Educators and librarians extol the benefits of comics reading, and increasingly, children's and YA comics and comics hybrids have won major prizes, including the Printz Award and the National Book Award. The anthology is divided into five sections, structure and narration; transmedia; pedagogy; gender and sexuality; and identity, that reflect crucial issues and recurring topics in comics scholarship during the twenty-first century. The contributors are likewise drawn from a diverse array of disciplines--English, education, library science, and fine arts. Collectively, they analyze a variety of contemporary comics, including such highly popular series as *Diary of a Wimpy Kid* and *Lumberjanes*; Eisner award-winning graphic novels by Gene Luen Yang, Nate Powell, Mariko Tamaki, and Jillian Tamaki; as well as volumes frequently challenged for use in secondary classrooms, such as Raina Telgemeier's *Drama* and Sherman Alexie's *The Absolutely True Diary of a Part-Time Indian*.

Partnering with Parents Mary Schreiber, 2019-04-01 Caregiver involvement is key to a child's reading success story, and libraries are in the perfect position to provide the guidance needed for parents and caregivers to embrace their role as their children's first and most enduring teachers. Libraries offer many programs and services for children, but sometimes caregivers are left out of the equation, especially once children start school. Nevertheless, parents and caregivers are an integral part of literacy development, and libraries are a great place for them to witness modeling practices and participate in engaging family programs that encourage early literacy. Mary Schreiber combines personal experience and professional research with the programming expertise of youth librarians from across the country in this guide for libraries looking to make an even greater impact on the level of literacy attained by the children they serve. In *Partnering with Parents*, readers will find a wealth of information on how to talk to caregivers about the different stages of a child's reading life, what books to recommend to excite both caregivers and children about reading, and ways to encourage parent and caregiver participation in library programming, with additional information on working with and providing programming for diverse families.

Whether you are a veteran in the profession or brand new to working with families, you will find something in this book that will help you to make your library a more integral part of the education community.

Inclusive Educational Practice Teresa Grainger, Janet Tod, 2013-10-28 First Published in 2001. An inclusive education is one which seeks to respond to individual differences through an entitlement of all learners to common curricula. (Armstrong and Barton 2000). This book attempts to respond to this definition of inclusion by examining the principles of the literacy curriculum and a range of pedagogic practices. The complex relationships between inclusion, literacy and learning are acknowledged and it is argued that quality learning in language and literacy can work towards increased equity and involvement within the classroom community.
