The Teacher Wars Dana Goldstein, 2015-08-04 NEW YORK TIMES BESTSELLER • A groundbreaking history of 175 years of American education that brings the lessons of the past to bear on the dilemmas we face today—and brilliantly illuminates the path forward for public schools. “[A] lively account. —New York Times Book Review In *The Teacher Wars*, a rich, lively, and unprecedented history of public school teaching, Dana Goldstein reveals that teachers have been embattled for nearly two centuries. She uncovers the surprising roots of hot button issues, from teacher tenure to charter schools, and finds that recent popular ideas to improve schools—instituting merit pay, evaluating teachers by student test scores, ranking and firing veteran teachers, and recruiting “elite” graduates to teach—are all approaches that have been tried in the past without producing widespread change.

Work Won't Love You Back Sarah Jaffe, 2021-01-26 A deeply-reported examination of why doing what you love is a recipe for exploitation, creating a new tyranny of work in which we cheerily acquiesce to doing jobs that take over our lives. You're told that if you do what you love, you'll never work a day in your life. Whether it's working for exposure and experience, or enduring poor treatment in the name of being part of the family, all employees are pushed to make sacrifices for the privilege of being able to do what we love. In *Work Won't Love You Back*, Sarah Jaffe, a preeminent voice on labor, inequality, and social movements, examines this labor of love myth—the idea that certain work is not really work, and therefore should be

done out of passion instead of pay. Told through the lives and experiences of workers in various industries—from the unpaid intern, to the overworked teacher, to the nonprofit worker and even the professional athlete—Jaffe reveals how all of us have been tricked into buying into a new tyranny of work. As Jaffe argues, understanding the trap of the labor of love will empower us to work less and demand what our work is worth. And once freed from those binds, we can finally figure out what actually gives us joy, pleasure, and satisfaction.

Education Restated Elliot Regenstein,2022-07-26 *Education Restated: Getting Policy Right on Accountability, Teacher Pay, and School Choice* offers the education policy community a roadmap for change in three hot-button policy areas. In each of these areas policy has been anchored around the wrong core values. By putting the right core values at the heart of policy, state governments can create more favorable conditions for education improvement at the local level. *Education Restated* takes a pragmatic approach to policy change, recognizing that the forces that created today's policies have not gone away—and that on complex issues there are legitimate competing interests. This book harmonizes the best ideas of opposing policy camps and identifies opportunities to strengthen connections between K-12 and early childhood. For advocates seeking common ground with historical adversaries, *Education Restated* provides some ideas on where they might find it.

Educational Folly Lisa M. Gonsalves,2023-05-15 *Educational Folly: Teacher Well-Being and the Chaos of American Schooling*, offers a comprehensive critique of educational reforms that have eroded the teacher's position. This leaves teachers with psychological scars – scars which are fueling the recent exodus from teaching. Gonsalves lays out a new vision for the future of education reform. This model centers around justice, community, and professionalism to return the teacher to the rightful head of the classroom and to restore dignity and progress to all of America's schools.

Examining the Teacher Induction Process in Contemporary Education Systems Öztürk, Mustafa,Hoard, Paul Robert,2018-08-10 Before today's teachers are ready to instruct the intellectual leaders of tomorrow, they must first be trained themselves. Every teacher experiences an induction process that can make their early years as an educator nerve-racking. Focusing on this period of time in a teacher's career can lead to greater teacher retention and success. *Examining the Teacher Induction Process in Contemporary Education Systems* addresses the construct of teacher induction through theoretical and empirical research. It also provides an in-depth conceptualization of being a novice teacher through micro-political realities of teaching in different geographical and cultural regions. While highlighting topics including adaptation challenges, mentor-mentee interaction, and teacher retention, this book is ideally designed for school administrators, early career teachers, educational researchers, educational professionals, and academicians seeking current research on early career educator adaptation and practices.

Teachers and Their Unions Todd A. DeMitchell, 2020-01-15 *Teachers and Their Unions: Labor Relations in Uncertain Times* explores the decade of uncertainty in public education following the Great Recession by first laying a foundation that describes the development of teachers and public education and the rise of teacher unions. The selection of the industrial labor model at the outset of public sector collective bargaining set the table for challenges to its fit with education. The theme of teacher as member of a union and teacher as a professional is explored within the context of a collective bargaining environment. The section “Law and Politics in Uncertain Times: Retrenchment and Assault” explores the decade of uncertainty. It reviews the industrial union model and within the twin challenges of the conundrum of teacher as union member and professional in the struggles of the decade. Tenure (boondoggle or necessary protection), VAM (rank and yank), right-to-work, agency fees, and teacher strikes are explored within the themes of the industrial union model and the tension of union member and professional. The book concludes with thoughts for the future and responds to the question of whether teacher unions are still pertinent.

Thinking Like a Teacher Jo-Anne Kerr, Linda Norris, 2017-08-01 Today’s classrooms present a variety of challenges for

teachers, many of which result from unanticipated, unpredictable events, from minor to serious. This collection of teacher narratives highlights several of these challenges with subsequent reflections and commentaries that invite conversations about aspects of teaching that often remain unacknowledged in educator preparation programs but that can have deleterious effects on the implementation of the pedagogical content knowledge that is promoted in these programs. *Thinking Like a Teacher: Preparing New Teachers for Today's Classrooms* aims to address this gap in educator preparation programs through sharing and affirming teachers' voices as sources of pedagogical knowledge. Engagement with the narratives included in this collection will help teacher candidates perceive and think about teaching in new ways as they make the transition from instructional consumers to instructional leaders while simultaneously forging a new professional identity.

Connecting the Dots in World History, A Teacher's Literacy-Based Curriculum Chris Edwards, 2015-10-16 In his previously written articles and books, Chris Edwards has argued that teaching should be considered a field that is separate from both the field of education and from the content area fields. Teaching is a field which synthesizes content and method for classroom application. All of the other major intellectual fields have a canon of works which practitioners can learn from and add to, but teaching does not. The *Connecting the Dots in World History: A Teacher's Literacy-Based Curriculum* series changes this by showing how effective a teacher-generated curriculum can be. These books can inspire other teachers to create their own curricula and inspire a change in the way that the public views teachers and teaching.

The Cage-Busting Teacher Frederick M. Hess, 2015-04-01 The *Cage-Busting Teacher* adopts the logic of *Cage-Busting Leadership* and applies it to the unique challenges and opportunities of classroom teachers. Detailed, accessible, and thoroughly engaging, it uncovers the many ways in which teachers can break out of familiar constraints in order to influence school and classroom practice, education policy, and school reform. "Cage-busting is concrete, precise, and practical," writes Frederick M. Hess. This invaluable book helps teachers understand why and how to revisit their assumptions and enables them to have greater impacts upon their schools and beyond. Based on interviews with hundreds of teachers, teacher advocates, union leaders, and others, Hess identifies the challenges teachers face, seeks concrete and workable solutions, and offers recommendations to put those solutions in place. A uniquely practical and inspiring book, *The Cage-Busting Teacher* is for educators who want to shape the schools and systems in which they work.

A Wolf at the Schoolhouse Door Jack Schneider,Jennifer C. Berkshire,2023-03-07 A trenchant analysis of how public education is being destroyed in overt and deceptive ways—and how to fight back In the “vigorous, well-informed” (Kirkus Reviews) *A Wolf at the Schoolhouse Door*, the co-hosts of the popular education podcast *Have You Heard* expose the potent network of conservative elected officials, advocacy groups, funders, and think tanks that are pushing a radical vision to do away with public education. “Cut[ing] through the rhetorical fog surrounding a host of free-market reforms and innovations” (Mike Rose), Jack Schneider and Jennifer Berkshire lay bare the dogma of privatization and reveal how it fits into the current context of right-wing political movements. *A Wolf at the Schoolhouse Door* “goes above and beyond the typical explanations” (SchoolPolicy.org), giving readers an up-close look at the policies—school vouchers, the war on teachers’ unions, tax credit scholarships, virtual schools, and more—driving the movement’s agenda. Called “well-researched, carefully argued, and alarming” by Library Journal, this smart, essential book has already incited a public reckoning on behalf of the millions of families served by the American educational system—and many more who stand to suffer from its unmaking. “Just as with good sci-fi,” according to Jacobin, “the authors make a compelling case that, based on our current trajectory, a nightmare future is closer than we think.”

New Pathways in Teacher Preparation and Certification Eric Wearne,2023-11-23 In this compelling and timely collection, Eric Wearne and a group of diverse contributors make the case for a new approach to teacher preparation and certification, in which institutions are empowered to educate, prepare, certify, hire, and develop teachers who have been prepared by different educational traditions. In the first part, contributors offer a background in history, policy, and economics to argue the need for more creativity in teacher preparation. In the second part, Wearne and contributors showcase how a variety of

different, creative educational organizations have prepared teachers more clearly suited to their specific school models—from Montessori teacher preparation, to teaching online, to teaching in classical schools. Overall, this collection prompts those involved in teacher preparation to work to find creative solutions for improving teacher education, certification, and hiring and is relevant for scholars, policymakers, educators, and administrators working in or studying teacher education programs.

Teacher Agency for Equity Raquel Ríos, 2017-07-06 This book provides educators with a conceptual framework to explore and develop authenticity and agency for equity. In response to growing cynicism within the field of education, Raquel Ríos argues that in order to become authentic agents of change, teachers must take a stance of mindful inquiry and examine the role of a teacher within the broader socio-political context. By utilizing the six principles of Conscientious Engagement, teachers can expand their awareness of the power of language and thought, the complex nature of our professional relationships, and how we channel energy in ways that can impede or strengthen our work for equity. Full of real-world stories and input from practitioners in the field, this book helps teachers of all levels develop the skills and confidence to grapple with tough philosophical and ethical questions related to social justice and equity, such as: What is poverty consciousness and what responsibility do we owe students who come from poorer communities? How does racist ideology impact our thinking and practice in education? How can we tap into an evolutionary consciousness and collective purpose in order to transform how we advocate for equity? How can we expand our professional network for the integration of new ideas? How can teachers really make a difference that matters, a difference that extends beyond the four walls of the classroom?
