Manual de escritura competitiva Elena Bazán, 2019-03-23 En una época donde la escritura es la esencia laboral, académica y social, quien no redacte de forma correcta y adecuada no será competitivo, seguido, ni tomado en serio por quienes participan en sus mismas redes, grupos y entorno. En este mundo de vértigo y transformaciones en los ámbitos científicos, sociales, laborales, tecnológicos y culturales, cada vez hablamos menos de frente y más a través de la pantalla, por lo que escribir ¡significa todo! Escritura competitiva implica que tengas habilidades para la redacción, así como textos que destaquen entre los muchos que giran a tu alrededor. Cómo lograr que te sigan, que sobresalgas en la escuela, en la empresa, en las redes sociales; que te lean en la bandeja de entrada; que te consideren para la entrevista de trabajo; que se interesen por la postulación de tu financiamiento; que se distinga tu anuncio... Estar preparado para redactar un texto, por más breve que sea, puede ser la diferencia para que tu mensaje pase o no desapercibido, para que tú destagues por tus expresiones escritas o que al mundo le sean indiferentes tus mensajes. Con un lenguaje dinámico, divertido y muy claro, este libro te ofrece las claves para una redacción competitiva: estilo, léxico, corrección, ortografía; así como las estrategias para deshacerte de las dudas, para saber qué hacer cuando no logras expresar bien un mensaje; e insiste en la importancia de la lectura en relación con la escritura, entre otros temas. Mejorar tu redacción no es imposible, ¡es indispensable! Recuerda, eres lo que escribes, puedes seducir con tus palabras si escribes frases reveladoras y contundentes. Así que encuentra en estas páginas las sugerencias más puntuales, tips, reflexiones, consejos y alertas para hacer de tu escritura un sello personal de éxito y excelencia.

Spanish Word Formation and Lexical Creation José Luis Cifuentes Honrubia, Susana Rodríguez Rosique, 2011-12-15 This volume contributes a wider approach to word formation processes and sheds light on some unsolved issues. While the formal relationships established between the different constituents of a complex word have been analyzed in great depth, the semantic links have received little dedication. In order to complete the analysis, it is necessary to pay attention to the semantic properties associated to verbalization. The main purpose of the book is to integrate both the semantic proposals and the formal perspectives concerning word formation. This theoretical aim becomes the framework to study several mechanisms of lexical creation and neologisms. Furthermore, word formation is presented as a new source for Applied Linguistics. Although the volume uses Spanish as a starting point, it means to delimit formation patterns which may also be

productive in other languages. This book is sure to become an important reference in the controversial field of word formation.

Lexicography of Coronavirus-related Neologisms Annette Klossa-Kückelhaus, Ilan Kernerman, 2022-12-19 This volume brings together contributions by international experts reflecting on Covid19-related neologisms and their lexicographic processing and representation. The papers analyze new words, new meanings of existing words, and new multiword units, where they come from, how they are transmitted (or differ) across languages, and how their use and meaning are reflected in dictionaries of all sorts. Recent trends in as many as ten languages are considered, including general and specialized language, monolingual as well as bilingual and printed as well as online dictionaries.

The Routledge Handbook of Variationist Approaches to Spanish Manuel Díaz-Campos, 2021-10-12 The Routledge Handbook of Variationist Approaches to Spanish provides an up-to-date overview of the latest research examining sociolinguistic approaches to analyzing variation in Spanish. Divided into three sections, the book includes the most current research conducted in Spanish variationist sociolinguistics. This comprehensive volume covers phonological, morphosyntactic, social, and lexical variation in Spanish. Each section is further divided into subsections focusing on specific areas of language variation, highlighting the most salient and current developments in each subfield of Hispanic sociolinguistics. As such, this Handbook delves further into the details of topics relating to variation and change in Spanish than previous publications, with a focus on the symbolic sociolinguistic value of specific phenomena in the field. Encouraging readers to think critically about language variation, this book will be of interest to advanced undergraduate and graduate students, as well as researchers seeking to explore lesser-known areas of Hispanic sociolinguistics. The Routledge Handbook of Variationist Approaches to Spanish will be a welcome addition to specialists and students in the fields of linguistics, Hispanic linguistics, sociolinguistics, and linguistic anthropology.

Marriage and the Culture of Peace Cecilia Sarahi de la Rosa Vazquez, Paris A. Cabello-Tijerina, 2023-03-14 This book provides skills for therapists and families to help improve interpersonal communication, promoting a new system of family coexistence and a refreshed concept of the modern marriage in society. Written from a constructivist peace perspective, the book's aim is to reduce the high statistics of intimate partner violence that occurs in Mexico, arguing that the culture of peace and how it is born in the family in turn affects society for better or for worse. Based upon interviews from 150 long-term married couples, the chapters address the components that promote peaceful dialogue in marriages, such as assertive language, active listening, tolerance to frustration, and gender perspectives. Including accessible language and several models of peace, the book uniquely examines same-sex marriages, the role of children in marriage conflicts, and prescribed gender assumptions and roles in relationships. It aims to empower family members to move away from old habits and seek a more equitable existence in marriages and society at large. This interdisciplinary text will be of great interest to family

therapists and clinical social workers, as well as to students and researchers in communication and peace studies.

Introduction to the Study of Law Dr. Felipe de Jesús Alvérez Fierro, 2018-04-28 In this important work, Dr. Felipe Fierro offers a comprehensive view on the subject of Introduction to the Study of Law, in which he revives the use of Gnoseology, Philosophy, History and Logic as Auxiliary Sciences; and exposes how the abandonment of such has contributed to the exponential growth of Skepticism and Relativism, currently prevailing in the legal world. The above, through extensive experience in teaching Law from the Aristotelian-Thomistic platform, based on the elementary assumption that we must first prove the existence of the object of study, and contrast main legal branches in topics such as: what is Law?, why is Science?, what are Law, Justice, Facultative rights and the Common Good?; supported by extensive and select bibliography. In addition, the being, nature, concept, essence and properties of the sources, fundamentals and classification are described. But important elements such as knowledge, order, principles, Jurisprudence, and Natural law, fundamental legal concepts, the legislative process, the Constitution, interpretation and others are not absent. Morality and Legal Law are obligatory markers, which although considered in their own field, are not excluded, but different as to object and method. Predominantly, Justice is exposed as one of the great values of the Law, and main theories in order to offer future lawyers the basis regarding the current Science of Law and its significance.

Manual del español incorrecto Adrián Chávez, 2024-07-15 La lengua es para usarla, no para obedecerla. Ante la inminente derrota en una discusión por internet, quien lleva las de perder ve una posibilidad para coronarse como (falso) ganador en burlarse de cómo habla su oponente. Pero ¿qué importancia tiene que nuestro registro sea menos formal o que tenga una pronunciación distinta a la establecida, o que se use una proposición que no han recomendado las academias de la lengua? La realidad es que estos juegos carecen de sentido, pues los diccionarios registran y describen algunos de los usos de la lengua de los hablantes, en cuyas bocas verdaderamente vive el español. En este Manual del español incorrecto, Adrián Chávez examina desde el humor los mitos que existen sobre la hipercorrección lingüística, el poder, la discriminación y todos los males que la normativitis ha permeado en la evolución de la lengua y que todos, (in)directa e indistintamente, hemos padecido alguna vez. Este es el libro que los puristas de la lengua no quieren que leas.

Los emojis y los memes se han convertido en iconografías reconocidas por todos. La expresión escrita se extiende y democratiza; diversas formas de expresión emergen, otras mutan, o se fosilizan, determinadas por el medio o plataforma de que se trate, desde una red social hasta un blog, un foro o una aplicación de mensajería instantánea. Los autores de este libro, especialistas en el estudio del lenguaje, se zambullen en este océano global y sin barreras para destilar una descripción

actualizada de los usos lingüísticos y otras formas de expresión del medio escrito que los hablantes de español del siglo xxi adoptan de manera natural. Entender estos nuevos códigos es necesario no solo para interactuar en Internet, sino para reconocer el impacto que la Red está teniendo en la lengua en general.

El silencio en los contratos civiles. Su valoración con criterios objetivos en la experiencia dominicana Ylona de la Rocha, El silencio es una figura enigmática rodeada del misterio que ofrece su ausencia de expresión y las múltiples explicaciones que subyacen tras él, entre lo que se supone que significa y lo que en realidad es. Por haber sido concebido de manera escasa, dubitativa e inconsistente, es necesario que se precise una valoración cierta sobre criterios objetivos en la experiencia dominicana y en la de muchas otras latitudes que comparten la misma incertidumbre. Ante la carencia de un concepto claro y de parámetros para definirlo, el recorrido de este libro de investigación iniciará con las formas en que el silencio se ha concebido tradicionalmente, para culminar con las que se proponen, por entenderlas adecuadas para descifrarlo, con la explicación previa de su concepto jurídico y del proceso para interpretarlo. En el caso particular del silencio contractual —considerado tipología del silencio jurídico—, este se da dentro del contexto de las relaciones entre partes, y su repercusión puede reflejarse al momento de la formación del contrato y durante su ejecución, para determinar si constituye o no una forma de manifestar la voluntad o, al contrario, ausencia de ella. Entonces, es necesario avanzar, de la libre apreciación del juez, hacia la determinación de los criterios objetivos para la interpretación del alcance jurídico del silencio, los cuales se proponen en esta obra para la definición de su concepto y valoración, con la finalidad de que no se encuentren sujetos a circunstancias particulares.
