, predefined way to lead. Instead, leaders today must be culturally agile, and they must live that awareness and adaptability each and every day. *There Is No Box* is a practical guide for leaders who recognize how critical it is to draw outside the lines of typical guidance in order to rethink leadership development and gain competencies that make them more inclusive, culturally aware, and empowered to facilitate collaboration. Authors Marisa Cleveland and Simon Cleveland draw on their combined forty years of experience in corporate, government, and higher education leadership to answer a question they've been getting for over two decades: how do lauded leaders live? Through anecdotes and interviews paired with actionable takeaways, the book investigates where leaders start, how they become boxed in upon entering the workforce, and finally how they can break through those boundaries to become a culturally agile leader and a meaningful contributor to our global society. *There Is No Box* provides established and emerging leaders across all fields with the tools to make leadership their lifestyle.

Embracing Adult SEL Wendy Turner, 2023-12-01 Social emotional learning (SEL) is frequently taught in schools, but how can educators embrace it in their own lives? In this helpful guidebook, Wendy Turner demonstrates the importance of SEL being embraced, understood, and modeled by all members of the learning community. First, she offers tools to increase your self-awareness, including mindset, identity and culture, strengths, and core values. Second, she shows what self-management is and why it matters in helping everyone manage complex emotions in myriad ways. Then she explains what empathy is, and is not, and how it pertains to social issues, identity, and culture. Next, she discusses relationships—how we can foster successful relationships with everyday tools to ignite and support positive connections. Finally, she shows how to synthesize our skills, improving decision-making and modeling this for our students. Throughout each chapter, she provides creative, easy-to-implement ideas, stories, and reflection questions so you can make the ideas your own, enabling you to authentically grow and thrive on your personal and professional path.

Wayside Teaching Sara Davis Powell, 2018-03-20 Wayside teaching is about intentionally practicing what educators do every day in perhaps unintentional ways: relate to students. This practical, research-based guide illustrates how wayside teaching—the informal curriculum, implicit instruction, and mentoring that happens in sometimes unintentional ways—can be intentionally practiced across grade levels to enhance learning and boost student outcomes. Through a framework focused on attitudes, approaches, and actions, and using vignettes that illuminate wayside teaching in action, Sara Davis Powell demonstrates how reaching out to students in formal and informal situations helps create a culture of belonging and safety that strengthens a student's self-image, confidence, resiliency, and cognitive processes. Offering invaluable resources, including student surveys for learning more about your students and an annotated booklist for promoting acceptance and compassion, *Wayside Teaching* reflects the powerful influence that teachers' actions can have on their students' academic and personal lives.

What Almost Did Not Happen James Willis, 2011-10-19 We grow what we know. As a boy in Drew County, Arkansas, author James Willis grew into what he knew. In this memoir, he provides insight into who he was, what he did, and how his circumstances, experiences, and relationships helped him mature to the man he is today. *What Almost Did Not Happen* chronicles the details of Willis' life: his birth in 1938 in Monticello, Arkansas; being raised as an only child by his parents; growing up against the backdrop of the 1940s; his various national and international travels; his education and work as a high school teacher and university professor; marriage and raising children; being a grandfather; and the people and places

that shaped his life. An engaging account, *What Almost Did Not Happen* preserves the memories of Williss life and records the history of an uncommonly common man and how he became that man.

The Decisive Element Gary Toward, Mick Malton, Chris Henley, 2018-06-20 Foreword by Jaz Ampaw-Farr. Forget data. Forget league tables. Forget the national curriculum. Teachers are the true weather gods in education. The default outlook in schools at present, however, seems to be 'gloom'. Our schools' staff are under relentless pressure, and their ever-increasing workloads can make it easy to forget about the humans they work with. So what can teachers do to bring back the sunny weather and make pupils' school lives more joyous? Gary, Mick and Chris believe that the answer lies in harnessing the power of praise and positivity. In *The Decisive Element* they offer an uplifting antidote to the anxiety by sharing praise focused techniques that will help teachers and school leaders create an ethos of enthusiasm: one that reduces stress, fuels ambition and builds confidence for staff and pupils alike. Crammed full of sound research, fresh ideas and top tips, this manifesto for positive mindsets celebrates the value of meaningful, impactful praise and shines a light on the myriad ways positivity can be unleashed to spark pupils' motivation and natural curiosity for learning. The book draws upon the authors' vast experience and anecdotal insights to provide sage guidance on how to create a self-sustaining positive climate for learning, and contains a wealth of practical strategies to ramp up the feel-good factor in the school setting so that staff and pupils can feed off each other's enthusiasm. It also flips the script on the stresses and strains of modern schooling by offering a more light-hearted perspective on teachers' and pupils' day-to-day interactions encouraging school staff to be proud of what they do and empowering them to make an even bigger difference in the lives of the young people in their care. Suitable for anyone lucky enough to work in education or with children. The quoted text on the cover of this title has been extracted from Ginott, H. (1972), *Teacher and Child: A Book for parents and teachers* (NY: Macmillan), p. 15. *The Decisive Element* has been named the Bronze Winner in the education category of the 2018 INDIES Book of the Year Awards.

Powerful Language for Reluctant Learners Gary A. Hughes, 2020-02-25 Gary A. Hughes takes you into the mind of reluctant learners and shares how to help them succeed in this resource for educators. As a veteran teacher, Hughes has a wealth of experience helping reluctant learners, and he's gained even more experience as the father of Jeremiah Hughes, who was a reluctant learner in his early years of school. Gary A. Hughes was also once a reluctant learner himself as a high school student. In looking back at how he's helped his son and others succeed, he shares how to: help students build self-esteem; appreciate the impact that spoken words have on reluctant learners; use words that celebrate and affirm student academic life; He also breaks down the categories that reluctant learners typically fall into, shares four common reasons that students are reluctant to learn, and explores how to break down barriers so students can bolster achievement. Moreover, he highlights the importance of simple things, such as getting the names of students right, telling them the truth, and making sure they know they're valued. Build trust with students, help them overcome a fear of failure, and encourage them to embrace learning in this invaluable resource.

Doing Poorly on Purpose James R. Delisle, 2017-01-23 With *Doing Poorly on Purpose*, veteran educator James R. Delisle dispels the negative associations and stereotypes connected to underachievement. By focusing on smart kids who get poor grades—not because they're unable to do better in school but because they don't want to—Delisle presents a snapshot of underachievement that may look far different from what you envision it to be. There is no such thing as a “classic underachiever.” Students (and their reasons for underachieving) are influenced by a wide range of factors, including self-image, self-concept, social-emotional relationships, and the amount of dignity teachers afford their students. Helping “smart” students achieve when they don't want to is not an easy task, but you can reengage and inspire students using Delisle's insights and practical advice on these topics: Autonomy Access Advocacy Alternatives Aspirations Approachable Educators Smart, underachieving students need the reassurance that they are capable, valuable, and worth listening to despite their low academic performance. If these students—who are otherwise academically capable—don't feel they are getting respect from those in charge of their learning, then the desire to conform and achieve is minimized. In a word, they want dignity. Don't we all?

Soul Consciousness Stephen Vick, 2018-02-20 “This book, these people—these lives—come together to form a loving

tribute to all of us in search of deeper meaning, deeper connection, and a deeper sense of wonder. If you read it closely, it will change you.” “Soul Consciousness is a book that will remind you, in this era of political fecklessness and amorality, where our most potent power as a people truly resides.” -Sam Chaltain, Author, “Our School”, Washington DC “Real leadership is transformational! In Soul Consciousness, Vick tells the story of transformational leaders who have learned how to bridge their own soul journeys with the sacred work of empowering others. He shows why we must all be connected to an energy greater than ourselves, and how that energy can help to fuel the brighter world so many of us seek. This book holds the keys to a deeper, more inclusive, and more vibrant world.” -Ryan Lugalía-Hollon, Author, The War on Neighborhoods “This remarkable book offers a blueprint for harnessing the power of community members to enact community change. While many residents, young and old, bend under the weight of deep-seated structural problems, Stephen Vick argues that the answers lie within. Through stories and interviews this book inspires as much as it instructs. A treatise on community empowerment, Soul Consciousness should be required reading for youth workers, community organizers, policy makers, elected officials, and anyone who cares about families and communities.” -Roberto G. Gonzales, Professor of Education, Harvard University and author of Lives in Limbo: Undocumented and Coming of Age in America.

The Art of Being a Brilliant Classroom Assistant Gary Toward, Chris Henley, Andy Cope, 2016-02-26 The Art of Being a Brilliant Classroom Assistant is a new addition to the successful Art of Being Brilliant series. There are many different names and acronyms for these amazing classroom practitioners: teaching assistants (TAs), learning support assistants (LSAs), cover supervisors, supply teachers, student mentors, higher level teaching assistants (HLTAs), learning partners the list goes on. The title doesn't matter but the quality of support, interaction and learning does. Whether you work one-to-one with individual children, support small groups or work with a whole class and whether you work in a primary, secondary or special setting this book is packed with ideas to enhance your practice so you can best support children's learning, while looking out for your own well-being and enjoying your role. You can dip in for top tips, anecdotes, practical strategies and advice on every aspect of the role, as well as have a chuckle as you go. For example, did you know there is a patron saint for just about everything? There is even a patron saint of failures, Birgitta of Sweden, who presumably failed to impress Ofsted on more than one occasion. If you scour the list you'll find that every occupation has a nominated guardian looking after their well-being. That is, except one classroom assistants. So, if there's nobody 'up there' cheering you on, you might need to find the resources within yourself and Andy, Chris and Gary can help. Because, let's face it, working with youngsters isn't for the fainthearted, is it? What do you do if you are sworn at? How do you engage a reluctant learner? What about safeguarding? How do you support children with SEND? How do you handle a challenging parent? How can you develop your career further? These topics, and a whole raft more, are woven into this book which will set you on the road to brilliance! It doesn't matter whether it's inspiration or new ideas you want this book has a plethora of both. It may challenge your thinking, it may

persuade you to do something different, and above all it will put you in serious danger of being brilliant at what you do. There's nothing more important or vital than the education and development of our youngsters: the mission of the Art of Being Brilliant series is to help all educators unlock their brilliance. The Art of Being Brilliant series was a finalist in the 2017 Education Resources Awards in the Educational Book Award category.

Cultivating Emotional Intelligence Michael G. Hymel, 2021-10-29 One of the most influential variables in human development is social relationships. *Cultivating Emotional Intelligence: The 5 Habits of the Emotion Coach* centers on how educators may build and use positive relationships with their students to help them grow in emotional intelligence. Additionally, this book seeks to answer the question, "What is the end goal of growing emotionally intelligent students? Is it a matter of understanding oneself and other's emotions? Or is the goal simply to produce "good citizens"? As humans, we desire connection with others. And while most connections remain surface level, this book investigates how teachers can make a deeper connection with students for the purpose of growing emotional intelligence and teaching positive social skills. If educators are going to do so, it will be necessary to reframe traditional school practices that focus on promoting positive behaviors through a discipline system based upon consequences that fail to address the behavior in a redemptive manner.
