Turkish Secularism Tarlan Masmaliyeva,2023-12-14 There are any number of studies on Turkish secularism. However, to date there has never been a comprehensive analysis of the constitutional protection of secularism, one that systematically covers all relevant aspects. Addressing that gap, this book presents a comprehensive and coherent analysis of the constitutional framework of this principle within the Turkish legal system. Secularism is a common fundamental principle of all three Turkish constitutions (1924, 1961, 1982). The principle has been granted an irrevocable status and has been strictly constructed within the Turkish constitutional system. Despite the guarantee of irrevocability, however, its interpretation and application have undergone a drastic transformation in response to changing social and political circumstances. Today, the complaints filed before the domestic and international judiciary predominantly concern the Turkish State's neutrality and impartiality towards religion and the exercise of freedom of religion by religious minorities. While many observers have interpreted these problems in light of the contemporary policies pursued in the field of religion, a closer look reveals that the problem lies deeper in Turkey's general constitutional framework. While the 1982 Constitution declares the principle as an unamendable characteristic of the Republic and protects it with multi-layered mechanisms, certain anti-democratic features of the Constitution, including the President's predominant role in forming the high-ranking judiciary, affect the proper and consistent application of the principle of secularism. The consolidation of the secular state order depends on various factors other than a suitable constitution. However, it goes without saying that constitutions can help or hinder efforts to find

solutions. Therefore, this book identifies the deficiencies in the Turkish constitutional and legal framework regarding the protection of secularism. It presents the historical development and definition of a secular state, analyzes the jurisprudence of the Turkish Constitutional Court and the European Court of Human Rights, studies the application of the party prohibition mechanism as a means of protecting the principle, and assesses the constitutional amendments of 2001, 2010 and 2017. Moreover, it proposes much-needed constitutional and legal amendments with a view to improving the application of the principle of secularism.

The Routledge Handbook of Parliamentary Administrations Thomas Christiansen, Elena Griglio, Nicola Lupo, 2023-05-31 The Routledge Handbook of Parliamentary Administrations brings together an international, multidisciplinary group of contributors providing a systematic and comprehensive analysis of parliamentary administrations. Including chapters on the administrations of national parliaments in every member state of the European Union, in most of the EU candidate countries and in key liberal democracies around the world, this book represents a uniquely broad-ranging resource. Each national system is treated in a consistent manner, with authors providing relevant facts, figures and critical analysis according to a common framework. Additionally, it provides coverage of transnational parliamentary administrations in different regions around the globe and includes a number of cross-cutting chapters, addressing key issues of relevance for a better understanding of parliamentary administrations such as the potential for politicisation, professionalisation, digitalisation or Europeanisation with the comparative analysis of different national experiences. This handbook will enable readers to better comprehend the role and influence of parliamentary administrations and in doing so will enhance our understanding of their importance for the effective functioning of representative democracy more generally. The Routledge Handbook of Parliamentary Administrations constitutes a unique tool and prime reference for any researcher, scholar or practitioner working in the area of parliamentary and legislative studies, governance, democracy, public policy and administration, as well as more widely to European studies, general political science and comparative politics. Chapters 1, 2 and 4 of this book are freely available as downloadable Open Access PDFs at <http://www.taylorfrancis.com> under a Creative Commons Attribution-Non Commercial-No Derivatives (CC-BY-NC-ND) 4.0 license.

Asian Law in Disasters Yuka KANEKO, Katsumi MATSUOKA, Toshihisa TOYODA, 2016-05-20 This book is a critical analysis of several of the most disaster-prone regions in Asia. Its unique focus is on the legal issues in the phase of disaster recovery, the most lengthy and difficult stage of disaster response that follows the conclusion of initial emergency stage of humanitarian aid. In the stage of disaster recovery, the law decides the fate of reconstruction for the individual houses and livelihoods of the disaster-affected people and sets the limit of governmental support for them during the lengthy period of suspension of normal living until full recovery is obtained. Researchers who were participant-observers in the difficult recovery phase after the mega-disasters in Asia analyse the reality of the functions of law which often hinder, rather than

foster, efforts to restore disaster victims' lives. The book collects research conducted with an emphasis on empirical approaches to legal sociology, including direct interviews with people affected by the disaster. It offers a holistic approach beyond the traditional sectionalism of legal studies by starting with a historical review and incorporating both spheres of public law and private law, in order to obtain a new perspective that can concurrently achieve disaster risk reductions and human-centered recoveries. With particular emphasis on the unexplored area of law in the post-disaster recovery phase, this book will attract the attention of students and scholars of disaster studies, legal studies, Asian studies, as well as those who work in the practice of disaster management.

Public Preferences and Institutional Designs Niva Golan-Nadir, 2021-12-10 This book explores the existence of gaps between public preferences and institutional designs in democracies, and specifically cases in which such gaps are maintained for a long period of time without being challenged by the electorate. Gaps such as these can be seen in the complex relations between the state and religion in Israel and Turkey, and more specifically in their policies on marriage. This line of investigation is interesting both theoretically and empirically, as despite their poles apart policies, Israel and Turkey share a similar pattern of institutional dynamics. Existing explanations for this phenomenon suggested either civil society-based arguments or intra-institutional dynamics, as reasons for the maintenance of such gaps. This book enriches our understanding of policy dynamics in democratic systems by introducing a third line of argument, one that emphasizes the effective role state institutions play in maintaining such arrangements for long periods, often against the public will.

Criminal Law in Turkey Feridun Yenisey, 2021-07-20 Derived from the renowned multi-volume International Encyclopaedia of Laws, this book provides a practical analysis of criminal law in Turkey. An introduction presents the necessary background information about the framework and sources of the criminal justice system, and then proceeds to a detailed examination of the grounds for criminal liability, the justification of criminal offences, the defences that diminish or excuse criminal liability, the classification of criminal offences, and the sanctions system. Coverage of criminal procedure focuses on the organization of investigations, pre-trial proceedings, trial stage, and legal remedies. A final part describes the execution of sentences and orders, the prison system, and the extinction of custodial sanctions or sentences. Its succinct yet scholarly nature, as well as the practical quality of the information it provides, make this book a valuable resource for criminal lawyers, prosecutors, law enforcement officers, and criminal court judges handling cases connected with Turkey. Academics and researchers, as well as the various international organizations in the field, will welcome this very useful guide, and will appreciate its value in the study of comparative criminal law.
