Brill's Companion to Callimachus Benjamin Acosta-Hughes, Luigi Lehnus, Susan Stephens, 2011-09-15 Few figures from Greco-Roman antiquity have undergone as much reassessment in recent decades as Callimachus of Cyrene, who was active at the Alexandrian court of the Ptolemies during the early third century BC. Once perceived as a supreme example of ivory tower detachment and abstruse learning, Callimachus has now come to be understood as an artificer of the images of a powerful and vibrant court and as a poet second only to Homer in his later reception. For the modern audience, the fragmentation of his texts and the diffusion of source materials has often impeded understanding his poetic achievement. Brill's Companion to Callimachus has been designed to aid in negotiating this scholarly terrain, especially the process of editing and collecting his fragments, to illuminate his intellectual and social contexts, and to indicate the current directions that his scholarship is taking.

Divine Music in Archaic and Classical Greek Art Carolyn Laferrière, 2024-02-29 This book examines representations of divine music to argue that visual arts could communicate the sound of divine music being depicted.

The Historian's Craft in the Age of Herodotus Nino Luraghi, 2007 The origins and development of Greek historiography cannot be properly understood unless early historical writings are situated in the framework of late archaic and early classical Greek culture and society. Contextualization opens up new perspectives on the subject in *The Historian's Craft in the Age of Herodotus*. At the same time, such writings offer significant insights into how works of Herodotus reflect the attitude of fifth-century Greeks towards the transmission and manipulation of knowledge about the past. Essays by an international range of experts explore all aspects of the topic and, at the same time, make a thought-provoking contribution to the ongoing debates concerning literacy and oral culture.

In the Company of Many Good Poets. Collected Papers of Franco Montanari Franco Montanari, 2023-10-24 Volume I of Franco Montanari's *Kleine Schriften* comprises some 66 papers on ancient scholarship, a topic which he decisively helped establishing as an extremely important field of study; they include general surveys of Alexandrian and Pergamene philology, major contributions to ancient Homeric scholarship (with a particular emphasis on Aristarchus), ancient scholarship on Hesiod and Aeschylus, as well as an important number of editions and notes on papyrological scholarly texts. Volume II consists of 42 contributions to Homer's *Iliad* and *Odyssey*, Pindar, Aeschylus, Herodotus, Euripides,

the Athenaion Politeia, Lucian, Nonnus, philosophical papyri, the reception of antiquity and portraits of contemporary scholars.

On Coming After Richard Hunter, 2009-02-26 This book gathers together many of the principal essays of Richard Hunter, whose work has been fundamental in the modern re-evaluation of Greek literature after Alexander and its reception at Rome and elsewhere. At the heart of Hunter's work lies the high poetry of Ptolemaic Alexandria (Callimachus, Theocritus, and Apollonius of Rhodes) and the narrative literature of later antiquity ('the ancient novel'), but comedy, mime, didactic poetry and ancient literary criticism all fall within the scope of these studies. Principal recurrent themes are the uses and recreation of the past, the modes of poetic allusion, the moral purposes of literature, the intellectual context for ancient poetry, and the interaction of poetry and criticism. What emerges is not a literature shackled to the past and cowed by an 'anxiety of influence', but an energetic and constantly experimental engagement with both past and present.

Myths, Martyrs, and Modernity Jitse Dijkstra, Justin Kroesen, Yme Kuiper, 2010-01-11 This volume in honour of Jan N. Bremmer contains the contributions of numerous students, colleagues, and friends offered to him on the occasion of his 65th birthday. Throughout his career, Bremmer has distinguished himself as an internationally renowned scholar of religion both past and present, including first and foremost Greek and Roman religion, but also early Christianity and post-classical developments in religion and spirituality. In line with these three main areas of Bremmer's research, the volume is divided into three parts, bringing together contributions from distinguished scholars in many fields. The result is a diverse book which provides a broad spectrum of original ideas and innovative approaches in the history of religions, thus reflecting the nature of the scholarship of Bremmer himself.

Time in Ancient Stories of Origin Anke Walter, 2020-06-29 Greek and Roman stories of origin, or aetia, provide a fascinating window onto ancient conceptions of time. Aetia pervade ancient literature at all its stages, and connect the past with the present by telling us which aspects of the past survive even now or ever since then. Yet, while the standard aetiological formulae remain surprisingly stable over time, the understanding of time that lies behind stories of origin undergoes profound changes. By studying a broad range of texts and by closely examining select stories of origin from archaic Greece, Hellenistic Greece, Augustan Rome, and early Christian literature, *Time in Ancient Stories of Origin* traces the changing forms of stories of origin and the underlying changing attitudes to time: to the interaction of the time of gods and men, to historical time, to change and continuity, as well as to a time beyond the present one. Walter provides a model of how to analyse the temporal construction of aetia, by combining close attention to detail with a view towards the larger temporal agenda of each work. In the process, new insights are provided both into some of the best-known aetiological works of antiquity (e.g. by Hesiod, Callimachus, Vergil, Ovid) and lesser-known works (e.g. Ephorus, Prudentius, Orosius). This

volume shows that aetia do not merely convey factual information about the continuity of the past, but implicate the present in ever new complex messages about time.

The Greek Theatre and Festivals Peter Wilson, 2007-06-14 A collection of essays, by leading international scholars, on the history of the Greek theatre, and on the wider context of festival culture in which theatrical activity took place in the Greek world. The emphasis is on the documentary material - inscriptions, archaeological remains and monuments - which provides so much of our 'hard' evidence for the activities of the theatre. Much of the important material discussed here is unknown except to specialists, and these studies offer access to its interpretation to a wider audience. They cover a wide range of time and place, from the earliest days of the Greek theatre to the Roman period, with special emphasis on the neglected Hellenistic period, which is especially rich in documentary evidence.

Women's Influence on Classical Civilization Eireann Marshall, Fiona Mchardy, 2004-07-31 Written by an international range of renowned academics, this volume explores how women in antiquity influenced aspects of culture normally thought of as male. Looking at politics, economics, science, law and the arts, the contributors examine examples from around the ancient world asking how far traditional definitions of culture describe male spheres of activity, and examining to what extent these spheres were actually created and perpetuated by women. *Women's Influence on Classical Civilization* provides students with a valuable wider perspective on the roles and influence of women in the societies of the Greek and Roman worlds.

Studies in the Reception of Pindar in Ptolemaic Poetry Alexandros Kampakoglou, 2019-08-05 Recent years have witnessed a revival of interest in the influence of archaic lyric poetry on Hellenistic poets. However, no study has yet examined the reception of Pindar, the most prominent of the lyric poets, in the poetry of this period. This monograph is the first book to offer a systematic examination of the evidence for the reception of Pindar in the works of Callimachus of Cyrene, Theocritus of Syracuse, Apollonius of Rhodes and Posidippus of Pella. Through a series of case studies, it argues that Pindaric poetry exercised a considerable influence on a variety of Hellenistic genres: epinician elegies and epigrams, hymns, encomia, and epic poetry. For the poets active at the courts of the first three Ptolemies, Pindar's poetry represented praise discourse in its most successful configuration. Imitating aspects of it, they lent their support to the ideological apparatus of Greco-Egyptian kingship, shaped the literary profile of Pindar for future generations of readers, and defined their own role and place in Greek literary history. The discussion offered in this book suggests new insights into aspects of literary tradition, Ptolemaic patronage, and Hellenistic poetics, placing Pindar's work at the very heart of an intricate nexus of political and poetic correspondences.

Myth and History in Ancient Greece Claude Calame, 2003-07-22 Surely the ancient Greeks would have been baffled to see what we consider their mythology. Here, Claude Calame mounts a powerful critique of modern-day misconceptions on this front and the lax methodology that has allowed them to prevail. He argues that the Greeks viewed their abundance of narratives not as a single mythology but as an archaeology. They speculated symbolically on key historical events so that a community of believing citizens could access them efficiently, through ritual means. Central to the book is Calame's rigorous and fruitful analysis of various accounts of the foundation of that most mythical of the Greek colonies--Cyrene, in eastern Libya. Calame opens with a magisterial historical survey demonstrating today's misapplication of the terms myth and mythology. Next, he examines the Greeks' symbolic discourse to show that these modern concepts arose much later than commonly believed. Having established this interpretive framework, Calame undertakes a comparative analysis of six accounts of Cyrene's foundation: three by Pindar and one each by Herodotus (in two different versions), Callimachus, and Apollonius of Rhodes. We see how the underlying narrative was shaped in each into a poetically sophisticated, distinctive form by the respective medium, a particular poetical genre, and the specific socio-historical circumstances. Calame concludes by arguing in favor of the Greeks' symbolic approach to the past and by examining the relation of mythos to poetry and music.
