Profit First Mike Michalowicz, 2017-01-18 Author of cult classics *The Pumpkin Plan* and *The Toilet Paper Entrepreneur* offers a simple, counterintuitive cash management solution that will help small businesses break out of the doom spiral and achieve instant profitability. Conventional accounting uses the logical (albeit, flawed) formula: Sales - Expenses = Profit. The problem is, businesses are run by humans, and humans aren't always logical. Serial entrepreneur Mike Michalowicz has developed a behavioral approach to accounting to flip the formula: Sales - Profit = Expenses. Just as the most effective weight loss strategy is to limit portions by using smaller plates, Michalowicz shows that by taking profit first and apportioning only what remains for expenses, entrepreneurs will transform their businesses from cash-eating monsters to profitable cash cows. Using Michalowicz's Profit First system, readers will learn that: · Following 4 simple principles can simplify accounting and make it easier to manage a profitable business by looking at bank account balances. · A small, profitable business can be worth much more than a large business surviving on its top line. · Businesses that attain early and sustained profitability have a better shot at achieving long-term growth. With dozens of case studies, practical, step-by-step advice, and his signature sense of humor, Michalowicz has the game-changing roadmap for any entrepreneur to make money they always dreamed of.

Road to Marylake, The Kelly Rachele Mathews, 2017 In the early 1900's a gentleman and financier named Sir Henry Mill Pellatt (builder of the famous 'Casa Loma' in Toronto) started to piece together several farms (1,214 acres) to create what he called Lake (or Lac) Marie Farm & Country Estate. The name Marie was to honor his first wife Lady Mary Pellatt (nee Dodgson). Designed to be a place of respite for high society, hunt events and highballs on the verandah (1911-1935) this land came into the ownership of a group of Basilian leaders who took this site of social indulgence and converted into Marylake Agricultural School and Farm Settlement Association (now 814 acres). On August 25, 1942, the Agricultural School sold to the Augustinian Father of Ontario (Inc.) and as such, Marylake Monastery, Retreat House and site of Pilgrimage was born.

The Servant State Geoffrey McCormack, Thom Workman, 2015-12-01T00:00:00Z The global financial and industrial turmoil of recent years has once more brought the crisis-prone nature of the capitalist system to the forefront. In the context of economic stagnation and the retreat of working-class organizations, the rich and powerful around the world have redoubled their attack on the poor through neoliberal policies and austerity measures. In *The Servant State*, McCormack and

Workman explore Canada's experience through the "age of austerity" and highlight how this experience has been shaped by the exigencies of capitalist development and the catalyzing role of the Canadian state. The analytical standpoint is not that of the oppressed per se, but rather that of capitalism as a whole. They share the condemnation of the capitalist establishment, are appalled by the greed and avarice of the ruling elite and despair at the obscenities of the age; however, the critical spirit of their study is imbued less with a mood of indignation and more with assumptions and sensitivities about the inner tendencies of capitalism and the obliging role of the state. The struggle against contemporary excess and horror, they argue, must be framed with reference to the immuring tendencies of the capitalist order of things.

Economics for Prophets Walter L. Owensby, 1988 Owensby has written this book to help Christians take part more confidently and effectively in the dialogue on ethics and economics. Economics for Propbets is an introduction to the subject (it assumes no previous exposure to economics studies or jargon) that takes a helpful three-step approach. It explains some of the basic concepts of our economic system, explores how these concepts function in the real world, and critiques both the concepts and their practical working out from a biblical-theological-ethical perspective. Book jacket.

The Politics of Defense Contracting Gordon Adams, 2020-02-18 This is the first systematic study of the relationship between government and defense contractors, examining in detail the political impact of the eight most powerful defense contractors. It details ways in which Boeing, General Dynamics, Grumman, McDonnell Douglas, Northrop, Rockwell International, and United Technologies influence government, from their basic contract activity, corporate structure, and research efforts, to their Washington offices, Political Action Committee campaign contributions, hiring of government personnel, and membership on federal advisory committees. Adams concludes with specific recommendations for changes in disclosure requirements that would curb some of the political power corporations can wield. It also suggests specific ways in which the Iron Triangle can be made subject to wider congressional and public scrutiny.

Management Advice from the World's Great Thinkers James Miller, Jim Miller, 2002-01-07 IS ANYONE SO WISE THAT HE CAN LEARN FROM THE EXPERIENCE OF OTHERS? VOLTAIRE Few are trained to manage, we study other things-marketing, engineering, finance, manufacturing, information systems and so forth. In the course of doing these things, some are identified for their brilliance, for their hard work, or by chance and they become managers. By then, they assimilated ideas (most of which are wrong) about business principles and management's role. That personal experience is insufficient for, as Henry Kissenger said of Presidents, they enter office with a store of ideas and principles that are exhausted in execution. The same can be said of managers, and because of these limitations organization structures evolved so that people of mediocre talent can run them. Unfortunately, mediocre talent produces at best mediocre results. In times of trouble, especially, organizations need an illuminating strategy, clear thinking, unfettered inquiry and the scouring of complacency. Advice from the World's Great Thinkers is designed to help managers deal with the myriad and plethora of

unanticipated events that crowd their schedule.

Farming for Us All Michael Mayerfeld Bell, 2024-07-02 Climate change. Habitat loss. Soil erosion. Groundwater depletion. Toxins in our food. Inhumane treatment of farm animals. Increasing farm worker exploitation. Hunger and malnutrition in the midst of plenty. What will it take for farmers in the United States to embrace sustainable practices? Michael Mayerfeld Bell's *Farming for Us All* first tackled this question twenty years ago, providing crucial insight into how the structure of US agriculture created this situation and exploring, by contrast, the practices of farmers who are working together to radically change how they think, learn, and grow. This updated edition of his now-classic work reflects on the lessons learned over the past two decades. Constrained by an oppressive nexus of markets, regulations, subsidies, and technology, farmers find themselves undermining their own economic and social security as well as the security of the land. Bell turns to Practical Farmers of Iowa (PFI), that state's largest sustainable-agriculture group. He traces how PFI creates an agriculture that engages others—farmers, researchers, officials, and consumers—in a common conversation about what agriculture could look like. Through dialogue, PFI members crossbreed knowledge, discovering pragmatic solutions to help crops grow in ways that sustain families, communities, societies, economies, and environments. *Farming for Us All* makes the case that for sustainable farming to flourish, new social relations are as important to cultivate as new crops. This book is necessary—and hopeful—reading for anyone concerned about the present and future of food and farming.

After America Mark Steyn, 2012-09-18 Argues that President Barack Obama is a dangerous radical who wants not only big government, but the Europeanization of the United States, and explains how citizens can roll back the liberal establishment and return to fundamental American values.

The Match King Frank Partnoy, 2010-03-09 At the height of the roaring '20s, Swedish 'migr' Ivar Kreuger made a fortune raising money in America and loaning it to Europe in exchange for matchstick monopolies. His enterprise was a rare success story throughout the Great Depression. Yet after Kreuger's suicide in 1932, the true nature of his empire emerged. Driven by success to adopt ever-more perilous practices, Kreuger had turned to shell companies in tax havens, fudged accounting figures, off-balance-sheet accounting, even forgery. He created a raft of innovative financial products -- many of them precursors to instruments wreaking havoc in today's markets. When his Wall Street empire collapsed, millions went bankrupt. Frank Partnoy, a frequent commentator on financial disaster for the Financial Times, New York Times, NPR, and CBS's 60 Minutes, recasts the life story of a remarkable yet forgotten genius in ways that force us to re-think our ideas about the wisdom of crowds, the invisible hand, and the free and unfettered market.

Dead Dry Sarah Andrews, 2005-11 Assigned to assist the Salt Lake City police in the investigation of the murder of Afton McWain, a controversial colleague whose body turns up in a gravel quarry, forensic geologist Em Hansen confronts the results of the victim's turbulent personal life.

The End of the Age John Hagee, 2021-12-07 If you knew sudden destruction would fall upon the earth in the next twenty-four hours, how would you spend your last moments? Join New York Times bestselling author John Hagee as he uses Scripture as a guide to count down the prophetic minutes through the events which must occur before every individual faces God on Judgment Day. Charting international news events, including recent peace agreements in the Middle East, Hagee synchronizes these headlines with the biblical timeline for the last days, producing a compelling argument that life on Earth is about to expire. What else must take place before the arrival of Judgment Day? This very timely message discusses: The reality of virtual terrorism The financial crisis and economic crash Opposing views of the Rapture Recent peace agreements in the Middle East that impact Israel and a potential Russian invasion Nuclear wars The purpose of the Tribulation and the Millennium Significantly updated and revised from its previous publication under the title *From Daniel to Doomsday*, this is quintessential Hagee on Bible prophecy and End-Times teaching. This insightful book is an ideal resource for Christians who are looking for a guide to what the Bible says about the end times--and how to recognize that they are approaching. Mark it down: The End of the Age is approaching, but it won't be ushered in by space aliens or catastrophic asteroids. Hagee guides us through the timeline before that fateful moment when every unredeemed individual must face God on Judgment Day.

The Revolt of the Spectacular Society Adam Weishaupt, 2013-02-08 The fall of the Berlin Wall in 1989 signalled the end of not just communism but also of capitalism. The removal of its dialectical Cold War enemy allowed capitalism to release the brakes and bring about an enormous transfer of wealth from the ordinary people to the privileged elite. It is estimated that the richest 400 Americans are worth as much as the 150 million poorest Americans! These figures spell doom for capitalism. The arrogance of the super rich now rivals that of the French aristocracy in 1789. The elite create a Society of the Spectacle, full of images of perfection and of captivating, beguiling events staged on a monumental scale. The people, entranced, worship at the cathedrals of capitalism. The Situationist International, the Dada movement, the Futurists and the Punk rockers were all revolutionary groups of the twentieth century who opposed the ruling order. Has their time come again? The New World Order envisioned by the Pythagorean Illuminati is based on Meritocracy.

A Bubble that Broke the World Garet Garrett, 1932 Most of the matter in this book has appeared in the *Saturday Evening Post* during the last twelve months.--Author's note. June 1, 1932.

The Insecure American Hugh Gusterson, Catherine Besteman, 2009-11-24 Americans are feeling insecure. They are retreating to gated communities in record numbers, fearing for their jobs and their 401(k)s, nervous about their health insurance and their debt levels, worrying about terrorist attacks and immigrants. In this innovative volume, editors Hugh Gusterson and Catherine Besteman gather essays from nineteen leading ethnographers to create a unique portrait of an anxious country and to furnish valuable insights into the nation's possible future. With an incisive foreword by Barbara Ehrenreich, the contributors draw on their deep knowledge of different facets of American life to map the impact of the new economy, the war on terror, the war on drugs, racial resentments, a fraying safety net, undocumented immigration, a health care system in crisis, and much more. In laying out a range of views on the forces that unsettle us, *The Insecure American* demonstrates the singular power of an anthropological perspective for grasping the impact of corporate profit on democratic life, charting the links between policy and vulnerability, and envisioning alternatives to life as an insecure American.

Economic Parables David Cowan, 2007-07-09 Financial expert David Cowan reflects on the economic parables of Jesus to understand life in an increasingly globalized economy. Jesus' words shed light on a broad range of fiscal issues from paying bills to wise investment to just socio-economic conditions.

Saving Globalization Mike Moore, 2011-11-09 Globalization is not new, nor is it a policy, it's a process that has existed as long as man looked over the horizon, travelled and traded. It can't be stopped but it can be slowed. It came to a grinding halt in August 1914 and the Marxist detour cost millions of lives and lost three generations their opportunity and hope in many countries. More wealth has been created in the past 60 years than in all of history. After the most successful decade of sustained economic growth in history, this progress is threatened. Extreme inequality, corruption and environmental degradation threaten the stability and legitimacy of many developing countries' regimes. Anti-globalization and anti-capitalist campaigners' confidence has been emboldened due to the present economic crisis. Protectionist rhetoric is growing as are the arguments to control and regulate markets. Leaders are meeting to discuss how to face these problems and create a new international architecture. How did we get to this position? What should we do? What is it that determines why some contemporary states are successful while others have failed? *Saving Globalization* departs from its analysis of the globalised economy in the twenty-first century to answer these questions by tracing the development of what Moore considers to be 'the big ideas of history': democracy, independent courts, the separation of church and state, property rights, independent courts, a professional civil service, and civil society. Democratic capitalism has worked for most people. Why? It is a remarkable story, from the Greeks to the Geeks, encompassing technological progress and the corrections and contradictions between liberty and equality, technology, growth and the environment. In defence of the many virtues and opportunities that globalisation offers, Mike Moore makes the case for a fresh and new approach to our international Institutions and for domestic policies that promote equity and fairness. The book controversially attacks the new enemies of reason and evidence. The threats now come from all sides, especially workers in developed countries who fear for their jobs. Mike Moore is a political practitioner turned theoretician.
