12 Rules for Life Jordan B. Peterson, 2018-01-23 OVER TEN MILLION COPIES SOLD #1 INTERNATIONAL BESTSELLER What are the most valuable things that everyone should know? Acclaimed clinical psychologist Jordan B. Peterson has influenced the modern understanding of personality, and now he has become one of the world's most popular public thinkers, with his lectures on topics from the Bible to romantic relationships to mythology drawing tens of millions of viewers. In an era of unprecedented change and polarizing politics, his frank and refreshing message about the value of individual responsibility and ancient wisdom has resonated around the world. In this book, he provides twelve profound and practical principles for how to live a meaningful life, from setting your house in order before criticising others to comparing yourself to who you were yesterday, not someone else today. Happiness is a pointless goal, he shows us. Instead we must search for meaning, not for its own sake, but as a defence against the suffering that is intrinsic to our existence. Drawing on vivid examples from the author's clinical practice and personal life, cutting-edge psychology and philosophy, and lessons from humanity's oldest myths and stories, 12 Rules for Life offers a deeply rewarding antidote to the chaos in our lives: eternal truths applied to our modern problems.

Myth and Mayhem Ben Burgis, Conrad Bongard Hamilton, Matthew McManus, Marion Trejo, 2020-04-24 Jordan Peterson rocketed to fame in the 2010s and has preached on everything from the evils of postmodern neo-Marxism to the mating habits of lobsters ever since then. The Left has since leveled many criticisms about the Canadian psychologist, characterizing him as everything from an apologist for the alt-right to simply not being interesting or profound. *Myth and Mayhem: A Leftist Critique of Jordan Peterson* is intended as a comprehensive critical look at all aspects of his thought, from the philosophical depths to the mundane heights. Written by four authors who each look at a different element of his thought, it shows why taking Peterson seriously doesn't mean embracing him. Includes an introduction by Slavoj Zizek

Beyond Order Jordan B. Peterson, 2021-03-02 The companion volume to 12 Rules for Life offers further guidance on the perilous path of modern life. In 12 Rules for Life, clinical psychologist and celebrated professor at Harvard and the University of Toronto Dr. Jordan B. Peterson helped millions of readers impose order on the chaos of their lives. Now, in this bold sequel, Peterson delivers twelve more lifesaving principles for resisting the exhausting toll that our desire to order the world inevitably takes. In a time when the human will increasingly imposes itself over every sphere of life—from our social structures to our emotional states—Peterson warns that too much security is dangerous. What's more, he offers strategies for

overcoming the cultural, scientific, and psychological forces causing us to tend toward tyranny, and teaches us how to rely instead on our instinct to find meaning and purpose, even—and especially—when we find ourselves powerless. While chaos, in excess, threatens us with instability and anxiety, unchecked order can petrify us into submission. Beyond Order provides a call to balance these two fundamental principles of reality itself, and guides us along the straight and narrow path that divides them.
