**Archaeology on the Apulian - Lucanian Border** Alastair Small,Carola Small,2022-05-26 The broad valley of the Bradano river and its tributary, the Basentello, separates the Apennine mountains in Lucania from the limestone plateau of the Murge in Apulia in southeast Italy. This book aims to explain how the pattern of settlement and land use changed in the valley over the whole period from the Neolithic to the late medieval.

**Etruscology** Alessandro Naso,2017-09-25 This handbook has two purposes: it is intended (1) as a handbook of Etruscology or Etruscan Studies, offering a state-of-the-art and comprehensive overview of the history of the discipline and its development, and (2) it serves as an authoritative reference work representing the current state of knowledge on Etruscan civilization. The organization of the volume reflects this dual purpose. The first part of the volume is dedicated to methodology and leading themes in current research, organized thematically, whereas the second part offers a diachronic account of Etruscan history, culture, religion, art & archaeology, and social and political relations and structures, as well as a systematic treatment of the topography of the Etruscan civilization and sphere of influence.

*Rei Cretariae Romanæ Fautorum: Acta 46* Catarina Viegas,2020-12-31 Acta 46 comprises 64 articles. Out of the 120 scheduled lectures and posters presented at the 31st Congress of the Rei Cretariæ Romanæ Favtores, 61 are included in the present volume, to which three further were added. Given the location of the conference in Romania it seems natural that there is a particular focus on the Balkans and Danube.

*Il Museo delle Origini AA. VV.,2011-11-10T00:00:00+01:00* Grazie alla ricchezza delle sue collezioni, il Museo delle

Origini offre al visitatore la possibilità di ripercorrere tutte le fasi essenziali della preistoria italiana, un'esperienza che ora si arricchisce ulteriormente grazie a questa nuova guida. Il volume, infatti, non è soltanto un catalogo dei materiali esposti, ma uno strumento di aggiornamento, agile e riccamente illustrato, che permette, anche al lettore non specialista, di scoprire chi fossero e come vivessero gli uomini che fabbricarono gli strumenti, i vasi, le armi e gli ornamenti che oggi, dopo essere stati oggetti d'uso quotidiano, animano il percorso espositivo del Museo.

*The Oxford History of the Archaic Greek World* Robin Osborne, 2024-11-12 The ancient Greek world consisted of approximately 1,000 autonomous polities scattered across the Mediterranean basin, and each one developed its own, unique set of socio-political institutions and social practices. The Oxford History of the Archaic Greek World offers twenty-one detailed studies of key sites from across the Greek world between c. 750 and c. 480 BCE--a crucial period when much of what is now seen as distinctive about Greek culture emerged. All the studies in this seven-volume series use the same structure and methodology so that readers can easily compare a wide range of Greek communities. The series thus offers a new and unique resource for the study of ancient Greece that will transform how we study and think about a crucial era in ancient Greek history. Volume IV contains detailed and up-to-date studies of Cyrene, Delphi, Macedonia, Massalia, and Metapontion.

**Salpia Vetus** Enzo Lippolis, Tonia Giannatto (a cura di), 2013-03-15 L'opera assume un rilievo eccezionale nell'ampio panorama della ricerca archeologica della Daunia e soprattutto della divulgazione dei suoi risultati. Grazie ad essa è possibile oggi restituire alla comunità scientifica una considerevole mole di dati e informazioni - una sorta di "musealizzazione cartacea" di rinvenimenti e reperti altrimenti difficilmente fruibili - afferenti uno dei centri più importanti del Golfo di Manfredonia, caratterizzato da una frequentazione quasi senza soluzione di continuità a partire dall'Età del Ferro fino al III secolo a. C.

**Archeologia dell'Architettura, XXVIII.1, 2023 - Archeologia del cantiere edile: temi ed esempi dall'Antichità al Medioevo** Andrea Fiorini, 2023-12-29 Archeologia dell'Architettura, XXVIII.1, 2023 - Archeologia del cantiere edile: temi ed esempi dall'Antichità al Medioevo Atti del Convegno (Università di Bologna, 21 maggio 2021, per via telematica) L'Archeologia del cantiere edile prende in esame le tracce lasciate dai costruttori durante il loro operato e i caratteri dei manufatti prodotti, concentrandosi principalmente sulle murature, al fine di comprendere il funzionamento di un cantiere in azione, in particolare l'organizzazione tecnico-logistica, le operazioni eseguite per il suo impianto, la programmazione del

processo edilizio (filiera), le opere provvisionali, le macchine, i ruoli e le responsabilità delle persone coinvolte. Inoltre, indaga il mutamento di questi aspetti sul lungo periodo e cerca di spiegarne i motivi. Il convegno dal titolo “Archeologia del cantiere edile: temi ed esempi dall’Antichità al Medioevo”, tenutosi il 21 maggio 2021 su piattaforma Microsoft Teams, è stato organizzato dal Dipartimento di Storia Culture Civiltà (DiSCi - Università di Bologna), nell’ambito delle attività didattiche e di ricerca promosse dall’insegnamento di Archeologia dell’architettura (Scuola di Specializzazione in Beni archeologici) e dal Laboratorio di Archeologia dell’architettura. Ogni relatore si è occupato di questo tema in relazione a uno specifico contesto territoriale e limitatamente a una determinata fascia cronologica. Inoltre, Giovanna Bianchi ed Andrea Augenti hanno discusso i risultati più importanti, offrendo spunti di riflessione e stimolando ulteriori ricerche.

**Exploring Ancient Textiles** Alistair Dickey,Margarita Gleba,Sarah Hitchens,Gabriella Longhitano,2022-07-20 Over the past 30 years, research on archaeological textiles has developed into an important field of scientific study. It has greatly benefited from interdisciplinary approaches, which combine the application of advanced technological knowledge to ethnographic, textual and experimental investigations. In exploring textiles and textile processing (such as production and exchange) in ancient societies, archaeologists with different types and quality of data have shared their knowledge, thus contributing to well-established methodology. In this book, the papers highlight how researchers have been challenged to adapt or modify these traditional and more recently developed analytical methods to enable extraction of comparable data from often recalcitrant assemblages. Furthermore, they have applied new perspectives and approaches to extend the focus on less investigated aspects and artefacts. The chapters embrace a broad geographical and chronological area, ranging from South America and Europe to Africa, and from the 11th millennium BC to the 1st millennium AD. Methodological considerations are explored through the medium of three different themes focusing on tools, textiles and fibres, and culture and identity. This volume constitutes a reflection on the status of current methodology and its applicability within the wider textile field. Moreover, it drives forward the methodological debates around textile research to generate new and stimulating conversations about the future of textile archaeology.

**Il viatico della conoscenza nel «Carpe diem» di Orazio** Rudy Tarantino,2015-04-02 Questo saggio è la seconda

edizione de «Il “Carpe diem”- La sublimazione dell'esistenza umana». Esso analizza il famoso carme oraziano indagandone tutti i significati più profondi. Ogni uomo deve combattere come un gladiatore nell'arena per realizzare i propri sogni e le proprie aspettative e solo facendo forza su se stesso, sul proprio ardire, sul proprio divenire, sul proprio coraggio può ritenersi sempre vincitore. L'ode oraziana da un lontano passato parla ancora all'uomo moderno e lo invita ad essere saggio affinché possa assaporare il vero profumo dell'esistenza umana.

These sessions aimed to identify demographic variations during the Neolithic and Bronze Age and to question their causes while avoiding the potential taphonomic and chronological biases affecting the documentation.
