

Etica E Infinito Levinas

Mirtha Rodríguez,Pablo César Martín Meier

Etica e infinito Emmanuel Lévinas,1991 *Ética e infinito* recoge las conversaciones mantenidas entre Emmanuel Lévinas y Philippe Nemo, a través de las cuales podemos tener una idea resumida pero muy completa del pensamiento del filósofo. La edición se acompaña con una introducción y abundantes notas de Jesús María Ayuso Díez, traductor del texto.

Ética de la compasión Joan-Carles Mèlich,2013-03-27 La ética es la respuesta a una interpelación que pone en cuestión el orden moral. Lo que nos convierte en humanos no es la obediencia a un código universal y absoluto sino el reconocimiento de la radical vulnerabilidad de nuestra condición y el hecho de no poder eludir la demanda del dolor del otro. No hay ética porque sepamos qué es el bien, sino porque hemos vivido y hemos sido testigos de la experiencia del mal. No hay ética porque uno cumpla con su deber, sino porque nuestra respuesta ha sido adecuada al sufrimiento. No hay ética porque seamos dignos, porque tengamos dignidad, sino porque somos sensibles a los indignos, a los infrahumanos, a los que no son personas. La ética, pues, a diferencia de la moral, es la respuesta compasiva que damos a los heridos que nos interpelan en los distintos trayectos de nuestra vida, cuando bajamos de Jerusalén a Jericó.

Desire and Human Flourishing Magdalena Bosch,2020-07-23 This book discusses the concept of desire as a positive factor in human growth and flourishing. All human decision-making is preceded by some kind of desire, and we act upon desires by either rejecting or following them. It argues that our views on and expressions of desire in various facets of life and through time have differed according to how human beings are taught to desire. Therefore, the concept has tremendous potential to affect human beings positively and to enable personal growth. Though excellent research has been done on the concepts of flourishing, character education and positive psychology, no other work has linked the concept of desire to all of these topics. Featuring key references, explanations of central concepts, and significant practical applications of desire to

various fields of human thought and action, the book will be of interest to students and researchers in the fields of positive psychology, positive education, moral philosophy, and virtue ethics.

An Interdisciplinary Approach to Vulnerability Carolina Montero Orphanopoulos, 2025-05-17 This book examines vulnerability as an anthropological category, unveiling its profound role in defining human existence. Through an exploration of relationality, dependence, and finitude, it sheds light on how vulnerability shapes human experience and our shared fragility. Engaging with key philosophical, psychological, bioethical and sociological traditions, the volume invites readers to reconsider vulnerability not as a limitation but as a foundation for connection and solidarity. With this approach, the book lays the groundwork for a deeper understanding of human nature, enriched by interdisciplinary dialogue. A precursor to the theological and ethical reflections developed in the second volume, this work redefines vulnerability as central to the human condition.

The Pertinence of Exodus: Philosophical Questions on the Contemporary Symbolism of the Biblical Story Sandro Gorgone, Laurin Mackowitz, 2019-10-15 The Exodus has a risky and combative character that links individuals to their unconscious, to the uncertainty of their reality, and to the possibility of the disturbing event of the incalculable arrival of the Other. This encounter with the unknown does not expect a messianic salvation but a human solution, which is aware that change requires the abandonment of self-referential identities. This eccentricity is more than evasive desertion or escapism, but an experiment with new modes of organizing community that grows on the responsibilities that go with it. This collected volume gathers contemporary philosophical perspectives on the Exodus, examining the story's symbolic potentials and dynamics in the light of current social political events. The imagination of the Promised Land, the figure of the migrant, the provisional and precarious dwelling of the camp, the promise of a better future or the gradual estrangement from inherited habits are all challenges of our time that are already conceptualized in the Exodus. The authors reaffirm the pertinence of the story by addressing the fundamental link between the ancient narrative and the human condition of the 21st century.

Methodologies in Peace Psychology Diane Bretherton, Siew Fang Law, 2015-09-03 This volume looks at research methods through the lens of peace studies and peace values. Apart from reviewing established methods from peace psychology, it presents some innovative ideas for conducting research in the area of peace psychology. Many of these methods are drawn from the field, from activities used by active peace practitioners. A critical component of this volume is its core argument that peace research should be conducted by peaceful means, and should model peaceful processes. Organized thematically, the volume begins with a review of the established best practices in peace psychology research methodology, including methods for qualitative research, for quantitative research, and participative action networks. In doing so, it also points to some of the limitations of working for peace within the tradition of a single discipline and to the need to expand psychology methodology, to methodologies. Therefore, the second half of the volume proceeds to explore the realm of innovative, relatively unorthodox

research methods, such as participatory and workshop methods, the creative arts, and sports for research purposes. The use of new advances in information technology to conduct peaceful research are also discussed. The concluding chapters synthesize key issues from the previous chapters, and links peace psychology with ideas and implementation of research designs and practices. Finally, it discusses the nature of academic knowledge, and more specifically, academic knowledge in peace psychology, and where that fits into the mission to build a more peaceful world. Overall this book aims to provide peace psychologists with an array of possibilities and best practices for approaching their research. Many researchers find the experience of doing research a somewhat lonely, if not isolating, experience. Methodologies in Peace Psychology: Peace Research by Peaceful Means aims to alleviate this feeling as the use of these more innovative methods leads to a closer engagement with the community and a much more social experience of research. This volume is a useful tool for both new and experienced researchers because it provides leads for idealistic young researchers who want their work to make a difference, in addition to encouraging more reflection and analysis for experienced peace psychologists.

Personalist Anthropology: A philosophical guide to life Juan Manuel Burgos, 2022-04-05 Philosophical personalism has generated a very powerful field of study in the twentieth and twenty first centuries but has not produced a systematic exposition. This book fills this big gap by offering for the first time a full systematic personalistic vision of the human person. This ambitious volume offers a pedagogical and integrated exposition of philosophical personalism, answering vital questions about human identity and existence in a way that the reader (or student) can achieve an integrated view of the person. The book points to the real life of each person so that, by partially unraveling the mystery of the personal being, it becomes a philosophical guide for life. For these reasons, the book can be used both for academic purposes, as a manual of philosophy of man or for personal enlightenment. Divided in five parts, the first part of the book works as an introduction, offering an overview of the human person and of the notion of person. The second part describes the internal structure of the human

being addressing topics as corporeity as a personal fact; sensibility and the senses; affectivity; intelligence; freedom understood as choice and self-determination and, finally, the personal self. The third part analyses the person in action and some special types of action such as work and language. The fourth part deals with interpersonal relationships beginning with I-You relationship (friendship, love) and following with the family and the social structure. Finally, part five deals with the so-called ultimate questions, that is, those that decide the final meaning of each person's life, namely, time, death, immortality, and religion.

ÉTICA ENTRE LA EDUCACIÓN Y FILOSOFÍA Luis Radford, Maritza Silva Acuña, 2021-03-01 El avance implacable del consumo y la reducción de la acción humana a la esfera económica han suscitado, en los últimos tiempos, la necesidad de repensar la relación entre las personas. En este contexto, la ética se presenta como un lugar privilegiado para imaginar, a partir de nuevos senderos, dicha relación. Ahora bien, la aparición de una nueva dimensión humana no alienante no puede darse si no es mediante un proceso educativo. De allí que Ética: entre educación y filosofía se vuelque a la ética con una mirada doble: una mirada desde la filosofía y una mirada desde la educación. El libro cuyos capítulos han sido escritos por filósofos y educadores aborda la ética desde varias perspectivas, con el propósito de situar el acto ético en una forma de sensibilidad que desborda la carne del cuerpo sensible para entrar en las dimensiones estética, política y pedagógica e imaginar de nuevas maneras las responsabilidades y las relaciones que amarran al Ser y al Otro.

Masks and Human Connections Luísa Magalhães, Cândido Oliveira Martins, 2023-01-31 This interdisciplinary collection explores four distinct perspectives about the mask, as object of use for protection, identity, and disguise. In part I,

contributors address human identities within collective social performance, with chapters on performativity and the far right and masked identities in political resistance and communication. Part II focuses on the mask as a signifying object with strong representational challenges, exploring representations in festivals, literature, and film. Part III investigates the ambiguous use of the mask as a protective and concealing element, delving into visual culture and digital social media contexts. Finally, Part VI draws on the work of Levinas and Deleuze to investigate a philosophical view of the mask that addresses memory and ethics within intersubjective relationships. Questioning the contemporary world, using communication, sociology, visual culture, and philosophical theory, the volume provides a pedagogical and formative perspective on the mask.

Trinidad, deseo y subversión Emilia Bea Pérez, Olga Belmonte García, Sarah Coakley, Montserrat Escribano Cárcel, María Elisa Estévez López, Teresa Forcades i Vila, Silvia Martínez Cano, 2021-05-03 El deseo de Dios crea y mueve nuestra interioridad atrayendo y centralizando parte de lo que somos. Este libro recoge algunas reflexiones desde una perspectiva poco explorada: el deseo de las mujeres y el deseo pensado por ellas mismas. Sus autoras son teólogas y filósofas que se adentran en lo que el deseo de Dios significó para la vida creyente. Asomarnos al texto misionero de la samaritana, a la potencia mística de las metáforas vividas por Hildegarda de Bingen o a la esperanza luminosa de Etty Hillesum es recorrer parte de la vida trinitaria. Permite repensar las genealogías del conocimiento teológico y ciertas memorias creyentes que fueron dañadas. Recupera para ello exégesis y hermenéuticas textuales feministas, y plantea cuestiones subversivas que aún no han sido respondidas y que abren horizontes creyentes más éticos.

The Differentiation of Authority James Greenaway, 2012-04-04 In this study, James Greenaway explores the philosophical continuity between contemporary Western society and the Middle Ages. Allowing for genuinely modern innovations, he makes the claim that the medieval search for order remains fundamentally unbroken in our search for order today.

THE IDEAS FACTORY ,2024-09-29 This book explores how the beliefs and paradigms that govern our lives are manufactured and marketed, especially in the personal development industry. The text offers a deep analysis of how we have been trapped in an individualistic logic that promotes the idea that well-being depends exclusively on personal effort, when in reality many of our problems are of a social and collective nature. From this critique, an approach based on the power of the community is proposed, redefining our beliefs to build new, more inclusive and conscious realities. The book presents a clear and accessible method called Creators, which invites readers to move from being passive consumers of ideas to active creators of new realities, where personal and collective transformation are intertwined. This makes it a unique resource in today's market, where the self-help industry has saturated people with empty promises of individual change.

Ética: Abordagens e Perspectivas Cesar Candiottto, 2023-10-17 Ética: abordagens e perspectivas é um livro que pretende

oferecer reflexões teóricas voltadas ao aprofundamento das questões éticas, sem deixar de ser acessível à compreensão do leitor principiante. Suas mais diversas contribuições almejam incentivar o debate e a interação com fragmentos clássicos, bem como sua plasticidade em filmes relacionados aos temas apresentados. Nele, é trabalhado o conceito de ética, seu desenvolvimento entre pensadores clássicos, tais como Aristóteles, Agostinho, Tomás de Aquino, Rousseau e Kant, bem como os limites dessas abordagens clássicas em autores como Nietzsche, Foucault, Freud, Darwin, Schopenhauer e Peter Singer. Além disso, o livro oferece a oportunidade de conhecer algumas perspectivas atuais, como a ética da responsabilidade de Hans Jonas, a ética da alteridade de Emmanuel Levinas e a relação entre bioética e biociências. Sem exaurir todas as possibilidades que a problematização da ética pode propiciar, o livro instiga a empreender uma promissora aventura intelectual mediante o estudo de suas principais linhas de força.
