**The Country House Kitchen Garden 1600-1950** C. Anne Wilson, 2010-03-23 Country house kitchen gardens were designed as perfect 'grow your own' environments and ensured that households were supplied with their own fruit and vegetables throughout the year. This book offers an insight into the digging and sowing of these gardens, as well as exploring how walled gardens contributed towards a sustainable lifestyle and often were a source of not just food, but also of natural medicines. A wealth of contemporary illustrations, material from archives, gardening manuals, seed catalogues, engravings and other documents, paint a vivid picture of the country house kitchen garden and its development over three and a half centuries. This delightful book recounts an important part of our historic houses and their national heritage - to be enjoyed by gardeners and non-gardeners alike.

**The Warmest Room in the House** Steve Gdula, 2008-12-01 The first book that puts the hearth of the American home--its many unique challenges and innovations--in its proper place in contemporary history. Thomas Jefferson once wrote that if you really want to understand the workings of a society, you have to look into their pots and eat their bread. Steven Gdula gives us a view of American culture from the most popular room in the house: the kitchen. Examining the relationship between trends and innovations in the kitchen and the cultural attitudes beyond its four walls, Gdula creates a lively portrait of the last hundred years of American domestic life. The Warmest Room in the House explores food trends and technology, kitchen design, appliances and furniture, china and flatware, cookery bookery, food lit, and much more. Gdula traces the evolution of the kitchen from the back room where the work of the home happened to its place at the center of family life and entertainment today. Filled with fun facts about food trends, from Hamburger Helper to The Moosewood Cookbook, and food personalities, from Julia Child to Rachael Ray, The Warmest Room in the House is the perfect addition to any well-rounded kitchen larder.

*God Works in Mysterious Ways* Helen Buchanan Amason,Donna Altmeyer Davis,2024-07-30 McLandon Buchanan is married to MaryAnn Kelly. They have eight children and live in Nashville, Tennessee. McLandon sent his five older children to Gallatin, Tennessee, to help his sister, Marie Wingate. Marie is pregnant and is due to have her baby in less than a month. Marie needed help on the Wingate Farm and help with keeping up with her household chores. After a week, Marie sent McLandon a telegram to come get his children. They were more work than help to her. Marie had to teach the three girls basic household chores, and the two boys didn't want to do any barn or fieldwork. The boys kept getting into trouble. After learning that his children didn't know how to do anything useful around the house or farm, he decided to move his family to the country. McLandon and his help man and friend, Amos Burke, were told about a farm in Gallatin that might be exactly what he was looking for. McLandon heard talk of war coming to this country, and he wanted his family to be prepared for

when that happened. McLandon wanted his family to be able to preserve the food that they grew and be able to put it in hiding for when war broke out. If they stayed in Nashville, the army would take all the food, and there wouldn't even be food to buy. MaryAnn was in all the high-society clubs and goings on in Nashville to the point that she had spoiled her older children and neglected the three younger ones. She had spoiled her children, letting the domestic help do all the household chores and taking care of the three little ones. McLandon and his family are going to learn to earn a living by the sweat of their brow.

**The Ramseys at Swan Pond** Charles H. Faulkner,2008 The Ramsey House was built in 1797 for Col. Francis Alexander Ramsey, a prominent early settler of East Tennessee who, along with his two sons J. G. M. Ramsey and William B. A. Ramsey, shaped the physical and cultural landscape of what would become Knox county and Knoxville, Tennessee. The one-hundred-acre homestead, referred to by Colonel Ramsey as Swan Pond, contained the Ramsey home as well as other outbuildings and slave quarters. In 1952, the Association for the Preservation of Tennessee purchased the tract of land, and the Ramsey House is now listed on the National Register of Historic Places. Charles H. Faulkner began archaeological investigations at the Ramsey House in 1985 and concluded his work with his retirement from the University of Tennessee's anthropology department in 2005. During his tenure with the Ramsey House Archaeological Project, Faulkner and his team of scholars and students unearthed the prehistory of Native American occupation at Swan Pond, several outbuilding and early home foundation features yielding evidence of extensive early renovations to the Ramsey House and surrounding Swan Pond, and a multitude of ceramics and other artifacts left behind by the Ramsey family and other tenants ranging in dates from the late 1700s to the 1950s. Faulkner's research presented in *The Ramseys at Swan Pond* reveals not only the material culture and family lifeways of early wealth in East Tennessee, but chronicles the occupation of a homestead that would become pivotal to the development of early Knoxville and Knox County and offers insights into the responsibilities Ramsey and his family undertook in order to tame an early American frontier. Faulkner provides the reader a complete overview of the excavations, and emphasizes the importance of historic research within the discipline of archaeology in his introduction. *The Ramseys at Swan Pond* will be of interest to anyone studying historic archeology, the early American frontier, and Tennessee history. Charles H. Faulkner is Professor Emeritus in the Department of Anthropology and Distinguished Professor of Humanities at the University of Tennessee. He is the author/editor of *The Prehistoric Native American Art of Mud Glyph Cave*, *The Old Stone Fort: Exploring an Archaeological Mystery*, *Rock Art of the Eastern Woodlands*, and numerous other essays.

*The Griffith Project, The Volume 7* Paolo Cherchi Usai,2019-07-25 No other silent film director has been as extensively studied as D. W. Griffith. However, only a small group of his more than five hundred films has been the subject of a

systematic analysis, and the vast majority of his other works still await proper examination. For the first time in film studies, the complete creative output of Griffith - from *Professional Jealousy* (1907) to *The Struggle* (1931) - will be explored in this multivolume collection of contributions from an international team of leading scholars in the field. Created as a companion to the ongoing retrospective held by the Pordenone Silent Film Festival, the Griffith Project is an indispensable guide to the work of a crucial figure in the arts of the nineteenth century. This volume covers the year 1913 and includes J. B. Kaufman's notes on the Griffith-supervised *Liberty Belles* and *A Fair Rebel*, as well as Griffith's first feature, *Judith of Bethulia*.

**Machines for Living** Victoria Rosner, 2020-02-04 Changes in the routines of domestic life were among the most striking social phenomena of the period between the two World Wars, when the home came into focus as a problem to be solved: re-imagined, streamlined, electrified, and generally cleaned up. Modernist writers understood themselves to be living in an epochal moment when the design and meaning of home life were reconceived. Moving among literature, architecture, design, science, and technology, *Machines for Living* shows how the modernization of the home led to profound changes in domestic life and relied on a set of emergent concepts, including standardization, scientific method, functionalism, efficiency science, and others, that form the basis of literary modernism and stand at the confluence of modernism and modernity. Even as

modernist writers criticized the expanding reach of modernization into the home, they drew on its conceptual vocabulary to develop both the thematic and formal commitments of literary modernism. Rosner's work develops a new methodology for interdisciplinary modernist studies and shows how the reinvention of domestic life is central to modernist literature.
