Genitricksling Joyce, 2021-11-22 Joyce's methods of composition have only recently begun to be examined in a rigorous fashion. Already the work done on the genesis of Joyce's texts has fostered both new insights and new questions regarding the overall status of his oeuvre. The conference Genitricksling Joyce, held at Antwerp in 1997, testified to the variety and vitality of genetic investigations into Joyce's work. We have tried to recreate this vitality in the present volume with a double purpose, or double trick. First, the essays collected in Genitricksling Joyce are not only indicative of the growing body of genetic scholarship, they also signify methodological and theoretical changes among its practitioners towards a more open form of discussion and understanding. Second, we hope that these essays will clearly demonstrate the relevance of genetic criticism to current critical and cultural concerns in Joyce studies.

Poetry, Knowledge and Community in Late Medieval France Rebecca Dixon, Finn E. Sinclair, 2008 The role of poetry in the transmission and shaping of knowledge in late medieval France. Covering the period from the late thirteenth to the early sixteenth century, Poetry, Knowledge, and Community examines the role of poetry in French culture in transmitting and shaping knowledge. The volume reveals the interplay between poet, text, and audience, and explores the key dynamics of later medieval French poetry and of the communities in which it was produced. Essays in both English and French are organised into three inter-related sections, Learned Poetry/ Poetry and Learning, Poetry or Prose?, and Poetic Communities,

and address both canonical and less well-known French and Occitan verse literature, together with a wide range of complementary subject areas. The international cast of contributors to the volume includes many of the best-known scholars in the field: the introductory essay is by Jacqueline Cerquiglini-Toulet (Université de Paris IV, Sorbonne), and keynote essays are provided by David F. Hult (University of California, Berkeley), Michel Zink (Collège de France), and Nancy Freeman Regalado (New York University). Edited by REBECCA DIXON (University of Manchester) and FINN E. SINCLAIR (University of Cambridge), with Adrian Armstrong (University of Manchester), Sylvia Huot (University of Cambridge), and Sarah Kay (University of Princeton). CONTRIBUTORS: Suzanne Conklin Akbari, Mishtooni Bose, Jacqueline Cerquiglini-Toulet, Rebecca Dixon, Thelma Fenster, Denis Hüe, David Hult, Stephanie Kamath, Deborah McGrady, Amandine Mussou, Nancy Freeman Regalado, Jennifer Saltzstein, Finn E. Sinclair, Lori J. Walters, David Wrisley, Michel Zink

The Turn of the Century Christian Berg, Frank Durieux, Geert Lernout, 1995 Rewritten versions of contributions to an international conference held at the University of Antwerp in May 1992. Starting point for the conference was the vagueness of the very terms 'modernism' and 'modernity'. In the first section a group of comparatists address the theoretical and terminological problems of modernism. Practical readings of modernist writers; discussions of different modernist movements; and, the work of critics who have contributed to debates about modernism make up the second section. The third section looks at the problem of modernism from an interartistic and interdisciplinary perspective.

The Rhetoric of Romantic Prophecy Ian Balfour, 2002 The Romantic era in England and Germany saw a sudden renewal of prophetic modes of writing. Biblical prophecy and, to a lesser extent, classical oracle again became viable models for poetry and even for journalistic prose. Notably, this development arose out of the new-found freedom of biblical interpretation that began in the mid-eighteenth century, as the Bible was increasingly seen to be a literary and mythical text. Taking Walter Benjamin's thinking about history as a point of departure, the author shows how the model for Romantic prophecy emerges less as a prediction of the future than as a call to change in the present, even as it quotes, at key turns, texts from the past. After surveying developments in eighteenth-century biblical hermeneutics, as well as the numerous instances of prophetic eruption in Romantic poetry, the book culminates in close readings of works by Blake, Hölderlin, and Coleridge. Each of these writers interpreted the Bible in strong, variously radical and conservative ways, and each reworked prophetic texts in often startling fashion. The author's reading of Blake focuses on the complex temporal and rhetorical dynamics at work in a prophetic tradition, with attention paid to the key mediating figure of Milton. The chapter on Hölderlin investigates the truth-claim of poetry and the consequences of Hölderlin's insight into the necessarily figural character of poetry. The analysis of Coleridge correlates his theory of allegory and symbol with his theory and practice of political writing, which often relies on mobilizing prophetic authority. Together, the readings force us to reexamine the claims and practices of Romantic poets and thinkers and their ideas and ideologies, not without engendering some allegorical resonance with issues in our own time.

Blanchot Leslie Hill,2002-01-04 Blanchot provides a compelling insight into one of the key figures in the development of postmodern thought. Although Blanchot's work is characterised by a fragmentary and complex style, Leslie Hill introduces clearly and accessibly the key themes in his work. He shows how Blanchot questions the very existence of philosophy and literature and how we may distinguish between them, stresses the importance of his political writings and the relationship between writing and history that characterised Blanchot's later work; and considers the relationship between Blanchot and key figures such as Emmanuel Levinas and Georges Bataille and how this impacted on his work. Placing Blanchot at the centre stage of writing in the twentieth century, Blanchot also sheds new light on Blanchot's political activities before and after the Second World War. This accessible introduction to Blanchot's thought also includes one of the most comprehensive bibliographies of his writings of the last twenty years.

Samuel Beckett Pascale Casanova,2020-01-28 In this fascinating new exploration of Samuel Beckett's work, Pascale Casanova argues that Beckett's reputation rests on a pervasive misreading of his oeuvre, which neglects entirely the literary revolution he instigated. Reintroducing the historical into the heart of this body of work, Casanova provides an arresting portrait of Beckett as radically subversive—doing for writing what Kandinsky did for art—and in the process presents the key to some of the most profound enigmas of Beckett's writing.

Crisis Sascha Bru,Kate Kangaslahti,Li Lin,Iveta Slavkova,David Ayers,2022-09-06 Notions of crisis have long charged the study of the European avant-garde and modernism, reflecting the often turbulent nature of their development. Throughout their history, the avant-garde and modernists have both confronted and instigated crises, be they economic or political, aesthetic or philosophical, collective or individual, local or global, short or perennial. The seventh volume in the series European Avant-Garde and Modernism Studies addresses the myriad ways in which the avant-garde and modernism have responded and related to crisis from the late nineteenth to the twenty-first century. How have Europe's avant-garde and modernist movements given aesthetic shape to their crisis-laden trajectory? Given the many different watershed moments the avant-garde and modernism have faced over the centuries, what common threads link the critical points of their development? Alternatively, what kinds of crises have their experimental practices and critical modes yielded? The volume assembles case studies reflecting upon these questions and more from across all areas of avant-garde and modernist activity, including visual art, literature, music, architecture, photography, theatre, performance, curatorial practice, fashion and design.

Palgrave Advances in Samuel Beckett Studies L. Oppenheim,2004-04-30 Palgrave Advances in Samuel Beckett Studies explores the evolution of critical approaches to Beckett's writing. It will appeal to graduate students (and advance

undergraduates) as well as scholars, for it offers both an overview of Beckett studies and investigates current debates within the interdisciplinary critical arena. Each of the contributors is an eminent Beckett specialist who has published widely in the field. The volume contains an introduction, twelve essays and a guide for further reading.

New Physics and the Modern French Novel Maureen DiLonardo Troiano, 1995 This study argues that both science and literature operate out of comparable impulses in their consideration of the nature of truth and the perception of reality. It focuses on central scientific paradigms as they appear in the aesthetics of the French new novel, both to contrast the Newtonian mechanistic, deterministic world-view characteristic of much of nineteenth-century thought with the dominant interest of the twentieth century in indeterminacy, illogic, paradox, and entropy. It describes the new novel as a subjective, probabilistic entity, a new Gestalt/ontological event in which the «re-presentation» of reality becomes a nonabsolute time/space experience occurring simultaneously with the act of reading.

Paper Machine Jacques Derrida, 2005 This book questions the book itself, archivization, machines for writing, and the mechanicity inherent in language, the media, and intellectuals. Derrida questions what takes place between the paper and the machine inscribing it. He examines what becomes of the archive when the world of paper is subsumed in new machines for virtualization, and whether there can be a virtual event or a virtual archive. Derrida continues his long-standing investigation of these issues, and ties them into the new themes that governed his teaching and thinking in the past few years: the secret, pardon, perjury, state sovereignty, hospitality, the university, animal rights, capital punishment, the question of what sort of mediatized world is replacing the print epoch, and the question of the «wholly other.» Derrida is remarkable at making seemingly occasional pieces into part of a complexly interconnected trajectory of thought.

Understanding Blanchot, Understanding Modernism Christopher Langlois, 2018-06-14 Maurice Blanchot occupies a central though still-overlooked position in the Anglo-American reception of 20th-century continental philosophy and literary criticism. On the one hand, his rigorous yet always-playful exchanges with the most challenging figures of the philosophical and literary canons of modernity have led thinkers such as Georges Bataille, Emmanuel Levinas, Jacques Derrida, and Michel Foucault to acknowledge Blanchot as a major influence on the development of literary and philosophical culture after World War II. On the other hand, Blanchot's reputation for frustrating readers with his difficult style of thought and writing has resulted in a missed opportunity for leveraging Blanchot in advancing the most essential discussions and debates going on today in the comparative study of literature, philosophy, politics, history, ethics, and art. Blanchot's voice is simply too profound, too erudite, and too illuminating of what is at stake at the intersections of these disciplines not to be exercising more of an influence than it has in only a minority of intellectual circles. *Understanding Blanchot, Understanding Modernism* brings together an international cast of leading and emergent scholars in making the case for precisely what contemporary modernist studies stands to gain from close inspection of Blanchot's provocative post-war writings.

Archival Afterlives Laura Hughes, 2023-11-15 A capacious analysis of a legendary intellectual friendship and the material legacies it left behind Over the course of their decades-long friendship, Hélène Cixous and Jacques Derrida assembled overlapping archives of written experiments and exchanges that document a shared interest in their literary afterlives. In this incisive account, Laura Hughes shows how pushing against the limits of writing and of life itself means not only imagining but manifesting a community of future readers. *Archival Afterlives: Cixous, Derrida, and the Matter of Friendship* examines the embodied nature of literary creation, taking letters, fragments, notes, and other ephemera as objects of critical analysis and care. Combining close readings of key texts and previously unexamined archival materials, Hughes traces critical connections between Cixous and Derrida, between the theoretical and the autobiographical, and between life writing and its limits. In putting deconstruction into dialogue with new material analyses and archive studies, *Archival Afterlives* positions this historical and intellectual relationship as a lens through which to reexamine the legacy of critical theory itself.

Kierkegaard and Climate Catastrophe Isak Winkel Holm, 2023 This volume argues for the relevance of Kierkegaard's employment of the prophetic noir, modelled after the prophetic books of the Hebrew Bible, to understanding how to live in a time of climate change.
