

The Sound Of Rain

Emilia Duarte, Carlos Rosa

Sound Affects Sharon Jane Mee, Luke Robinson, 2022-12-15 *Sound Affects: A User's Guide* is a collection of sonically-charged concepts ranging from those felt, 'heard' and repeated (silence, the oriental riff, shuffle), to the vocal (whispers, sing, the disembodied voice), to sounds at the threshold (tin/ny, thump, buzz) to sounds beyond the limits of audibility (inaudible tremors, distortion, sub-bass). *Sound Affects* invites the reader to reflect on the ways that sounds produce affects and the ways that affects can operate as sound. Each of the entries develops a particular perspective on sound and affect through a close analysis of audiovisual and/or sonic objects. The objects chosen not only illustrate the concept in question but also demonstrate how the object encourages us to rethink the relationships between sounds and affects. Influenced by the sound theory of Eugenie Brinkema (2011), the concepts of *Sound Affects* plot the shift in volume from silence that opens up a space to be heard to the audibly near, from the audibly near to sounds beyond the limits of audibility. *Sound Affects* is an intellectual adventure for those who theorize and listen. The book can also be enjoyed as a narrative of sounds, its absences and its shifting intensities.

Natural History of Silence Jérôme Sueur, 2024-11-05 In our busy, noisy world, we may find ourselves longing for silence. But what is silence exactly? Is it the total absence of sound? Or is it the absence of the sound created by humans – the kind of deep stillness you might experience in a remote mountain landscape covered in snow, far away from the bustle of human life? When we listen closely, silence reveals a neglected reality. Neither empty nor singular, silence is instead plentiful and multiple. In this book, eco-acoustic historian Jérôme Sueur allows us to discover a vast landscape of silences which trigger the full gamut of our emotions: anxiety, awe and peace. He takes us from vistas resplendent with full and rich natural silences to the everyday silence of predators as they stalk their prey. To explore silences in animal behaviour and ecology is to discover a counterpoint to the acoustic diversity of the natural world, throwing into sharp relief the grating reverberations of the human activity which threatens it. It is to attune ourselves to a world that our human insensitivities have closed off to us, to take a moment simply to breathe and listen to the place of silence in nature.

Shakespeare, Madness, and Music Kendra Preston Leonard, 2009-07-09 Shakespeare's three political tragedies—*Hamlet*, *Macbeth*, and *King Lear*—have numerous times been presented or adapted on film. These three plays all involve the recurring trope of madness, which, as constructed by Shakespeare, provided a wider canvas on which to detail those

materials that could not be otherwise expressed: sexual desire and expectation, political unrest, and, ultimately, truth, as excavated by characters so afflicted. Music has long been associated with madness, and was often used as an audible symptom of a victim's disassociation from their surroundings and societal rules, as well as their loss of self-control. In *Shakespeare, Madness, and Music: Scoring Insanity in Cinematic Adaptations*, Kendra Preston Leonard examines the use of music in *Hamlet*, *Macbeth*, and *King Lear*. Whether discussing contemporary source materials, such as songs, verses, or rhymes specified by Shakespeare in his plays, or music composed specifically for a film and original to the director's or composer's interpretations, Leonard shows how the changing social and scholarly attitudes towards the plays, their characters, and the conditions that fall under the general catch-all of madness have led to a wide range of musical accompaniments, signifiers, and incarnations of the afflictions displayed by Shakespeare's characters. Focusing on the most widely distributed and viewed adaptations of these plays for the cinema, each chapter presents the musical treatment of individual Shakespearean characters afflicted with or feigning madness: *Hamlet*, *Ophelia*, *Lady Macbeth*, *King Lear*, and *Edgar*. The book offers analysis and interpretation of the music used to underscore, belie, or otherwise inform or invoke the characters' states of mind, providing a fascinating indication of culture and society, as well as the thoughts and ideas of individual directors, composers, and actors. A bibliography, index, and appendix listing Shakespeare's film adaptations help complete this fascinating volume.

The Sound of Heartbeats Edward Reed, 2018-10-04 Savannah Smith is back in the little beach town of Port Island to finalize her divorce, sell her grandmother's beach house and say goodbye to childhood memories. She's not in Port Island to fall in love. She and Nicholas Jackson, the boy next door, did that long ago when they were kids. They weren't supposed to. "Jacksons and Smiths don't mix, never have, never will," Savannah's grandmother Grace told her. "Stay away from that girl," Nicholas' grandfather Henry warned. Grace Smith, widow, stayed on her side of the azaleas and her neighbor Henry Jackson, widower, stayed on his side. Now, Savannah is a school teacher and Nicholas a handyman, something neither dreamed all those summers ago when they would slip away from their grandparents to be together. It's all still here and waiting for Savannah and Nicholas, the moonlit beach, the mimosa tree, and something they can only find with each other, the sound of heartbeats. War, a terrible accident, and years of pain find their way into the sunshine as Savannah and Nicholas unravel the mystery of why those who kept them apart as children are now bringing them together. "A life was lost, a life was saved, love was lost and love found." A beautiful story of life and love, that will make you stop and listen to the sound of heartbeats.

THE REMNANTS OF PAGAROTH J.T. Spears, 2024-07-01 When a dark ancient being, manages to escape his banishment from the other side of our Galaxy (and exile that had lasted for over a thousand eons). He is amazed, as well as delighted to find himself returning to a vulnerable world, now absent of the ones who had vanquished then hurled him into the outer

realms of existence. Forever..... However, no one had counted on his return (a feat once thought to be impossible). Especially to an unguarded world. There's no one to stand in his way now. No one to oppose him. Just a few young students, well learned in the ways and practices of the ancient gods. It is only they, who must stand against him now. These remnants of the old, armed only with a knowledge, long thought to be forgotten.

The Anxiety Workbook for Supporting Teens Who Learn Differently Clare Ward,James Galpin,2021-04-21 The teenage years are associated with high levels of uncertainty and anxiety, compounded by academic and social demands, and physical and emotional changes. They can be especially tough for teenagers who learn differently. This workbook contains a host of practical activities for teachers and other adults supporting young people with learning differences, whether at home or in the classroom. Drawing on their years of first hand experience, and up to the minute research, the authors outline a trans-diagnostic framework for identifying what might be behind a student's behaviour. They show how the first crucial step all practitioners must take is to work out what could be causing a teen's feelings of anxiety or uncertainty, and how this can be addressed. The activities in this workbook are organised into three sections, each addressing one of the three key areas where anxiety or uncertainty can be found: the structural, sensory and social domains. The tried-and-tested worksheets and activities present a much-needed alternative to a diagnosis-led approach. They can be used with any teenager, with or without a diagnosis, in classroom settings, intervention groups, or one to one work. The Anxiety Workbook will help you to really understand and address the needs of the SEN students you support, thereby improving their well-being, confidence and self-esteem and empowering them to get the most out of their education.
