Achieving Consilience Margherita Dore, 2016-04-26 At Master's level, students in Translation Studies may choose to complete their course by compiling a dissertation by commentary. Such projects involve detailed discussions of the strategies and procedures that students opt for when translating a source text of their choice (be it literary, audiovisual, or technical). However, the vast majority of these dissertations by commentary usually remain stored in university libraries. *Achieving Consilience: Translation Theories and Practice* brings to the fore the theoretical and practical potential of these dissertations by commentary. It demonstrates how theories in Translation Studies can be fruitfully, consciously and systematically applied during the translation practice, thus helping to transcend the received wisdom according to which theorists and practitioners share little common ground. Additionally, the contributors to this volume evince their ability to apply a research-driven approach to their analysis by comparing their work with official translations or other field-related texts. As such, this essay collection will contribute to a better understanding of the translator's decision-making process, and will offer future students valuable guidelines regarding the procedure normally followed in completing a dissertation by commentary.

Kris Attfield, 2012-01 *Letters to Whomever* is the sequel to *The Book of Finch* that occurs in the weeks after the publication of the original book. From Remembrance Day in November 2011 through January 2012, this book is largely a series of email messages and some email discussion regarding the truthfulness or validity of The Church of Jesus Christ of Latter Day Saints, or whatever the apparent falseness there might be in or of the organization. This book, though it is heavily a discussion of how valid the LDS church is, is relevant as a sequel because it shows how Finch will proceed in his relationship with the church - to try to provide illustration for the situation Finch was presented with at the end of the previous book. Whether the reader accepts or rejects the LDS church is a choice left up to the individual reader him or herself - but the individual determining their own relationship to the church should be educated on the various issues regarding the history of the church and modern life in the church. *Letters to Whomever* tries to provide an introduction to that broad debate.

The Vagina: A Literary and Cultural History Emma L. E. Rees, 2013-08-01 From South Park to Kathy Acker, and from Lars Von Trier to Sex and the City, women's sexual organs are demonized. Rees traces the fascinating evolution of this demonization, considering how calling the 'c-word' obscene both legitimates and perpetuates the fractured identities of

women globally. Rees demonstrates how writers, artists, and filmmakers contend with the dilemma of the vagina's puzzlingly 'covert visibility'. In our postmodern, porn-obsessed culture, vaginas appear to be everywhere, literally or symbolically but, crucially, they are as silenced as they are objectified. *The Vagina: A Literary and Cultural History* examines the paradox of female genitalia through five fields of artistic expression: literature, film, TV, visual, and performance art. There is a peculiar paradox - unlike any other - regarding female genitalia. Rees focuses on this paradox of what is termed the 'covert visibility' of the vagina and on its monstrous manifestations. That is, what happens when the female body refuses to be pathologized, eroticized, or rendered subordinate to the will or intention of another? Common, and often offensive, slang terms for the vagina can be seen as an attempt to divert attention away from the reality of women's lived sexual experiences such that we don't 'look' at the vagina itself - slang offers a convenient distraction to something so taboo. *The Vagina: A Literary and Cultural History* is an important contribution to the ongoing debate in understanding the feminine identity

South Park FAQ Dave Thompson, 2014-08-01 (FAQ). There are few modern animated television shows that could survive over a decade and a half and remain as funny... or as stupid... or as sick... or as depraved... today as when they started. Even fewer can claim to cater to mature audiences, while their critics complain that everything about the show is immature. And fewer still where, for the first decade or so, one of the main characters was killed off every week. Then returned, no worse for wear, seven days later. That, however, is the world of *South Park*, and this is a book about that world. A journey through the lives, times, and catastrophes that have established the tiny mountain town of South Park, Colorado, as America's favorite dysfunctional community. A voyage into a universe where Barbra Streisand is reborn as a Japanese monster movie; where Kentucky Fried Chicken is a registered drug; where Canada is forever on a footing for war; and where we discover that even feces love Christmas. From Zebulon Pike to Chef, from Brian Boitano to Mel Gibson, from Super Best Friends to *South Park: Bigger, Longer & Uncut*, it's all covered in *South Park FAQ*. Featuring A-Z coverage of the all the characters readers have come to know and the stories behind the episodes, it also includes an episode guide and an appendix of all of the songs featured in *South Park*. Nothing is sacred and nobody is safe. Even physical and emotional disabilities are just another banana skin for someone to slip on, and the term politically correct has been translated into oh good, you're getting annoyed. It is a place where ... you get the picture. This is not Bambi !

American Television During a Television Presidency Karen McNally, 2022-04-12 Undergraduate and graduate students and scholars of film and television studies, comedy studies, and cultural studies will value this strong collection.

Music in Television James Deaville, 2011-03 *Music in Television* is a collection of essays examining television's production of meaning through music in terms of historical contexts, institutional frameworks, broadcast practices, technologies, and aesthetics. It presents the reader with overviews of major genres and issues, as well as specific case studies of important television programs and events. With contributions from a wide range of scholars, the essays range from

historical-analytical surveys of TV sound and genre designations to studies of the music in individual programs, including South Park and Dr. Who.

Time in Television Narrative Melissa Ames, 2012-08 This collection analyzes twenty-first-century American television programs that rely upon temporal and narrative experimentation. These shows play with time, slowing it down to unfold the narrative through time retardation and compression. They disrupt the chronological flow of time itself, using flashbacks and insisting that viewers be able to situate themselves in both the present and the past narrative threads. Although temporal play has existed on the small screen prior to the new millennium, never before has narrative time been so freely adapted in mainstream television. The essayists offer explanations for not only the frequency of time play in contemporary programming, but the implications of its sometimes disorienting presence. Drawing upon the fields of cultural studies, television scholarship, and literary studies, as well as overarching theories concerning postmodernity and narratology, *Time in Television Narrative* offers some critical suggestions. The increasing number of television programs concerned with time may stem from any and all of the following: recent scientific approaches to quantum physics and temporality; new conceptions of history and posthistory; or trends in late-capitalistic production and consumption, in the new culture of instantaneity, or in the recent trauma culture amplified after the September 11 attacks. In short, these televisual time experiments may very well be an aesthetic response to the climate from which they derive. These essays analyze both ends of this continuum and also attend to another crucial variable: the television viewer watching this new temporal play.
