The Castaway's War Stephen Harding, 2016-05-03 Shipwrecked on a South Pacific island, a young US Navy lieutenant waged a one-man war against the Japanese. In the early hours of July 5, 1943, the destroyer USS Strong was hit by a Japanese torpedo. The powerful weapon broke the destroyer's back, killed dozens of sailors, and sparked raging fires. While accompanying ships were able to take off most of Strong's surviving crewmembers, scores went into the ocean as the once-proud warship sank beneath the waves--and a young officer's harrowing story of survival began. Lieutenant Hugh Barr Miller, a pre-war football star at the University of Alabama, went into the water as the vessel sank. Severely injured, Miller and several others survived three days at sea and eventually landed on a Japanese-occupied island. The survivors found fresh water and a few coconuts, but Miller, suffering from internal injuries and believing he was on the verge of death, ordered the others to go on without him. They reluctantly did so, believing, as Miller did, that he would be dead within hours. But Miller didn't die, and his health improved enough for him to begin searching for food. He also found the enemy--Japanese forces patrolling the island. Miller was determined to survive, and so launched a one-man war against the island's occupiers. Based on official American and Japanese histories, personal memoirs, and the author's exclusive interviews with many of the story's key participants, *The Castaway's War* is a rousing story of naval combat, bravery, and determination.

The Boy on the Bus Deborah Schupack, 2007-11-01 Meg Landry expected it to be a day like any other -- her asthmatic eight-year-old son would step off the bus, home from school. But on this day, the boy on the bus is not Meg's son -- or at least doesn't appear to be. This new boy shares Charlie's copper hair, tea-brown eyes, and slight frame. But there is something profoundly, if indefinably, different about him. He has a finer nose, his skin is shinier, and his face looks more mature, as if he has grown into being Charlie more than the real Charlie ever had. In the wake of Meg's quiet alarm, her far-flung family returns home, and a jangly unease sets in. Neither Charlie's father, Jeff, nor Charlie's rebellious teenage sister, Katie, can help Meg settle the question of the boy. They look to her for certainty -- after all, shouldn't a mother know her own child? In this daring novel, Deborah Schupack dissects a family stretched out along the seams of postmodern small-town life. With the precision of a literary wordsmith, Schupack has crafted an extraordinary tale of a mother's love for her son and a mystery that may ultimately rip them apart. Tense and atmospheric, this debut is a rare combination of intellectual sophistication and page-turning suspense.

Mustard Seeds Melissa Levi, 2021-03-09 *Mustard Seeds, Modern Parables* is a five year collection of short stories. Each story is inspired by the day to day life of an ordinary woman. Melissa covers everything from collapsed sinks to trying to handle a four pound Chihuahua bent on destroying the pet groomers. Science Fiction Magazine Story Index, 1926-1995 Terry A. Murray,1999 Since the appearance of the first science fiction magazine in 1926, thousands of short stories have been published in periodicals devoted to the genre. These stories cover a wide range of subjects, from spacecraft to the human condition, and feature little-known authors as well as masters like Ellison and Asimov. In the past, finding which issue of what magazine ran a certain story was nearly impossible. This much-needed reference tool provides valuable assistance in the daunting task of locating short stories published in science fiction magazines, providing exhaustive indexes to magazines, authors, and titles, allowing a variety of options for research on 34,000 stories appearing in nearly 5,000 issues of 133 genre magazines. Stories from all major American publications, as well as from several minor periodicals, are indexed. Also included is an appendix of the best known and most prolific contributors, giving the titles of all their stories in this work (necessary because the huge author index does not show titles). A guide to how to use this book clarifies its features for the researcher.
