*British Television Drama* Lez Cooke, 2015-04-09 This widely-respected history of British television drama is an indispensable guide to the significant developments in the area; from its beginnings on the BBC in the 1930s and 40s to its position in the twenty-first century, as television enters a multichannel digital era. Embracing the complete spectrum of television drama, Lez Cooke places programmes in their social, political and industrial contexts, and surveys the key dramas, writers, producers and directors. Thoroughly revised and updated, this second edition includes new images and case studies, new material on British television drama before 1936, an expanded bibliography and a substantial new chapter that explores the renaissance in the quality, variety and social ambition of television drama in Britain since 2002. Comprehensive and accessible, this book will be of value to anyone interested in the rich history of British television and modern drama.

State of play Robin Nelson, 2013-07-19 Robin Nelson's *State of play* up-dates and develops the arguments of his influential *TV Drama In Transition* (1997). It is equally distinctive in setting analysis of the aesthetics and compositional principles of texts within a broad conceptual framework (technologies, institutions, economics, cultural trends). Tracing the great value shift from conduit to content (Todoreas, 1999), Nelson is relatively optimistic about the future quality of TV Drama in a global market-place. But, characteristically taking up questions of worth where others have avoided them, Nelson recognizes that certain types of quality are privileged for viewers able to pay, possibly at the expense of viewer preference worldwide for local resonances in television. The mix of arts and cultural studies methodologies makes for an unusual and insightful approach.

**Encyclopedia of Television** Horace Newcomb, 2014-02-03 The *Encyclopedia of Television*, second edition is the first major reference work to provide description, history, analysis, and information on more than 1100 subjects related to television in its international context. For a full list of entries, contributors, and more, visit the *Encyclopedia of Television*, 2nd edition website.

**Popular television drama** Jonathan Bignell, Stephen Lacey, 2017-06-01 *Popular television drama: critical perspectives* is a collection of essays examining landmark programmes of the last forty years, from 'Doctor Who' to 'The Office', and from 'The Demon Headmaster' to 'Queer As Folk'. Contributions from prominent academics focus on the full range of popular genres, from sitcoms to science fiction, gothic horror and children's drama, and challenge received wisdom by reconsidering

how British television drama can be analysed. Each section is preceded by an introduction in which the editors discuss how the essays address existing problems in the field and also suggest new directions for study. The book is split into three sections, addressing the enduring appeal of popular genres, the notion of 'quality' in television drama, and analysing a range of programmes past and present. Popular television drama: critical perspectives will be of interest to students and researchers in many academic disciplines that study television drama. Its breadth and focus on popular programmes will also appeal to those interested in the shows themselves.

**Television Aesthetics and Style** Steven Peacock, Jason Jacobs, 2013-07-04 Although Film Studies has successfully (re)turned attention to matters of style and interpretation, its sibling discipline has left the territory uncharted - until now. The question of how television operates on a stylistic level has been critically underexplored, despite being fundamental to our viewing experience. This significant new work redresses a vital gap in Television Studies by engaging with the stylistic dynamics of TV; exploring the aesthetic properties and values of both the medium and particular types of output (specific programmes); and raising important questions about the way we judge television as both cultural artifact and art form. Television Aesthetics and Style provides a unique and vital intervention in the field, raising key questions about television's artistic properties and possibilities. Through a series of case-studies by internationally renowned scholars, the collection takes a radical step forward in understanding TV's stylistic achievements.

**Experimental British television** Laura Mulvey, Jamie Sexton, 2015-07-01 Throughout its history, British television has found a place, if only in its margins, for programmes that consciously worked to expand the boundaries of television aesthetics. Even in the present climate of increased academic interest in television history, its experimental tradition has generally either been approached generically or been lost within the assumption that television is simply a mass medium. Available for the first time in paperback, Experimental British television uncovers the history of experimental television, bringing back forgotten programmes in addition to looking at relatively more privileged artists or programme strands from fresh perspectives. The book therefore goes against the grain of dominant television studies, which tends to place the medium within the flow of the 'everyday', in order to scrutinise those productions that attempted to make more serious interventions within the medium.

**British Television Drama** J. Bignell, S. Lacey, 2014-05-12 Featuring leading scholars of British television drama and noted writers and producers from the television industry, this new edition of British Television Drama evaluates past and present TV fiction since the 1960s, and considers its likely future.

**Queer Attachments** Sally R. Munt, 2017-09-29 Why is shame so central to our identity and to our culture? What is its role in stigmatizing subcultures such as the Irish, the queer or the underclass? Can shame be understood as a productive force? In this lucid and passionately argued book, Sally R. Munt explores the vicissitudes of shame across a range of texts,

cultural milieux, historical locations and geographical spaces - from eighteenth-century Irish politics to Philip Pullman's *His Dark Materials* trilogy, from contemporary US academia to the aesthetics of Tracey Emin. She finds that the dynamics of shame are consistent across cultures and historical periods, and that patterns of shame are disturbingly long-lived. But she also reveals shame as an affective emotion, engendering attachments between bodies and between subjects - queer attachments. Above all, she celebrates the extraordinary human ability to turn shame into joy: the party after the fall. *Queer Attachments* is an interdisciplinary synthesis of cultural politics, emotions theory and narrative that challenges us to think about the queerly creative proclivities of shame.

**Sex, Money and Power** Bill Jordan, 2004-10-08 Intimacy, choice, movement: these are the elements that make up the desirable lifestyle in the mainstream of affluent societies. They also undermine traditional forms of power and control, and create a web of connections between individuals all over the world, which promises to be more flexible and less restrictive than any that has existed before. But, Bill Jordan argues, our present global institutions have shut out the majority of the world's population, who are left to rely on quite different bonds - of blood, soil and faith.

**Encyclopedia of Television Film Directors** Jerry Roberts, 2009-06-05 From live productions of the 1950s like *Requiem for a Heavyweight* to big budget mini-series like *Band of Brothers*, long-form television programs have been helmed by some of the most creative and accomplished names in directing. *Encyclopedia of Television Film Directors* brings attention to the directors of these productions, citing every director of stand alone long-form television programs: made for TV movies, movie-length pilots, mini-series, and feature-length anthology programs, as well as drama, comedy, and musical specials of more than 60 minutes. Each of the nearly 2,000 entries provides a brief career sketch of the director, his or her notable works, awards, and a filmography. Many entries also provide brief discussions of key shows, movies, and other productions. Appendixes include Emmy Awards, DGA Awards, and other accolades, as well as a list of anthology programs. A much-needed reference that celebrates these often-neglected artists, *Encyclopedia of Television Film Directors* is an indispensable resource for anyone interested in the history of the medium.

**Contemporary British Television Drama** James Chapman, 2020-05-28 The early twenty-first century has seen the emergence of a new style of television drama in Britain that adopts the professional practices and production values of high-end American television while remaining emphatically 'British' in content and outlook. This book analyses eight of these dramas - *Spooks*, *Foyle's War*, *Hustle*, *Life on Mars*, *Ashes to Ashes*, *Downton Abbey*, *Sherlock* and *Broadchurch* - which have all proved popular with audiences and in their different ways represent the thematic and formal paradigms of post-millennial drama. James Chapman locates new British drama in its institutional and economic contexts, considers their critical and popular reception, and analyses their social politics in relation to their representations of class, gender and nationhood. He demonstrates how contemporary drama has mobilised both new and residual elements in re-configuring genres such as the

spy series, cop show and costume drama for the cultural tastes of modern audiences. And it concludes that television drama has played an integral role in both the economic and the cultural export of 'Britishness'.

**Mass Producing European Cinema** Christopher Meir, 2019-02-07 Equal parts historical study, industrial analysis and critical survey of some of the most important films and television programs in recent European history, this book gives readers an overview of the development and output of this important company while also giving them a ringside seat for the latest round of the oldest battle in the film business. With films like *Lucy*, *The Impossible* and *Paddington*, European studios are producing hits that are unprecedented in terms of global success. Christopher Meir delves into StudioCanal, the foremost European company in the contemporary film and television industries, and chronicles its rise from a small production subsidiary of Canal Plus to being the most important global challenger to Hollywood's dominance.

**Jimmy McGovern** Steve Blandford, 2016-05-16 This, the first book length study of one of Britain's leading television writers, Jimmy McGovern, links his work to key changes in British television over the last thirty years. McGovern's versatility has meant that his work ranges from soap opera to crime series, studio based single drama to art house features for theatrical release. The book therefore acts partly as a survey of the way that drama for the small screen has mutated and changed over a key period in its history. Steve Blandford's percipient and readable book extensively examines some of McGovern's most influential work, including *Brookside*, *Cracker*, *The Lakes*, *Hillsborough* and *The Street*.

**Benedict Cumberbatch - The Biography** Justin Lewis, 2015-04-02 This is the story of Benedict Cumberbatch, still only in his thirties, and one of Britain's foremost acting talents, excelling in theatre, television, radio and cinema.

**A European Television Fiction Renaissance** Luca Barra, Massimo Scaglioni, 2020-11-29 This book maps the landscape of contemporary European premium television fiction, offering a detailed overview of both the changes in the digital production and distribution and the emergence of specific national and transnational case histories. Combining a media-production approach with a textual and audience analysis, the volume offers a complex, stratified, systemic view of ongoing aesthetic, sociocultural and industrial developments in contemporary European TV. With contributions from leading experts in the field, the book first offers an overview of the industrial, policy and cultural context for the renaissance of European television drama over the past decade, based on original comparative research. This research is then supported by case study chapters from the key contexts within which quality European television is being produced, offering a complex and complete picture of the industry's strengths and limitations, its traditions and trends, its constraints and future perspectives. A European Television Fiction Renaissance is a must-read book for TV scholars working across Europe and beyond in the areas of media studies, international communications and television studies, media industries studies, production studies, European studies, and media policy studies as well as for those with an interest in television drama, Netflix, globalisation, pay TV and on demand.

**Fragments of an Analytic Pub Crawl** Hugh M Vaughan, 2021-08-24 Fragments of an Analytic Pub Crawl traces the journey of my life, its memories, the events and the places where I have been and what I have read. The book title is not to be

confused with the traditional drinking pub crawl, it is a way of describing the psychogeographical nature of this book. Patrick French, the writer, described psychogeography as “an analytic pub crawl”, a lived experience – one drifts from one place to the next; observing, noting, reacting. We may drift through a city, or a life and absorb. This is the “dérive”. Charles Baudelaire named this person, the flâneur. Just as the past left traces in today’s built environment, so have we, and so have I. This book traces those memories, it’s part memoir, part history, and part essay. The subjects reflect a variety of interests: growing up in Northern Ireland, the Troubles, my life in IT education, Irish humour, life-skills, reading, writing, music, emigration, family, urban liveability, the pandemic and much much more.

**Doc-Humanity** Maurizio Ferraris, 2022-09-12 However you view the present time, it is a new century, a new world, and also a new humanity - in fact, humanity is not something that was ever defined once and for all, but remains an open project. For several decades we have been witnessing a revolution. However, unlike the political and ideological revolutions that took place around the First World War, this is a technological and much more radical one that does not depend on people's beliefs, but rather on the tireless labour of machines. The rise of automation has brought about a revelation of something that had hitherto remained hidden in the workshops of homo faber. That is, there are very few functions, apart from consumption, where a machine cannot replace a human being, be these material or spiritual - machines need energy, but they can also do without it, whereas humans die if deprived of it, or one can imagine a machine producing symphonies, but not enjoying them. So while human beings are still needed, their roles and scopes have to be reconsidered. Workers may be superfluous, but humans are still needed, including those who until recently only recognised themselves as producers. The exclusion of workers from production does not discount humans being able to produce value in the form of consumption. Recognising this will enable us to conceive the Webfare - a new digital system that will teach us to find new names and new forms, more tolerance and room for traditional human needs. Above all, it will teach us how to transform the time given to us by automation into an opportunity for progress.
