VOC John Landwehr,2024-06-03 At the height of its power and influence in the seventeenth and eighteenth century the VOC - acronym for the United Netherland East India Company - was the greatest commercial concern in the world. The scope of its activities extended from the Cape of Good Hope to Japan. In some aspects, the Baltic trade and the North Sea fisheries were of more fundamental relevance for the economy of the Lowlands. But it was the more spectacular East Indian trade which aroused the admiration and the envy of foreigners, sometimes to the point of war. In this bibliography several topics are covered. Not only technical matters such as the legal status of the VOC, its management, directors and shareholders, but also subjects as voyages, battles, ship building, navigation, geography, natural history, ethnography, mission work, ministration, and many others. With 1674 entries, fully described and fully indexed.

The Dutch East India Company F. S. Gaastra,2003 De geschiedenis van de Verenigde Oostindische Compagnie en met name de sociaal-economische aspecten, vanaf de oprichting in 1602 tot aan de ondergang aan het einde van de achttiende eeuw

The Dutch East India Company Hourly History,2017-10-18 The Dutch East India Company Once valued at close to seven trillion dollars by today's standards, the Dutch East India Company, formed in 1602, became the world's first multinational corporation. In the nearly 200-year reign of their empire at sea, the Dutch East India Company amassed unfathomable fortunes, laid the foundation of the modern globalized world, and built monopolies that controlled the economy of the seventeenth and eighteenth centuries in Europe and the East Indies. In the Shadow of the Company: The Dutch East India Company and its Servants in the Period of its Decline (1740-1796)

Chris Nierstrasz, 2012-08-27 Is there any truth in the story that the morality of the servants of the Dutch East India Company in the eighteenth century was so rotten that one should believe the Dutch maxim 'Vergaan Onder Corruptie' - in translation something like 'Succumbed to Corruption' - and use this as an explanation for a very complex phenomenon? Chris Nierstrasz introduces us in his *In the Shadow of the Company*, to the realities of the decision makers and of the servants in the field. Responding to the changing realities in Asia, the Company could only try to use the mercantile potential of its higher echelons to postpone its downfall. In a situation in which the directors were not able to increase investment from Holland, the servants in Asia were forced to take up the challenge.

Dutch East India Company Merchants at the Court of Ayutthaya Bhawan Ruangsilp, 2007-05-31 No European country enjoyed such long-standing relations with the Thai Kingdom of Ayutthaya as the Netherlands. This study focuses on the perceptions of the merchants of the Dutch East India Company (VOC) of the Thai royal court in the seventeenth and eighteenth century. Basing herself on a wealth of Dutch primary sources, the author shows how trade, politics, and diplomacy shaped a unique relationship based on 'partnership' and a 'sense of differences'. The book contributes to expanding the study of the history of Ayutthaya—known for its scarcity of sources— with the help of contemporary Dutch views.

Commanders of Dutch East India Ships in the Eighteenth Century J. R. Bruijn, 2011 Provides a detailed picture of

the lives of the commanders and those around them, both at home and at sea. An original and evocative window onto the lives of men who bridged the two worlds of eighteenth century Europe and the Far East.' Professor Nicholas Rodger. This book represents a major contribution to our knowledge and understanding of the East Indian maritime world of the European trading companies. The Dutch East India Company, which ruled large and important parts of what is now Indonesia, and which controlled the highly lucrative trade from the Dutch East Indies to Europe, much of it a monopoly trade in pepper and other spices, was in this period larger and better established than its British counterpart. The book reconstructs and explores the careers of the highly important and influential commanders of the Dutch East Indiamen, the ships which plied the trade routes between the East Indies and the Netherlands. It covers the company's system of examinations, how mates and masters acquired their navigational knowledge, how they lived their lives at sea and on land, and how, making use of the enormous opportunities for private trade, they were able to make substantial fortunes and climb the social ladder. The book contains a wealth of material on the social history of the commanders and those around them, both at home and at sea. JAAP R. BRUIJN is Professor Emeritus of Maritime History at Leiden University. He is one of the leading maritime historians in the Netherlands.

The Dutch East India Company's Tea Trade with China Yong Liu, 2007 This case study of the tea trade of the Dutch East India Company with China deals with the most profitable phase of the Dutch Company's China trade, focusing on the question why and how the tea trade was taken out of the hands of the High Government in Batavia and put under the supervision of the newly established China Committee in 1757. Various factors which contributed to the phenomenal rise of this trade and its sudden decline are dealt with in detail. Filling in lacunae left open by previous research and this monograph contributes to a more comprehensive understanding of the VOC trade with Asia.

The Archaeology of Contact in Settler Societies Tim Murray, 2004-10-14 Several decades of research into the archaeology of contact in North America have laid the foundations for the global exploration of the archaeology of European colonization. It is significant, however, that archaeologists, unlike historians and geographers, have yet to develop a global account of contact and its consequences. This edited work presents case studies from nations developed from British settlement so as to allow historical archaeologists to examine differences and similarities between the histories of modern colonial societies world-wide. Written by an international team of experts, the work shows that historical archaeologies can assume marvellously different and suggestive forms when examined from the periphery. Furthermore, the imperatives of the periphery could result in different perspectives on North American and European archaeological contexts. The work also examines the role of a global vision of the historical archaeology of colonialism in providing a new basis for the evolution of the 'nation'.

The Worlds of the East India Company H. V. Bowen, Margarette Lincoln, Nigel Rigby, 2002 A collection of essays on

the history and relationships of the East India Company from 1600 to the early 1800s.

Encounters on the Opposite Coast: The Dutch East India Company and the Nayaka State of Madurai in the Seventeenth Century Markus Vink, 2015-10-14 In *Encounters of the Opposite Coast* Markus Vink provides a narrative of the first half century of cross-cultural interaction between the Dutch East India Company (VOC), one of the great northern European chartered companies, and Madurai, one of the 'great southern Nayakas' and successor-states of the Vijayanagara empire, in southeast India (c. 1645-1690). A shared interest in trade and at times converging political objectives formed the unstable foundations for a complex relationship fraught with tensions, a mixture of conflict and coexistence typical of the 'age of contained conflict'. Drawing extensively on archival materials, Markus Vink covers a topic neglected by both Company historians and their Indian counterparts and sheds important light on a 'black hole in South Indian history'.

Savage Republic: De Indis of Hugo Grotius, Republicanism and Dutch Hegemony within the Early Modern World-System (c. 1600-1619) Eric Wilson, 2008-08-31 Intended for the professional academic and graduate student, this book is the first to utilize the methodology of "New Stream" legal scholarship in an extended critical "exegesis" of Hugo Grotius' *De Indis* (c.1604-6). *De Indis* is predicated upon a two-fold discursive strategy: (i) investing "private" Trading Companies with "public" international legal personality, and (ii) collapsing the distinction between "private" and "public" warfare. Governing the operation of textual interpretation is *De Indis*' status as a republican treatise juridically legitimating an early modern Trans-National corporation (the VOC) that served as an agent of a "primitive" system of global governance, the early Capitalist World-Economy. The application of New Stream scholarship reveals that the republican signature of *De Indis* consists of a discursive "micro-oscillation" between the "thick" ontology of Late Scholasticism ("Utopia") and the "thin" ontology of Civic Humanism ("Apology") wholly appropriate to the governance requirements of the embryonic Modern World-System.

Macao - The Formation of a Global City C.X. George Wei, 2013-11-07 Macao, the former Portuguese colony in southeast China, has a long and very interesting history of cultural interaction between China and the West. Held by the Portuguese from the 1550s until its return to China in 1999, Macao was up to the emergence of Hong Kong in the later nineteenth century the principal point of entry into China for all Westerners - Dutch, British and others, as well as Portuguese. The relatively relaxed nature of Portuguese colonial rule, intermarriage, the mixing of Chinese and Western cultures, and the fact that Macao served as a safe haven for many Chinese reformers at odds with the Chinese authorities, including Sun Yat-sen, all combined to make Macao a very different and special place. This book explores how Macao was formed over the centuries. It puts forward substantial new research findings and new thinking, and covers a wide range of issues. It is a companion volume to *Macao - Cultural Interaction and Literary Representations*.

Goods from the East, 1600-1800 Maxine Berg, Felicia Gottmann, Hanna Hodacs, Chris Nierstrasz, 2015-07-13 *Goods from*

the East focuses on the fine product trade's first Global Age: how products were made, marketed and distributed between Asia and Europe between 1600 and 1800. It brings together established scholars as well as new, to provide a full comparative and connective study of this trade.

World Trade Systems of the East and West Geoffrey C. Gunn, 2017-11-13 In *World Trade Systems of the East and West*, Geoffrey C. Gunn profiles Nagasaki's historic role in mediating the Japanese bullion trade, especially silver exchanged against Chinese and Vietnamese silk. Founded in 1571 as the terminal port of the Portuguese Macau ships, Nagasaki served as Japan's window to the world over long time and with the East-West trade carried on by the Dutch and, with even more vigor, by the Chinese junk trade. While the final expulsion of the Portuguese in 1646 characteristically defines the "closed" period of early modern Japanese history, the real trade seclusion policy, this work argues, only came into place one century later when the Shogunate firmly grasped the true impact of the bullion trade upon the national economy.

The Syntax of Dutch Jan-Wouter Zwart, 2011-09-15 Dutch is a West-Germanic language closely related to English and German, but its special properties have long aroused interest and debate among students of syntax. This is an informative guide to the syntax of Dutch, offering an extensive survey of both the phenomena of Dutch syntax and their theoretical analyses over the years. In particular the book discusses those aspects of Dutch syntax that have played an important role in the development of syntactic theory in recent decades. Presupposing only a basic knowledge of syntax and complete with an extensive bibliography, this survey will be an important tool for students and linguists of all theoretical persuasions, and for anyone working in Germanic linguistics, linguistic typology and linguistic theory.

Crises of Empire Martin Thomas, Bob Moore, Larry Butler, 2015-04-23 *Crises of Empire* offers a comprehensive and uniquely comparative analysis of the history of decolonization in the British, French and Dutch empires. By comparing the processes of decolonization across three of the major modern empires, from the aftermath of the First World War to the late 20th century, the authors are able to analyse decolonization as a long-term process. They explore significant changes to the international system, shifting popular attitudes to colonialism and the economics of empire. This new edition incorporates the latest developments in the historiography, as well as: - Increased coverage of the Belgian and Portuguese empires - New introductions to each of the three main parts, offering some background and context to British, French and Dutch decolonization - More coverage of cultural aspects of decolonization, exploring empire 'from below' This new edition of *Crises of Empire* is essential reading for all students of imperial history and decolonization. In particular, it will be welcomed by those who are interested in taking a comparative approach, putting the history of decolonization into a pan-European framework.
