*Latinos and Narrative Media* F. Aldama, 2013-11-07 This is the first book to explore the multitude of narrative media forms created by and that feature Latinos in the twenty-first century - a radically different cultural landscape to earlier epochs. The essays present a fresh take informed by the explosion of Latino demographics and its divergent cultural tastes.

*Keeping Up the Kardashians Brand* Amanda Scheiner McClain, 2013-10-29 The Kardashian family is a contemporary cultural touchstone, recognizable throughout the world connoting warrantless celebrity, voluptuous beauty, and social media

savviness. Amanda Scheiner McClain explores the Kardashians' brand and celebrity via narrative discourse analyses of their hit reality television series, *Keeping Up with the Kardashians*, social media utilization, and popular press coverage. This triangulated study allows insight into contemporaneous American culture: societal norms, values, and ideologies, as well as structural and cultural aspects of cross-platform brand creation. The television series examination finds intrinsic paradoxes of sexuality/conservatism, family/business, beauty/unhappiness, narcissism/celebrity, intimate/transgressiveness, and traditional/nontraditional gender roles, as well as materialism and public vs. private spheres themes. In addition, a study of the Kardashian blogs and Twitter use finds that their careful participation amplifies celebrity and unifies the overall brand into a single, sellable image across media. Through interactive media and just being themselves, the Kardashians renovate banal status updates and hackneyed reality television into character-constructing building blocks of brand, celebrity, and profits.

**Richard Prince** Richard Prince, 2014 The works in this catalogue, which include such well-known groups as Jokes and Car Hoods, illustrate the extraordinary variety of techniques and media Richard Prince uses to grapple with American myths in commercials and everyday culture. The strategies underlying the work, such as the serialisation, the sequencing and the repetition of constant and variable elements, is elaborated on by the American author Paul Black. While Kerstin Stakemeier examines the economic and political context of Prince's work in her contribution by means of selected examples, Yilmaz Dziewior explains the concept of the exhibition in Bregenz in 2014. The artist himself also has his say in the catalogue with an essay in which he formulates his artistic thinking in a most informative way. Large-format illustrations of early works and in particular the new pieces realised for Bregenz, as well as a carefully compiled biography and bibliography, offer a comprehensive insight into the American artist's work, which has influenced contemporary art for decades.
