Children, Childhood, and Musical Theater Donelle Ruwe,James Leve,2020-02-19 Bringing together scholars from musicology, literature, childhood studies, and theater, this volume examines the ways in which children's musicals tap into adult nostalgia for childhood while appealing to the needs and consumer potential of the child. The contributors take up a wide range of musicals, including works inspired by the books of children's authors such as Roald Dahl, P.L. Travers, and Francis Hodgson Burnett; created by Rodgers and Hammerstein, Lionel Bart, and other leading lights of musical theater; or conceived for a cast made up entirely of children. The collection examines musicals that propagate or complicate normative attitudes regarding what childhood is or should be. It also considers the child performer in movie musicals as well as in professional and amateur stage musicals. This far-ranging collection highlights the special place that musical theater occupies in the imaginations and lives of children as well as adults. The collection comes at a time of increased importance of musical theater in the lives of children and young adults.

The Oxford Handbook of the Global Stage Musical Robert Gordon,Olaf Jubin,2023 In response to the rapid growth of musical theatre as a global phenomenon, The Oxford Handbook of the Global Stage Musical offers new scholarly approaches to issues arising from these new international markets. The thirty-three essays highlight major aspects of the genre, such as the dominance of Western colonialism in its early production and dissemination, racism and sexism--both in representation and in the industry itself--as well as current conflicts between global and local interests in postmodern cultures. Featuring contributors from seventeen countries, the essays offer informed insider perspectives that reflect the diversity of the subject and offer in-depth examinations of specific cultural and economic systems.
