

Filosofia Do Direito Hegel

Mateus Rocha Tomaz

Hegel Peter Singer,1983 Intended for the reader with no prior knowledge of philosophy, Singer's book provides a broad survey of Hegel's ideas and an account of the main themes of his major works.

Princípios da filosofia do direito Georg Wilhelm Friedrich Hegel,2003 Mostra o que Hegel chama de Direito é a existência da vontade livre, a liberdade consciente de si e não o direito abstrato, que nos vem dos romanos, nem o direito natural.

Linhas fundamentais da filosofia do direito G. W. F. Hegel,2022-05-09 Resultado de mais de três décadas de paciente e minucioso trabalho, a presente tradução do professor e filósofo Marcos Lutz Müller das Linhas fundamentais da filosofia do direito, de G. W. F. Hegel (1770-1831) — Grundlinien der Philosophie des Rechts, no original —, assinala um dos pontos altos dos estudos hegelianos em língua portuguesa. Publicada há duzentos anos, a Filosofia do direito, como também é conhecida, tornou-se — segundo Jean-François Kervégan, autor do belo ensaio “A instituição da liberdade”, aqui reproduzido — uma das obras mais importantes da ciência jurídica e da teoria social e política modernas, na qual o filósofo alemão sistematiza e consoma a sua concepção do Estado como “a efetividade da vida ética” e condição imprescindível para o exercício de uma cidadania livre. Pesquisador e intérprete agudo da obra de Hegel, Marcos Müller incorporou à sua tradução — além dos esclarecedores “adendos” de Eduard Gans, discípulo e editor oficial da obra após a morte do seu autor — mais de seiscentas notas explicativas. Estas não apenas esclarecem questões de etimologia, de contextualização histórica e de interpretação de conceitos, mas, por meio de criteriosas remissões, relacionam as principais passagens do livro ao conjunto da obra hegeliana, proporcionando uma visão surpreendentemente inovadora da dimensão sistemática e da atualidade do pensamento jurídico-político de Hegel. Obra maior da filosofia, na qual a relação entre direito, Estado e sociedade se revela em toda a sua magnitude e complexidade, estas Linhas fundamentais da filosofia do direito alcançam o leitor brasileiro numa tradução impecável, no momento crucial em que o país luta por afirmar a relevância e o significado de suas instituições democráticas.

O Pensamento Hegeliano e os Direitos Humanos Luciene Francisca de Souza Jesus.,2020-06-01 Estado hegeliano é um Estado racional e real. Ele é tudo. Ele é um ser divino terrestre. Diante dessas premissas, muitos autores creditaram ao Hegel a responsabilidade pela existência de Estados totalitários, sendo um deles o Estado nazista. É sabido que o sistema

filosófico hegeliano influenciou fortemente a vida política moderna. Duas Escolas, direita e esquerda, apropriaram-se desse sistema e lhe deram interpretações, que se apresentaram diferentes e incompatíveis com os princípios fundamentais da Teoria do Estado hegeliana. Assim, o Estado nazista apoderou-se das interpretações da extrema direita hegeliana.

A Treatise of Legal Philosophy and General Jurisprudence Enrico Pattaro, Corrado Roversi, 2016-07-13 A Treatise of Legal Philosophy and General Jurisprudence is the first-ever multivolume treatment of the issues in legal philosophy and general jurisprudence, from both a theoretical and a historical perspective. The work is aimed at jurists as well as legal and practical philosophers. Edited by the renowned theorist Enrico Pattaro and his team, this book is a classical reference work that would be of great interest to legal and practical philosophers as well as to jurists and legal scholar at all levels. The work is divided in two parts. The theoretical part (published in 2005), consisting of five volumes, covers the main topics of the contemporary debate; the historical part, consisting of six volumes (Volumes 6-8 published in 2007; Volumes 9 and 10, published in 2009; Volume 11 published in 2011 and Volume 12 forthcoming in 2016), accounts for the development of legal thought from ancient Greek times through the twentieth century. Volume 12 Legal Philosophy in the Twentieth Century: The Civil Law World Volume 12 of A Treatise of Legal Philosophy and General Jurisprudence, titled Legal Philosophy in the Twentieth Century: The Civil-Law World, functions as a complement to Gerald Postema's volume 11 (titled Legal Philosophy in the Twentieth Century: The Common Law World), and it offers the first comprehensive account of the complex development that legal philosophy has undergone in continental Europe and Latin America since 1900. In this volume, leading international scholars from the different language areas making up the civil-law world give an account of the way legal philosophy has evolved in these areas in the 20th century, the outcome being an overall mosaic of civil-law legal philosophy in this arc of time. Further, specialists in the field describe the development that legal philosophy has undergone in the 20th century by focusing on three of its main subjects—namely, legal positivism, natural-law theory, and the theory of legal reasoning—and discussing the different conceptions that have been put forward under these labels. The layout of the volume is meant to frame historical analysis with a view to the contemporary theoretical debate, thus completing the Treatise in keeping with its overall methodological aim, namely, that of combining history and theory as a necessary means by which to provide a comprehensive account of jurisprudential thinking.

Still reading Hegel: 200 years after the phenomenology of spirit Edmundo Balsemão Pires, 2009-02-01 Associando-se a um amplo movimento comemorativo europeu e norte-americano, o Instituto de Estudos Filosóficos, com sede na Faculdade de Letras da Universidade de Coimbra, em colaboração com a unidade de I&D L.I.F. - Linguagem, Interpretação e Filosofia e com o "Centro de Filosofia" da Universidade de Lisboa organizou nos dias 19 e 20 de Novembro de 2007 um Congresso Internacional comemorativo dos 200 anos da Fenomenologia do Espírito de G. W. F. Hegel, obra publicada inicialmente em 1807. Por ocasião deste congresso, a comunidade filosófica portuguesa teve a grata oportunidade de se

confrontar com algumas das mais recentes orientações de análise da obra do filósofo, pondo-se a si mesma à prova quanto às suas aptidões analíticas. Aqui se deixa o retrato de um tal encontro, tanto quanto possível fiel ao que foram, na altura, as exposições dos diferentes autores. In conjunction with a broad commemorative movement in Europe and America, the Institute for Philosophical Studies, based at the Faculty of Letters, University of Coimbra, in collaboration with the R&D unit L.I.F. – Language, Interpretation and Philosophy and with the “Centre for Philosophy” of the University of Lisbon organized on 19th and 20th November 2007 an international conference commemorating the 200th anniversary of Hegel’s Phenomenology of Spirit (first published in 1807). On the occasion of this conference, the Portuguese philosophical community had the opportunity to come up against some of the most recent orientation in the analysis of this philosopher’s oeuvre, putting itself to the test as regards its analytical skills. This volume offers a picture of that encounter, as faithful as possible to what were, at the time, the papers offered by/expositions of the various authors.

A história não contada da Teoria Geral do Estado no Brasil: juristas adaptáveis, ditadura e ensino jurídico no Estado Novo (1937-1945) Mateus Rocha Tomaz, 2024-10-31 Sob a condução precisa e percuciente de Mateus Rocha Tomaz, o leitor é levado a recuperar a história do surgimento da Teoria Geral do Estado na Alemanha, a ressignificação da disciplina na República de Weimar e sua conturbada recepção pelo pensamento jurídico brasileiro no contexto do Estado Novo. Uma contribuição primorosa para pensarmos uma Teoria do Estado comprometida com as exigências do Estado Democrático de Direito preconizado pela Constituição de 1988. (GILMAR MENDES) O livro preenche uma lacuna na história da Teoria Geral do Estado brasileira ao explorar desde o contexto de surgimento dessa disciplina na Alemanha até a sua ressignificação e acolhida político-universitária pela ditadura do Estado Novo (1937-1945). (MARCELO NEVES) (...) um livro fundamental que traz luz para todo um período da história da reflexão sobre o Estado no Brasil que não pode ser esquecido ou menosprezado. Mateus escreveu um texto erudito, seguro e indispensável sobre as origens, os impasses e os desafios da nossa Teoria do Estado. (GILBERTO BERCOVICI) A Editora Contracorrente tem o prazer de apresentar A história não contada da Teoria Geral do Estado no Brasil: juristas adaptáveis, ditadura e ensino jurídico no Estado Novo (1937-1945), de Mateus Rocha Tomaz. O autor mergulha no rico e espinhoso senso comum teórico que se sedimentou historicamente em torno da Teoria Geral do Estado, vista por muitos juristas, ainda hoje, como uma neutra análise do fenômeno estatal. A Teoria Geral do Estado surge na Alemanha com uma análise politicamente orientada a partir de premissas positivistas e organicistas, que buscam legitimar o Princípio Monárquico, contrapondo-o aos princípios constitucionais liberais da soberania popular e da separação de poderes. O contexto é semelhante ao Brasil do Estado Novo que, a partir do Decreto-Lei no 2.639/1940, divide a cátedra de Direito Público e Constitucional nas cadeiras de Teoria Geral do Estado e de Direito Constitucional, tornando-se duplamente autoritária, como doutrina de Estado e como espaço acadêmico que beneficiava constitucionalistas alinhados.

Engels @ 200 Frank Jacob, 2020-11-25 Friedrich Engels was one of the most important German thinkers of the 19th

century and his writings are still important today. Addressing the pressing issues of his time, the broadly interested scholar Engels would write about many different topics, and thereby not only pave the way for a science-based socialism, but also for further studies in sociology, history, and philosophy. To highlight the value and impact of Engels' work as well as emphasize its relevance for major issues that will determine the 21st century, the present anthology assembles scholars from different countries and research fields to discuss how to read and gain insights from reading his works in our time. It also attempts to stimulate further research about Engels, who 200 years after his birth deserves to be fully brought out of the shadow of his friend and colleague Karl Marx.

Direito e eticidade Walter Jaeschke,

Estudos em Homenagem ao Professor Doutor Wladimir Brito Mário Ferreira Monte, Maria de Assunção do Vale Pereira, Joaquim Freitas da Rocha, 2023-06-15 A obra que ora se publica visa homenagear, como resulta do seu título, o Professor Doutor Wladimir Augusto Correia Brito. Trata-se de uma homenagem incontestavelmente merecida, seja por motivos estritamente científicos, seja por motivos institucionais, seja ainda por motivos de natureza pessoal. Na verdade, o nome Wladimir Brito tem-se revelado - e espera-se que continue a revelar-se - uma referência incontornável no âmbito da ciência jurídica, e particularmente no quadro do Direito Internacional Público em Portugal e não só, atenta a irradiação científica que a sua obra demonstra nos âmbitos mais vastos lusófono e ibérico. De resto, também outros quadrantes científicos mereceram profícua atenção, com especial destaque para a denominada Teoria Geral do Processo, ao ponto de se ter materializado na criação de uma unidade curricular autónoma (e inovadora, no contexto universitário português) e de um proveitoso manual. Acresce que, do ponto de vista institucional, desempenhou um papel determinante na afirmação da Escola de Direito da Universidade do Minho, tendo assumido vários cargos de gestão académica e levado à prática inúmeros projetos de divulgação institucional e de interação com a sociedade. Neste contexto, espontaneamente se constata que o Doutor Wladimir Brito foi sempre um homem de iniciativas. Merecem destaque, entre inúmeros exemplos, a criação do Observatório Lusófono dos Direitos Humanos - OLDHUM, assim como a promoção dos Encontros Luso-Espanhóis de Professores de Direito Internacional e de Relações Internacionais / Encuentros Luso-Espanoles de Profesores de Derecho Internacional Público y Relaciones Internacionales, que se vêm realizando anual e ininterruptamente desde 2011, alternadamente em universidades portuguesas e espanholas.

A filosofia transcendental e a sua crítica: idealismo - fenomenologia - hermenêutica Diogo Ferrer, Luciano Utteich, 2015-11-01 Se a contemporaneidade filosófica nasceu com a crítica de Kant à Metafísica, o presente volume apresenta um percurso privilegiado pela formação da filosofia contemporânea. Especialistas do Brasil, Portugal e Espanha

expõem perspectivas originais sobre temas centrais desse percurso, oferecendo um olhar diferenciado sobre várias estações constitutivas do pensamento contemporâneo. A ideia seminal do transcendentalismo kantiano dá unidade a uma panorâmica através de diversos temas e autores, abordados de pontos de vista inovadores. São objecto de estudo nos diferentes capítulos da obra a definição da Lógica Transcendental de Kant, o seu desenvolvimento e dialectização na filosofia clássica alemã, com Schiller, Hegel, Fichte e Schelling, a recuperação crítica do transcendentalismo em Simmel, bem como a sua influência e superação progressiva no desenvolvimento do pensamento fenomenológico, hermenêutico e existencial, abordado em estudos sobre Fink, Heidegger, Marcel, Merleau-Ponty e Ricouer.

Karl Marx e o nascimento da sociedade moderna Michael Heinrich, 2018-06-11 Escrita pelo cientista político alemão Michael Heinrich, um dos maiores especialistas na obra de Karl Marx, esta biografia em três volumes promete ser o trabalho definitivo para compreender, de forma integrada, a vida e a obra do filósofo alemão. Com a missão de completar as insuficiências comuns nas outras biografias disponíveis e, inclusive, corrigir seus erros factuais, Michael Heinrich também se dispôs a escrever com franqueza, escapando das armadilhas que levaram muitos autores anteriores a tratar o biografado de forma a fundamentar uma imagem já existente, deixando muitas vezes a impressão de que a intenção não era investigar Karl Marx, mas meramente reafirmar o que se conhecia dele. Para isso, Heinrich diferencia com exatidão o que é comprovado por fontes do que é apenas uma hipótese, ora mais, ora menos plausível. Neste primeiro volume, o autor investiga os anos iniciais de Marx, de sua infância aos anos de formação intelectual, em que doutorou-se na Universidade de Iena. Os dois volumes seguintes estão previstos para 2019 e 2020.

O método dialético na pesquisa em educação Célio da Cunha, José Vieira de Sousa, Maria Abádia da Silva, 2023-04-01 Os artigos que compõem este livro se propõem a discutir as contribuições do método dialético para a pesquisa em educação, com ênfase nas políticas educacionais. Para tanto, discutem o método dialético como uma abordagem que reconhece ser a ciência um produto da história, da ação do próprio homem, que está inserido no movimento das formações sociais. Com base

nessa perspectiva, os textos explicitam como o método dialético revela uma aproximação da escolha pela cientificidade da realidade, à medida que propicia o estabelecimento de uma relação que tem como referência a dinâmica entre o sujeito e o objeto. Como instrumento lógico de interpretação da realidade, o método em questão caracteriza-se pelo movimento do pensamento através da materialidade histórica da vida dos homens nas relações sociais que são por eles contraídas. Em síntese, os vários artigos reunidos no presente livro convidam ao conhecimento da importância e da necessidade de todo pesquisador compreender e explicar determinada realidade concreta. Afinal, é por meio dessa atuação que o investigador poderá indicar, de maneira concreta, algumas alternativas de ação para responder à problemática analisada.
