 web the central force in classical
 mechanics is defined as the force that

is acting on an object which is directed
 along the line joining the object and the
 origin the magnitude of the central
 force depends only on the distance
 between the object and the centre

 peridynamic modeling of failure and
 damage peridynamics is a
 reformulation of continuum mechanics
 based on integration of interactions
 rather than spatial differentiation of
 displacements the book extends the
 classical theory of continuum
