The Sociology of Religion Max Weber, 1967

Max Weber's Sociology of Religion Christopher Adair-Totef, 2016

Fundamental Concepts in Max Weber's Sociology of Religion Christopher Adair-Totef, 2015-10-14 This book helps explain some of Max Weber's key concepts such as charisma, asceticism, mysticism, pariah-people, prophets, salvation, and theodicy and places them within the context of Weber's sociology of religion.

The Religion of India Max Weber, 1958

The Max Weber Dictionary Richard Swedberg, Ola Agevall, 2016-09-07 Max Weber is one of the world's most important social scientists, but he is also one of the most notoriously difficult to understand. This revised, updated, and expanded edition of *The Max Weber Dictionary* reflects up-to-the-moment threads of inquiry and introduces the most recent translations and references. Additionally, the authors include new entries designed to help researchers use Weber's ideas in their own work; they illuminate how Weber himself thought theorizing should occur and how he went about constructing a theory. More than an elementary dictionary, however, this work makes a contribution to the general culture and legacy of Weber's work. In addition to entries on broad topics like religion, law, and the West, the completed German definitive edition of Weber's work (*Max Weber Gesamtausgabe*) necessitated a wealth of new entries and added information on topics like pragmatism and race and racism. Every entry in the dictionary delves into Weber scholarship and acts as a point of departure for discussion and research. As such, this book will be an invaluable resource to general readers, students, and scholars.

alike.

Max Weber : critical assessments. 2,4 Peter Hamilton,1991

Max Weber's Economic Ethic of the World Religions Thomas C. Ertman,2017-03-24 This book brings together for the first time in English internationally-recognized specialists who seek to identify what is 'living' and what is 'dead' in the great German social scientist Max Weber's analyses of China, India and Ancient Israel found in his massive, unfinished Economic Ethic of the World Religions. In so doing, the volume offers a powerful new perspective on the current debate concerning the timing of and deeper roots of the 'Great Divergence' - and more recent convergence - in the economic and political development of the West on the one hand, and the great civilizations of Asia on the other. At the same time, this volume also rebalances our understanding of Weber's entire intellectual output by returning The Protestant Ethic and the Spirit of Capitalism to its proper place within Economic Ethic of the World Religions and establishing that work as the equal of the similarly unfinished Economy and Society.

Max Weber's Theory of Personality Sara R. Farris,2013-09-05 Max Weber's writings in The Sociology of Religion are today acknowledged as a classic of the social sciences in the twentieth century. They are key texts for understanding Weber's central sociological concepts concerning Western and Eastern 'civilisations'. This book argues that the concept and problematic of personality plays a pivotal role within these works. Providing a detailed reconstruction of this concept within Weber's systematic studies of world religions as well as throughout his methodological and political writings, this book shows its complex development within three strictly related problematics associated with Weber's influential comparative historical sociology and theory of social action - individuation, politics and orientalism. Together they shape and constitute what is distinctive in Max Weber's theory of personality.

The Religion of India by Max Weber Hans H. Gerth,Don Martindale,2023-06-15 Max Weber's early twentieth-century study of the religions and civilization of India is a great pioneering adventure in the sociology of ancient India. Weber's insight and analysis - especially his application of the sociological perspective to the work of classical Indologists and the religious texts available to him - were to add much to the store of the social scientist. Later, historians and archaeologists were to confirm a surprising number of Weber's theories. The central concern of this and other of Weber's studies of countries we today describe as developing was with the obstacles to industrialization and modernization. Weber anticipated by several decades a problem that has come to occupy the post-World War II world. Why had these countries failed to display the full consequence of these rationalizing tendencies which, to Weber's mind had so powerful an affinity with the scientific technical transformation of the West. He isolated religious institutions and the key social strata which mediate them to wider society as crucial for the original formation of social-psychological orientations to the practical concerns of life and, hence, for receptivity or resistance to industrialization.

Max Weber Dirk Käsler,1988 Käsler offers a comprehensive account of Weber's views, giving attention both to the context in which Weber produced his most significant contributions to social science, and to the changes involved in his work over the course of his career. This volume also serves as an introduction to the controversies that Weber's writings have stimulated, from the time of their first appearance to the present day.

The Sociology of Religion Max Weber,1966

Sociological Theory and the Question of Religion Andrew McKinnon,Marta Trzebiatowska,2016-04-01 Religion lies near the heart of the classical sociological tradition, yet it no longer occupies the same place within the contemporary sociological enterprise. This relative absence has left sociology under-prepared for thinking about religion's continuing importance in new issues, movements, and events in the twenty-first century. This book seeks to address this lacunae by offering a variety of theoretical perspectives on the study of religion that bridge the gap between mainstream concerns of sociologists and the sociology of religion. Following an assessment of the current state of the field, the authors develop an emerging critical perspective within the sociology of religion with particular focus on the importance of historical background. Re-assessing the themes of aesthetics, listening and different degrees of spiritual self-discipline, the authors draw on ethnographic studies of religious involvement in Norway and the UK. They highlight the importance of power in the sociology of religion with help from Pierre Bourdieu, Marx and Critical Discourse Analysis. This book points to emerging currents in the field and offers a productive and lively way forward, not just for sociological theory of religion, but for the sociology of religion more generally.

Centennial Rumination on Max Weber's the Protestant Ethic and the Spirit of Capitalism Isaacs Mark,2006-03-13 In 1904-1905 Max Weber published the sociological classic *The Protestant Ethic and the Spirit of Capitalism*. In this book Weber argues that religion, specifically ascetic Protestantism provided the essential social and cultural infrastructure that led to modern capitalism. Weber's suggests that Protestantism has an affinity for capitalism. Indeed, something within Protestantism-by accident or design-creates the necessary preconditions that lead to the flowering of a just, free, and prosperous society. At the same time, Weber wonders if the economic backwardness of certain societies and regions of the world are somehow related to their religious affiliation. Weber's century old thesis challenges the erroneous core assumptions of many secular humanists, postmoderns, Roman Catholic traditionalists, and Islamists. In view of the threat of the War on Terror, and in the face of the inadequate response of secularist and post-modern intellectuals, it is vital that we understand and appreciate the profound paradigm shift that occurred during the sixteenth and seventeenth century that led to the unfolding of modern capitalism. Despite a plethora of critics Max Weber's one-hundred year old thesis still stands.

Nineteenth-Century Religious Thought in the West: Volume 3 Ninian Smart,John Clayton,Patrick Sherry,Steven T.

Katz,1988-07-01 The successful three volumes of Nineteenth Century Religious Thought in the West provide a fresh appraisal of the most important thinkers of that time. Soames essays centre on major figures of the period; others cover topics, trends and schools of thought between the French Revolution and the First World War.

Max Weber and Islam Toby E. Huff,Wolfgang Schluchter, Max Weber and Islam is a major effort by Islamic-studies specialists to reexamine and appraise Max Weber's perspectives on Islam and its historical development. Eight specialists on Islam and two sociologists explore many dimensions of Weber's comments on Islam, along with Weber's conceptual framework. The volume's introduction links the discussions to contemporary issues and debates. Wolfgang Schluchter reconstructs Weber's conceptual apparatus as it applies to Islam and its historical development. In subsequent chapters, Islamic specialists consider such major topics as the developmental history of Islam, Islamic fundamentalism, Islamic reform, Islamic law and capitalism, secularization in Islam, as well as the value of attempting to apply Weber's concept of sects to Islam. While some authors find flaws in Weber's factual knowledge of Islam, they also find considerable merit in the kinds of questions Weber raised. Contributors to the volume include highly respected contemporary international scholars of Islam: Ira Lapidus, Nehemia Levtzion, Richard M. Eaton, Peter Hardy, Rudolph Peters, Barbara Metcalf, Francis Robinson, Patricia Crone, Michael Cook, and S.N. Eisenstadt. Toby Huff's introduction not only knits the thematics of the separate essays together but adds its own stresses while engaging the contributors in dialogue and debate about fundamental issues. This acute collective analysis establishes a new benchmark for understanding Weber and Islam. This book also provides an up-to-date overview of the developmental history of many aspects of Islam. A major reappraisal of the entire span of Max Weber's sociological thought on Islam, this book will appeal to a wide range of scholars and laymen interested in the Islamic world. It will be of particular interest to sociologists specializing in religion and Middle East area specialists. Toby E. Huff is professor of sociology at the University of Massachusetts, Dartmouth. He is editor of *On the Roads to Modernity: Conscience, Science and Civilization--Selected Writings* by Benjamin Nelson and the author of *Max Weber and the Methodology of the Social Sciences* and *The Rise of Early Modern Science: Islam, China, and the West*. Wolfgang Schluchter is professor of sociology at the University of Heidelberg and dean of the Max Weber Center for Advanced Studies at the University of Erfurt.

Max Weber and 'The Protestant Ethic' Peter Ghosh,2018-01-26 Max Weber and The Protestant Ethic: Twin Histories presents an entirely new portrait of Max Weber, one of the most prestigious social theorists in recent history, using his most famous work, *The Protestant Ethic and the Spirit of Capitalism*, as its central point of reference. It offers an intellectual biography of Weber framed along historical lines - something which has never been done before. It re-evaluates *The Protestant Ethic* -- a text surprisingly neglected by scholars -- supplying a missing intellectual and chronological centre to Weber's life and work. Peter Ghosh suggests that *The Protestant Ethic* is the link which unites the earlier (pre-1900) and later (post-1910) phases of his career. He offers a series of fresh perspectives on Weber's thought in various areas --

charisma, capitalism, law, politics, rationality, bourgeois life, and (not least) Weber's unusual religious thinking, which was 'remote from god' yet based on close dialogue with Christian theology. This approach produces a convincing view of Max Weber as a whole; while previously the sheer breadth of his intellectual interests has caused him to be read in a fragmentary way according to a series of specialized viewpoints, this volume seeks to put him back together again as a real individual.

Yeah, reviewing a ebook **The Sociology Of Religion Weber** could build up your near associates listings. This is just one of the solutions for you to be successful. As understood, achievement does not suggest that you have astonishing points.

Comprehending as without difficulty as accord even more than other will come up with the money for each success. neighboring to, the proclamation as competently as insight of this The Sociology Of Religion Weber can be taken as skillfully as picked to act.
