Fashion Buying and Merchandising Rosy Boardman, Rachel Parker-Strak, Claudia E. Henninger, 2020-05-10 Fashion buying and merchandising has changed dramatically over the last 20 years. Aspects such as the advent of new technologies and the changing nature of the industry into one that is faster paced than ever before, as well as the shift towards more ethical and sustainable practices have resulted in a dramatic change of the roles. As a result, contemporary fast fashion retailers do not follow the traditional buying cycle processes step by step, critical paths are wildly different, and there has been a huge increase in 'in-season buying' as a response to heightened consumer demand. This textbook is a comprehensive guide to 21st-century fashion buying and merchandising, considering fast fashion, sustainability, ethical issues, omnichannel retailing, and computer-aided design. It presents an up-to-date buying cycle that reflects key aspects of fashion buying and merchandising, as well as in-depth explanations of fashion product development, trend translation, and sourcing. It applies theoretical and strategic business models to buying and merchandising that have traditionally been used in marketing and

management. This book is ideal for all fashion buying and merchandising students, specifically second- and final-year undergraduate as well as MA/MSc fashion students. It will also be useful to academics and practitioners who wish to gain a greater understanding of the industry today.

Responsible Fashion Business in Practice Sennait Ghebreamichael, Sally Heale, 2023-04-14 This unique text offers a holistic, insightful and timely exploration of sustainable practices across the fashion industry. The book takes the reader logically through each part of the authors' new Responsible 9 Framework™, providing a clear perspective and examples for each component. The framework thoroughly explains the move away from a singular product commercial focus to a Conscious Item approach and Circular Services business mindset. An organisation's people are at the heart of the new framework and have therefore been rebranded as Community. Next addressed is the Perceived Value of an item or brand, and how sustainable pricing initiatives actively influence consumer purchase. Insights into Accountable Systems are reviewed to examine the importance of responsible processes when considering and integrating a successful, sustainable supply chain into a fashion business. The section on Governance looks at the different global organisations available to fashion brands and customers alike, which support their transition into a responsible and sustainable future existence. The last two sections of the framework are labelled Storytelling Platforms and Honest Communication, where transparent and honest strategies are highlighted and discussed from a viewpoint of how modern brands are engaging and connecting to the new conscious consumer. For each of the nine aspects, contemporary case studies from global brands such as Stella McCartney, Zalando and Arc'teryx, alongside insights from current, leading experts within the fashion world, bring the theory to life. Showing how sustainability has been integrated throughout the entirety of the fashion business, this textbook is perfect for advanced undergraduate and postgraduate students Fashion Management, Fashion Brand Management and Fashion Marketing, as well as reflective leaders and practitioners within the industry.
