A single author lends a unified approach and consistent style throughout, with an emphasis on the connections of events and people over time. The Third Edition, like the two before it, is authoritative and up-to-date. New to the Third Edition is the theme of empire. From the imperial rivalries between France and Spain in the sixteenth and seventeenth centuries, through the rise and fall of the Ottoman Turkish empire, and on into the imperial history of the twentieth century—decolonization, the spread of the Soviet empire, and the imperial power of the United States—the theme of empire helps students find commonalities among the events of European history.

A Concise History of Modern Europe David S. Mason, 2022-06-29 Highlighting the key events, ideas, and individuals that shaped modern Europe, this lively book provides a concise history of the continent from the Enlightenment to the present day. Drawing on the enduring theme of revolution, David S. Mason explores the political, economic, and scientific causes and consequences of revolution; the development of human rights and democracy; and issues of European identity and integration. He deliberately avoids a detailed chronology of every country and time period, instead emphasizing the most crucial events in shaping contemporary Europe. Fourteen focused chapters address such topical issues as the Enlightenment; the French Revolution and Napoleon; the Industrial Revolution; the theories and impact of Marx and Darwin; the revolutions of 1848, 1917, and 1989; the unifications of Germany and Italy; European imperialism; the two world wars; the Cold War; the evolution and expansion of the European Union; and current issues confronting Europe. Any reader who wants to view the broad sweep of European history will find this book an engaging narrative, supplemented with maps, timelines, sidebars,

photos, and a glossary.

The Lost Decade? The 1950s in European History, Politics, Society and Culture Heiko Feldner,Claire Gorrara,Kevin Passmore,2010-10-12 This volume of essays explores the social, political and cultural legacies of a decade which has, until relatively recently, received scant scholarly attention. Sandwiched uncomfortably between the traumatic events of the

Second World War and the dramatic changes of the 1960s, the 1950s appeared as seemingly transitional years, while they were in fact an astonishingly fecund period of reassessment and experimentation when traditional models were re-evaluated and new models were road-tested, to be either developed or rejected. An important intervention in the dynamic scholarly re-examination of the 1950s, this volume analyzes these years in relation to three broadly defined areas: historiography, politics and society, and culture. What emerges from all three parts of the volume is a vision of the 1950s as a decade which was to have a profound impact on post-war European identities in two key respects: as a time of accelerated European intellectual exchange and as a time of fertile receptivity to the 'new', variously formulated and contested across and within national borders. Written by experts in the field, the contributions to this volume represent some of the most exciting work on the 1950s currently being undertaken in Europe and the US. They combine high intellectual standards with accessibility and will appeal to academics, students and the general reader alike.

Themes in Modern European History, 1890-1945 Nicholas Atkin, Michael Biddiss, 2008-11-26 Adopting a thematic approach to a period of great change and upheaval in Europe, these essays throw new light on developments in society, the economy, politics and culture, fixing them not only in the political framework of the time, but also in their social and cultural contexts.
