Red Dragon Thomas Harris, 2022-07-12 THE NEW YORK TIMES BESTSELLER Feed your fears with the terrifying classic that introduced cannibalistic serial killer Hannibal Lecter. FBI agent Will Graham once risked his sanity to capture Hannibal Lecter, an ingenious killer like no other. Now, he's following the bloodstained pattern of the Tooth Fairy, a madman who's already wiped out two families. To find him, Graham has to understand him. To understand him, Graham has only one place left to go: the mind of Dr. Lecter.

As American as Mom, Baseball, and Apple Pie Linda J. Holland-Toll, 2001 This book does nothing less than redefine the very genre of horror fiction, calling into question the usual conventions, motifs, and elements. Unlike many critics of this genre, Linda Holland-Toll sees dis/affirmative horror fiction acting neither to soothe fears nor reduce them to the vicarious "thrills 'n' chills" mode, but as intensifying the fears inherent in everyday life.

Dissecting Hannibal Lecter Benjamin Szumskyj, 2008-01-22 This comprehensive study of author Thomas Harris' popular works focuses particularly on Harris's internationally known antihero Hannibal The Cannibal Lecter in the classic novels *Red Dragon*, *Silence of the Lambs*, and *Hannibal*. In 12 scholarly essays, the work examines several themes within Harris' trilogy, including the author's artistic exploration of repressed desires, his refinement of neo-noir themes and the serial killer motif, and his developing perceptions of feminine gender roles. Several essays also focus on Harris' works before and after the popular trilogy, examining themes such as gothic romance in Harris's first novel *Black Sunday* and the making of a monster in the trilogy's 2006 prequel *Hannibal Rising*.

Psycho Paths Philip L. Simpson, 2000 Philip L. Simpson provides an original and broad overview of the evolving serial killer genre in the two media most responsible for its popularity: literature and cinema of the 1980s and 1990s. The fictional serial killer, with a motiveless, highly individualized modus operandi, is the latest manifestation of the multiple murderers and homicidal maniacs that haunt American literature and, particularly, visual media such as cinema and television. Simpson theorizes that the serial killer genre results from a combination of earlier genre depictions of multiple murderers, inherited Gothic storytelling conventions, and threatening folkloric figures reworked over the years into a contemporary mythology of violence. Updated and repackaged for mass consumption, the Gothic villains, the monsters, the vampires, and the werewolves of the past have evolved into the fictional serial killer, who clearly reflects American cultural anxieties at the

start of the twenty-first century. Citing numerous sources, Simpson argues that serial killers' recent popularity as genre monsters owes much to their pliability to any number of authorial ideological agendas from both the left and the right ends of the political spectrum. Serial killers in fiction are a kind of debased and traumatized visionary, whose murders privately and publicly re-empower them with a pseudo-divine aura in the contemporary political moment. The current fascination with serial killer narratives can thus be explained as the latest manifestation of the ongoing human fascination with tales of gruesome murders and mythic villains finding a receptive audience in a nation galvanized by the increasingly apocalyptic tension between the extremist philosophies of both the New Right and the anti-New Right. Faced with a blizzard of works of varying quality dealing with the serial killer, Simpson has ruled out the catalog approach in this study in favor of in-depth analysis of the best American work in the genre. He has chosen novels and films that have at least some degree of public name-recognition or notoriety, including *Red Dragon* and *The Silence of the Lambs* by Thomas Harris, *Manhunter* directed by Michael Mann, *Henry: Portrait of a Serial Killer* directed by John McNaughton, *Seven* directed by David Fincher, *Natural Born Killers* directed by Oliver Stone, *Zombie* by Joyce Carol Oates, and *American Psycho* by Bret Easton Ellis.

Casting Might-Have-Beens Eila Mell, 2015-01-24 Some acting careers are made by one great role and some fall into obscurity when one is declined. Would Al Pacino be the star he is today if Robert Redford had accepted the role of Michael Corleone in *The Godfather*? Imagine Tom Hanks rejecting Uma Thurman, saying that she acted like someone in a high school play when she auditioned to play opposite him in *The Bonfire of the Vanities*. Picture Danny Thomas as *The Godfather*, or Marilyn Monroe as Cleopatra. This reference work lists hundreds of such stories: actors who didn't get cast or who turned down certain parts. Each entry, organized alphabetically by film title, gives the character and actor cast, a list of other actors considered for that role, and the details of the casting decision. Information is drawn from extensive research and interviews. From *About Last Night* (which John Belushi turned down at his brother's urging) to *Zulu* (in which Michael Caine was not cast because he didn't look Cockney enough), this book lets you imagine how different your favorite films could have been.

Hard-boiled Sentimentality Leonard Cassuto, 2009 Leonard Cassuto's cultural history of the hard-boiled crime genre recovers the fascinating link between tough guys and sensitive women

Le Guin, Stephen King, and others to discover how contemporary writers engage plot, character, dialogue, and suspense--Page 4 of cover.

Off-White Sheng-mei Ma, 2019-11-14 How do English-speaking novelists and filmmakers tell stories of China from a Chinese perspective? How do they keep up appearances of pseudo-Sino immanence while ventriloquizing solely in the English language? Anglo writers and their readers join in this century-old game of impersonating and dubbing Chinese. Throughout this wish fulfillment, writers lean on grammatical and conceptual frameworks of their mother tongue to represent an alien land and its yellowface aliens. Off-white or yellow-ish characters and their foreign-sounding speech are thus performed in Anglo-American fiction and visual culture; both yellowface and Chinglish are of, for, by the (white) people. *Off-White* interrogates seminal Anglo-American fiction and film on off-white bodies and voices. It commences with one Nobel laureate, Pearl Buck, and ends with another, Kazuo Ishiguro, almost a century later. The trajectory in between illustrates that the detective and mystery genres continue unabated their stock yellowface characters, who exude a magnetic field so powerful as to pull in Japanese anime. This universal drive to fashion a foil is ingrained in any will to power, so much so that even millennial China creates an “off-yellow,” darker-hued Orient in Hollywood films to silhouette its global ascent.

Madness, Power and the Media S. Harper, 2009-07-30 Questioning the psychiatric construction of mental distress as 'illness', and challenging existing studies of media stigmatization, Stephen Harper argues that today's media images of mental distress are often sympathetic, yet tend to reproduce the sexist, classist, racist and individualist ideologies of contemporary capitalism.

The Royal Nonesuch Glasgow Phillips, 2007-12-01 “The hipster cultural economy of the dot-com boom is skewered in this hilarious coming-of-age memoir.” —Publishers Weekly, starred review Glasgow Phillips published his debut novel *Tuscaloosa* at the tender age of twenty-four. The results were disastrous: encouraging reviews, translations, a paperback sale, a film option, and a Stegner Fellowship at Stanford. But over the next two years, as Phillips's second novel unraveled and freelance journalism assignments ended in humiliation, a horrible, secret thought took hold in him: perhaps, just possibly, whatever talent he had was of the kind that would never be more than promise. Washed up as a “real” writer before he was thirty, Phillips went to Los Angeles and formed a company with his best childhood friend Jason McHugh, independent producer of

Cannibal! The Musical and Orgazmo. The Royal Nonesuch is the story of Phillips's rollercoaster ride through the twisted world of underground Hollywood and the funhouse of the Internet during the boom. Phillips builds a hilarious and poignant memoir, in the tradition of Augusten Burroughs and Sean Wilsey, from tales of promise and failure, family and madness, friendship and redemption, fame and infamy, and good old-fashioned hustling. It is a remarkable book; a brilliant portrait of a generation in all its foolish glory. "The best book I've read about being in your twenties and trying to figure out what to do with your life . . . Something this funny shouldn't also be this profound." —Matt Stone, cocreator of South Park

Cinema's Sinister Psychiatrists Sharon Packer, M.D., 2012-09-18 Film history is merged with psychiatric history seamlessly, to show how and why bad depictions of mind doctors (especially hypnotists) occur in early film, long before Hannibal Lecter burst upon the scene. The German Expressionist Dr. Caligari is not cinema's first psychotic charlatan, but he launches the stereotype of screen psychiatrists who are sicker than their patients. Many film psychiatrists function as political metaphors, while many more reflect real life clinical controversies. This book discusses films with diabolical drugging, unethical experimentation, involuntary incarceration, sexual exploitation, lobotomies, shock schlock, conspiracy theories and military medicine, to show how fact informs fantasy, and when fantasy trumps reality. Traditional asylum thrillers changed after hospital stays shortened and laws protected people against involuntary commitment. Except for six short golden years from 1957 to 1963, portrayals of bad psychiatrists far outnumber good ones and this book tells how and why that was.

Flashpoint Stentorville 2003 Helmut and J. E. H. Roth, 2019-08-13 Bart skips outta Fort Collins on an eastbound freight train and ends up in rural, rustbelt, Stentorville, Pennsylvania—a whacky place complete with forgetful old lady—Dotty, black-booted, ragtag bullies stomping around town, one weird, red-headed, whiz kid—Ollie, and a hard-to-read young lady—Abby with a gigantic fireman dad. Set in a previous era, readers will find eerie parallels to events happening today. Poignant while delving into difficult subjects of White Nationalism and Alzheimer's; Middle Grades to High School and adults who may need to understand societal influences on their children; Reading and literacy teachers: Theme, Point of View, Characters, Cause and Effect, History compare & contrast; Relatable, authentic, multicultural teen characters. Parallel stories which merge into one edgy climax. A worthy introduction for teens to a discussion of White Nationalism as part of the current national scene. Highly recommended.

Or is it just a reflection of modern society's deepest fears? The Myth of the Born Criminal offers the first comprehensive critique of the concept of psychopathy from the eighteenth-century origins of the born-criminal theory to the latest neuroimaging, behavioural genetics, and statistical studies. Jarkko Jalava, Stephanie Griffiths, and Michael Maraun use their expertise in neuropsychology, psychometrics, and criminology to dispel the myth that psychopathy is a biologically-based condition. Making Murder Philip L. Simpson, 2009-12-30 Thomas Harris created the iconic fictional murderer and sociopath, Hannibal Lecter. This book explores and analyzes the characters, artistry, and cultural impact of Harris's novels—four of which are centered on the terrifying villain of the iconic film, The Silence of the Lambs. Making Murder takes readers deep into the work of Thomas Harris and his iconic creation, Hannibal Lecter—one of modern fiction's most unforgettable characters. A former crime reporter, Harris's exhaustive research techniques have included extensive time with the FBI's Behavioral Science Unit studying actual serial killers. Like no other available volume, the book explores the dark heart within Harris's novels—the unflinching look at evil that makes them so much more than just good reads. Making Murder looks at all five of Harris's novels, starting with the suspenseful terrorist thriller, Black Sunday, then moving through the quartet of books in which Hannibal Lecter gradually moves from malevolent presiding spirit to unsettling, recognizably human protagonist. Author Philip Simpson looks at the critical response each book received and explores the works themselves in terms of story, characters, writing style, allusions and symbols, and themes. An introductory chapter provides insights into the author's life, publishing history, and significant cultural impact.

Iconophages Jérémie Koering, 2024-08-20 An unprecedented art-historical account of practices of image ingestion from ancient Egypt to the twentieth century Eating and drinking images may seem like an anomalous notion but, since antiquity, in the European and Mediterranean worlds, people have swallowed down frescoes, icons, engravings, eucharistic hosts stamped with images, heraldic wafers, marzipan figures, and other sculpted dishes. Either specifically made for human consumption or diverted from their original purpose so as to be ingested, these figured artifacts have been not only gazed upon but also incorporated—taken into the body—as solids or liquids. How can we explain such behavior? Why take an image into one’s own body, devouring it at the risk of destroying it, consuming rather than contemplating it wisely from a distance? What structures of the imagination underlie and justify these desires for incorporation? What are the visual configurations offered up to the mouth, and what are their effects? What therapeutic, religious, symbolic, and social functions can we attribute to these forms of relations with icons? These are a few of the questions raised in this investigation into iconophagy. *Iconophages* aims to retrace, for the first time, the history of iconophagy. Jérémie Koering examines this unexplored facet of the history of images through an interdisciplinary approach that ranges across art history, cultural and material history, anthropology, philosophy, and the history of the body and the senses. He analyzes the human investment, in terms of culture and imagination, at stake in this seemingly paradoxical way of experiencing images. Beyond the hidden knowledge unearthed here, these pages bring to light a new way of understanding images, just as they illuminate the occasionally outlandish relations we maintain with them.

The American Weird Julius Greve, Florian Zappe, 2020-10-01 Hitherto classified as a form of genre fiction, or as a particular aesthetic quality of literature by H. P. Lovecraft, the weird has now come to refer to a broad spectrum of artistic practices and expressions including fiction, film, television, photography, music, and visual and performance art. Largely under-theorized so far, *The American Weird* brings together perspectives from literary, cultural, media and film studies, and from philosophy, to provide a thorough exploration of the weird mode. Separated into two sections – the first exploring the concept of the weird and the second how it is applied through various media – this book generates new approaches to fundamental questions: Can the weird be conceptualized as a generic category, as an aesthetic mode or as an epistemological position? May the weird be thought through in similar ways to what Sianne Ngai calls the zany, the cute, and the interesting? What are the transformations it has undergone aesthetically and politically since its inception in the early twentieth century?

Which strands of contemporary critical theory and philosophy have engaged in a dialogue with the discourses of and on the weird? And what is specifically “American” about this aesthetic mode? As the first comprehensive, interdisciplinary study of the weird, this book not only explores the writings of Lovecraft, Caitlín Kiernan, China Miéville, and Jeff VanderMeer, but also the graphic novels of Alan Moore, the music of Captain Beefheart, the television show Twin Peaks and the films of Lily Amirpour, Matthew Barney, David Lynch, and Jordan Peele.
