Everyday Shakespeare Ben Crystal, David Crystal, 2023-05-25 An absolutely joyous, gasp-out-loud achievement. - Stephen Fry A cathedral of consciousness - Shakespeare's uncanny insight into human nature finds us, unearthed here. - LionHeart, artist, poet, and BBC Radio London presenter Shakespeare had an ear and hand that was able to capture our everyday thoughts and emotions, pin them to a page, and express them so well that still today they can make us feel stunned to be seen. 'Better three hours too soon than a minute too late.' 'Make not your thoughts your prisons.' 'Wisely and slow. They stumble that run fast.' 'And I have heard it said, unbidden guests are often welcomest when they're gone.' With a quote for every day of the year, this beautiful book gathers the finest lines from the lesser-known corners of Shakespeare's plays and poems. While you may not be familiar with these 400-year-old phrases, you will be surprised by the immediate, easy resonance they have with modern day-to-day life and, hopefully, inspired to learn a few quotes, say them out loud, and drop them into conversation. Each page bears a gift of Shakespearean delight - around which lies a treasure trove of trivia, miscellaneous fact, and opportunities for reflection. The Crystals - son and father - draw attention to points of daily life, literary, linguistic, and theatrical interest through their entertaining commentary. They offer notes of context for anyone who wants to know who originally said the words, in which play, and why. And finally, the authors provide three indexes, allowing readers to help find the right quote for a task, or to follow-up on a quote's original source. Shakespeare's words are a mirror for us to peer into, to see if any part of ourselves, familiar or strange, is visible. Each day as you read his lines, you'll get

glimpses of loves you've known, jealousies you've felt, relationships you've had, and situations you've encountered that bring a smile - or a wince - of familiarity. Everyday Shakespeare shares the simple lines that encapsulate the wondrous complexity of life, and the enduring appeal of the Bard. Shakespeare was not of an age, but for all time. - Ben Jonson

The Economics of Business Valuation Patrick Anderson, 2013-04-10 For decades, the market, asset, and income approaches to business valuation have taken center stage in the assessment of the firm. This book brings to light an expanded valuation toolkit, consisting of nine well-defined valuation principles hailing from the fields of economics, finance, accounting, taxation, and management. It ultimately argues that the value functional approach to business valuation avoids most of the shortcomings of its competitors, and more correctly matches the actual motivations and information set held by stakeholders. Much of what we know about corporate finance and mathematical finance derives from a narrow subset of firms: publicly traded corporations. The value functional approach can be readily applied to both large firms and companies that do not issue publicly traded stocks and bonds, cannot borrow without constraints, and often rely upon entrepreneurs to

both finance and manage their operations. With historical side notes from an international set of sources and real-world exemplars that run throughout the text, this book is a future-facing resource for scholars in economics and finance, as well as the academically minded valuation practitioner.

*God Betrayed* Jerald Finney, 2008-08 *God Betrayed* explains: (1) the biblical principles concerning government, church, and separation of church and state which one needs to know in order to understand the First Amendment and why it was adopted; (2) the history of the theological warfare in the colonies that eventually resulted in the adoption of the First Amendment; (3) how and why, soon after the ratification of the Constitution and the First Amendment, many churches subjected themselves to the state; (4) how the Supreme Court has used the First Amendment religion clause to remove God from practically all civil government affairs; (5) how civil government entices many churches to abandon their Supernatural and First Amendment freedoms; and (6) how churches in America can operate totally under God and free from any control by civil government. After graduating from college in 1970 and serving as an army officer in the Viet Nam conflict, Jerald Finney worked for the railroad and then started and operated a photography studio in Fort Worth, Texas. He was saved in 1982. God called him to enter the legal profession. He entered the University of Texas School of Law in 1990, and was licensed to practice law in 1993. Since that time, the Lord has guided his career. In 2005, he became lead counsel for the Biblical Law Center. This book is the result of his in depth studies of the issue of separation of church and state, the main issue which is addressed by the Biblical Law Center.

**World of the Gift** Jacques T. Godbout, Alain C. Caille, 1998-10-21 The anthropologist Marcel Mauss, in his famous exploration of the gift in primitive and archaic societies, showed that the essential aspect of the exchange of presents involved the establishment of a social tie that bound the parties together above and beyond any material value of the objects exchanged. He argued that these intangible mutual debts constituted the social fabric. Godbout and Caillé show that, contrary to the modern assumption that societies function on the basis of market exchange and the pursuit of self-interest, the gift still constitutes the foundation of our social fabric. The authors describe the gift not as an object but as a social connection, perhaps the most important social connection because it creates a sense of obligation to respond in kind. They examine the gift in a broad range of cases such as blood and organ donation; volunteer work; the bonds between friends, couples, and family; Santa Claus; the interaction between performers and their audience; and the relation of the artist to society. Written in an engaging manner, *The World of the Gift* will appeal to anyone who is interested in how the world really operates.
