CranioSacral Therapy for Grief and Loss Diego Maggio, 2024-09-03 • Explains how CranioSacral Therapy and SomatoEmotional Release can help you through the common traumas of the life cycle, from birth to death • Shares techniques and exercises to help process emotions and experiences, assess the functionality of the body's systems and energetic framework, and recognize and transform destructive energies into constructive processes • Looks at how to enhance CST techniques with other protocols, including the Holmes and Rahe Stress Scale and Elisabeth Kübler-Ross' stages of grief Loss, abandonment, separation, and grief—many of life's most challenging experiences—are also the most common. But the trauma created by these experiences does not need to hold us back in life. As Diego Maggio shows, we can use the techniques of CranioSacral Therapy (CST) and SomatoEmotional Release (SER) to understand, address, and overcome the stress that traumatic events cause and transform the painful experiences inherent in life into opportunities for growth and expanded awareness. Sharing Dr. Upledger's techniques and his own innovative applications of CST and SER across 20 years of practice, Maggio presents tools and exercises to facilitate your inner self-healing mechanisms and support yourself and others through the stages of grief and bereavement following a loss—whether the loss is large or one of the “small deaths,” such as losing a job or ending a relationship. The author explores all of the biological and energetic evolutionary stages of the life cycle through the lens of CST and shares manual therapy techniques and self-help exercises to process emotions and experiences, assess the energetic framework of the body and the chakras, and recognize and transform destructive energies into constructive processes. He looks at how to combine CST techniques with other protocols for managing the grieving process, including the Holmes and Rahe Stress Scale and Elisabeth Kübler-Ross's stages of grief. He also explores how CST and SER techniques can help support the dying and those around them in the process of transition. Revealing how CranioSacral Therapy can help us integrate challenges and traumas whether recent or long past, Maggio shows how our experiences can give us the opportunity to evolve and grow as we journey through the beautiful cycles of life.

Tutela Jurídica dos Torcedores Joseane Suzart Lopes da Silva, 2024-10-09 A Lei n.º 14.597/2023 revogou o Estatuto de Defesa do Torcedor, reunindo parte deste diploma legal com outros conjuntos normativos concernentes à temática. Além de dificultar a compreensão do povo dada a confluência de várias normas, eliminou importantíssimos dispositivos no que tange à proteção da incolumidade dos espectadores e do direito de se inteirar de relevantes aspectos das competições. Conflita a Lei Geral do Esporte com a Lei n.º 8.078/90, cuja essência assenta-se na prevenção de vícios, que possam causar acidentes, e na transparência. Destina-se a presente obra a contribuir para a efetiva proteção de todos aqueles que sejam destinatários finais das competições. A intensificação das apostas esportivas e o interesse por tal nicho mercadológico têm sido constatados no Brasil diante do aumento do número de empresas no ramo e da presença de uma multiplicidade de consumidores. Em face deste cenário, em 29 de dezembro de 2023, foi editada a Lei n.º 14.790, que propiciou o encerramento dos efeitos da MP n.º 1182/2023. O governo federal implementou alterações na Lei n.º 13.756/2018, possibilitando o ingresso de pessoas jurídicas de direito privado nesta seara, eis que, anteriormente, era explorada, de forma exclusiva, pelo poder público. Objetiva-se apontar as alterações que foram benéficas para a população e os avanços não colimados com a atual estrutura normativa, alertando-a sobre os instrumentos para a sua devida tutela.

Tributação da Economia Digital e das novas tecnologias (ênfase na Tributação Direta) do programa de Mestrado e Doutorado do Programa de Pós-Graduação em Direito (PPG-Dir) da Universidade do Estado do Rio de Janeiro - UERJ, bem como membros do corpo docente e pesquisadores da UERJ trata de temas relevantes no âmbito da Tributação da Economia Digital internacional. A inquestionável relevância da disciplina e dessa obra se deve não só aos calorosos debates e alterações no cenário nacional e internacional no que tange ao tema da tributação das novas tecnologias, cada vez mais presente em nosso dia-dia, como também à necessidade prática de orientação do fisco e dos contribuintes no que tange à tributação das novas tecnologias, face aos diversos questionamentos que a temática levanta. Temas debatidos ao longo dessa obra como criptomoedas, estruturação internacional, tributação de serviços considerando o cenário tecnológico, cadeia de valor e muitos outros estão no centro da pauta dos debates e questionamentos internacionais. A obra não pretende esgotar qualquer dos assuntos e sim servir de base para novas discussões e ideias de como lidar com a tributação da tecnologia que gera dúvidas e insegurança jurídica ao redor do mundo.

Vector and Complex Calculus Fabian Waleffe,2024-10-25 Vector and complex calculus are essential for applications to electromagnetism, fluid and solid mechanics, and the differential geometry of surfaces. Moving beyond the limits of standard multivariable calculus courses, this comprehensive textbook takes students from the geometry and algebra of vectors, through to the key concepts and tools of vector calculus. Topics explored include the differential geometry of curves and surfaces, curvilinear coordinates, ending with a study of the essential elements of the calculus of functions of one complex variable. Vector and Complex Calculus is richly illustrated to help students develop a solid visual understanding of the material, and the tools and concepts explored are foundational for upper-level engineering and physics courses. Each chapter includes a section of exercises which lead the student to practice key concepts and explore further interesting results.
