Opera and British Print Culture in the Long Nineteenth Century Christina Fuhrmann, 2023-02-16 Winner of the 2024 H. Robert Cohen/RIPM Award from the American Musicological Society Recently, studies of opera, of print culture, and of music in Britain in the long nineteenth century have proliferated. This essay collection explores the multiple point of interaction among these fields. Past scholarship often used print as a simple conduit for information about opera in Britain, but these essays demonstrate that print and opera existed in a more complex symbiosis. This collection embeds opera within the culture of Britain in the long nineteenth century, a culture inundated by print. The essays explore: how print culture both disseminated and shaped operatic culture; how the businesses of opera production and publishing intertwined; how performers and impresarios used print culture to cultivate their public persona; how issues of nationalism, class, and gender impacted reception in the periodical press; and how opera intertwined with literature, not only drawing source material from novels and plays, but also as a plot element in literary works or as a point of friction in literary circles. As the growth of digital humanities increases access to print sources, and as opera scholars move away from a focus on operas as isolated works, this study points the way forward to a richer understanding of the intersections between opera and print culture.

Bits and Pieces Kenneth B. McAlpine, 2019 Bits and Pieces tells the story of chiptune, a style of lo-fi electronic music that emerged from the first generation of video game consoles and home computers in the late 1970s and early 1980s. Through ingenuity and invention, musicians and programmers developed code that enabled the limited hardware of those early 8-bit machines to perform musical feats that they were never designed to achieve. In time, that combination of hardware and creative code came to define a unique 8-bit sound that imprinted itself on a generation of gamers. For a new generation of musicians, this music has currency through the chipscene, a vibrant musical subculture that repurposes obsolete gaming hardware. It's performative: raw and edgy, loaded with authenticity and driven by a strong DIY ethic. It's more punk than Pac-Man, and yet, it's part of that same story of ingenuity and invention; 8-bit hardware is no longer a retired gaming console, but a quirky and characterful musical instrument. Taking these consoles to the stage, musicians fuse 8-bit sounds with other musical styles - drum'n'bass, jungle, techno and house - to create a unique contemporary sound. Analyzing musical structures and technological methods used with chiptune, Bits and Pieces traces the simple beeps of the earliest arcade games, through the murky shadows of the digital underground, to global festivals and movie soundtracks.

Sherwood Bette Hurst,2011-08-11 Sherwood is the coming of age story of Colleen Reilly, a young woman caught between the idealism and realism of two men she meets during her stay in a TB sanitarium at the close of World War II. It is also the interracial love story of a Haitian immigrant and a headstrong girl who cant accept life confined behind conventional social screens. Both stories fuse in the shadowy figure of the Handyman, a man who refuses to condone what he sees at Sherwood. A forbidden room, an assault, and the theft of a book lead to two tragedies which change the lives of four men and four women forever. As Colleen struggles to escape the age-old plague of TB, she encounters a new oneand the whole truthas seen through the eyes of a five year old little boy.

German Prisoners of the Great War Anne Buckley,2021-04-28 In Munich in 1920, just after the end of the First World War, German officers who had been prisoners of war in England published a book they had written and smuggled back to Germany. Through vivid text and illustrations they describe in detail their experience of life in captivity in a camp at Skipton in Yorkshire. Their work, now translated into English for the first time, gives us a unique insight into their feelings about the war, their captors and their longing to go home. In their own words they record the conditions, the daily routines, the food, their relationship with the prison authorities, their activities and entertainment, and their thoughts of their homeland. The challenges and privations they faced are part of their story, as is the community they created within the confines of the camp. The whole gamut of their existence is portrayed here, in particular through their drawings and cartoons which are reproduced alongside the translation. *German Prisoners of the Great War* offers us a direct inside of view a hitherto neglected aspect of the wartime experience a century ago.

Max Steiner Peter Wegele,2014-04-24 Max Steiner is one of the greatest—not to mention most prolific—composers of the Golden Age of Hollywood. The winner of three Academy Awards, Steiner’s credits include *King Kong*, *The Informer*, *Gone with the Wind*, *Now, Voyager*, *Since You Went Away*, *Johnny Belinda*, and *The Caine Mutiny*. Though known for timeless melodies that symbolize the glamor of Hollywood’s Golden Age, Steiner has also been hailed as a film scoring pioneer. In *Max Steiner: Composing, Casablanca, and the Golden Age of Film Music*, Peter Wegele unveils the man behind dozens of memorable scores, offering a portrait of the composer from a personal and professional point of view. Beginning with

background on the history and techniques of film music, Wegele then examines Steiner's musical innovations, some of which are still used today. This is followed by a thorough analysis of one of Steiner's legendary scores—the music to *Casablanca*. More than eighty transcribed musical examples demonstrate how efficient, musically clever, and tremendously skilled the composer was when he wrote this score. Drawing on quotes, notes from production files, and excerpts from the original script for *Casablanca*, Wegele provides insight not only into the production history of the film, but also into the workings of Hollywood during the Golden Age. Including an appendix that compares Steiner with four other composers of his age—Erich Wolfgang Korngold, Alfred Newman, Franz Waxman, and Hugo Friedhofer—and a complete filmography of Steiner's work, this book is an invaluable examination of the composer's life and career. Film music composers, music scholars and students, directors, and anyone interested in film and music history will enjoy this detailed portrait of a musical genius.
