I tried to help him make the connection but failed. I was hoping on a plug and play but no such luck. I watched videos on YouTube that connect other devices via external instrument in the device ... **Where are the higher-end Korean guitar brands? - The Gear Page** To put it another way, off the top of my head I can name internationally recognized guitar players who play Japanese brands like Ibanez and Yamaha, but I can't name a single player who plays Korean guitars, and I definitely can't name a Korean brand at that level. The weird thing is that Korean are extremely entrepreneurial. When I tried to make a similar indication in Dorico, the bend looks OK, but I want the curved slide; the timing is like a grace note, as shown in the bend. I didn't see choices in Properties to create the look and timing I want. By the way, I like the new contextual Help connection.
