Chopin for Acoustic Guitar Richard Yates, 2015-08-18 Frederic Chopin was one of the most original and influential composers in history. Although he only lived 39 years, he wrote music that has thoroughly embedded itself in our culture. His melodies are often instantly familiar to us and show a profound lyric sense. Many qualities of Chopin's music are ideal for guitar transcription. He wrote pieces that are short with a manageable range. The textures are mostly single melody lines with harmonic accompaniment without the complex counterpoint that can be so difficult on the guitar. His music is often soft, intimate, subtle, and full of nuances of articulation, dynamics, and phrasing. These qualities transfer quite naturally to the guitar. While remaining as faithful as possible to the composer's musical intentions, these pieces experienced some modification that is noted in the provided performance notes. Intermediate in difficulty, this book assumes the player has basic knowledge of the guitar and familiarity with either standard music notation or guitar tablature. Selections include: Prelude Op. 28, No. 7; Prelude Op. 28, No. 20; Prelude Op. 28, No. 4; Cantabile; Mazurka Op. 6, No. 2; Prelude Op. 28, No. 15; Nocturne Op. 9, No. 2; Nocturne Op. 15, No. 3; Nocturne Op. 37, No. 1; and Nocturne Op. 55, No. 1. Includes online access to the audio recording of all these beautiful pieces.

Profundity Jean Gabbert Harrell,2010-11 The crisis or &death& of philosophy currently identified both within and outside professional circles is commonly attributed to the failure to find universals in metaphysics, epistemology, and, most obviously, in valuational judgment. Profundity concentrates on an assumption uniformly upheld in the theory of value, that all human values are contextually dependent. Harrell contends, to the contrary, that there exists one major value that is universal to humans, regardless of context. That value is profundity, or depth. Considering how &profundity& is used in our language leads Harrell to identify two fundamental sensory patterns that are common to all human life at its origin&—an auditory pattern that is first experienced before birth and a visual one that is experienced immediately after birth. From analysis of these patterns as they recur in music and the visual arts, Harrell moves on to discuss their related manifestations in religious doctrine, ceremony, and experience and also in works of literature. Overall her theory entails a radical revamping of the concept of creativity, since no artist can create profundity as a universal value, and provides the first full-scale treatment of profundity in the history of Western philosophy.
