

Galileo Galilei Le Scoperte

Arturo Cuomo

Galileo's Telescope Massimo Bucchiantini, Michele Camerota, Franco Giudice, 2015-03-23 An innovative exploration of the development of a revolutionary optical device and how it changed the world. Between 1608 and 1610 the canopy of the night sky changed forever, ripped open by an object created almost by accident: a cylinder with lenses at both ends. Galileo's Telescope tells the story of how an ingenious optical device evolved from a toy-like curiosity into a precision scientific instrument, all in a few years. In transcending the limits of human vision, the telescope transformed humanity's view of itself and knowledge of the cosmos. Galileo plays a leading—but by no means solo—part in this riveting tale. He shares the stage with mathematicians, astronomers, and theologians from Paolo Sarpi to Johannes Kepler and Cardinal Bellarmine, sovereigns such as Rudolph II and James I, as well as craftsmen, courtiers, poets, and painters. Starting in the Netherlands, where a spectacle-maker created a spyglass with the modest magnifying power of three, the telescope spread like technological wildfire to Venice, Rome, Prague, Paris, London, and ultimately India and China. Galileo's celestial discoveries—hundreds of stars previously invisible to the naked eye, lunar mountains, and moons orbiting Jupiter—were announced to the world in his revolutionary treatise *Sidereus Nuncius*. Combining science, politics, religion, and the arts, Galileo's Telescope rewrites the early history of a world-shattering innovation whose visual power ultimately came to embody meanings far beyond the science of the stars. Praise for Galileo's Telescope "One of the most fascinating stories in the history of science." —Mark Archer, *The Wall Street Journal* "In broad outline, the story of Galileo and the first use of a telescope in astronomy is well known. Bucchiantini, Camerota, and Giudice take a new look at this seminal event by focusing on how the news spread across Europe and how it was received. Their well-written narrative examines the central issues using papers, paintings, letters, and other contemporary documents . . . After four centuries [Galileo's] reputation has been thoroughly vindicated." —D. E. Hogg, *Choice*

Manuale di letteratura italiana medievale e moderna Alberto Casadei,Marco Santagata,2014-11-03T00:00:00+01:00
Se ogni insegnamento comporta di necessità una certa dose di semplificazione, quello della letteratura affronta una duplice complessità, dovendo rispondere all'esigenza di ridurre una ricca materia di studio e di analisi al doppio compito di trasmettere conoscenza comunicando un contenuto d'arte. Il manuale di Santagata e Casadei viene incontro alle esigenze della nuova università, che chiede strumenti facilmente fruibili da tutti gli studenti, ma non per questo semplicistici o semplificati. I due volumi sono divisi in sezioni cronologiche corrispondenti ai secoli presi in esame e ai relativi movimenti letterari più importanti. All'interno di ogni sezione si distingue una prima parte dedicata alle caratteristiche fondamentali del periodo letterario studiato, una seconda che illustra i principali avvenimenti politici, sociali e culturali dell'epoca e propone confronti con le letterature straniere e con altre arti. Segue una terza parte con la trattazione dettagliata della letteratura italiana del periodo, introdotta da un quadro d'insieme che richiama i principali concetti da memorizzare. Agli autori maggiori sono riservate sezioni speciali e alla letteratura più recente è dedicato uno spazio più esteso dell'usuale. Ogni sezione è corredata da una bibliografia finale essenziale e aggiornata. Vedi anche Manuale di letteratura italiana contemporanea

Atti e memorie dell'Accademia patavina di scienze, lettere ed arti ,1893

Storia della letteratura italiana dall'origine della lingua sino a'nostri giorni Giuseppe Maffei,1845

Il progresso dell'umanità storica Vincenzo Iannuzzi,2020-11-29 Con finalità divulgative, con stile semplice e scorrevole e con dati storici documentati ed aggiornati e non senza un pizzico di originalità che rendono la lettura sempre interessante ed avvincente, l'Autore a volo d'uccello, plana ad ampia vista, sulla Storia dell'Uomo, calandosi di tanto in tanto,

assieme al lettore, su singoli argomenti, per scovare le radici dell'attuale situazione critica dell'Umanità e suggerire soluzioni per porvi rimedio tra migliaia di nomi, centinaia di date e decine di fatti, lasciando un forbito glossario ed un'ampia bibliografia a disposizione del lettore vigile e di buona volontà, ma soprattutto trattando a fondo il problema ambientale da causa antropica che è il più grave e decisivo per il proseguo del progresso e la sopravvivenza dell'Umanità e sollevando il completamento della Nazione Terra iniziata con la costituzione dell'ONU nel 1945 per la soluzione dei gravi problemi dell'Umanità. Un libro di attualità ed interesse non solo per chi in full immersion ha poco tempo per aggiornarsi, anche per lo studente e per chi è desideroso di conoscere le questioni di fondo del Mondo attuale attraverso una chiara e documentata lettura.
