Letters from Filadelfia Rodrigo Lazo, 2020-02-24 For many Spanish Americans in the early nineteenth century, Philadelphia was Filadelfia, a symbol of republican government for the Americas and the most important Spanish-language print center in the early United States. In *Letters from Filadelfia*, Rodrigo Lazo opens a window into Spanish-language writing produced by Spanish American exiles, travelers, and immigrants who settled and passed through Philadelphia during this vibrant era, when the city's printing presses offered a vehicle for the voices advocating independence in the shadow of Spanish colonialism. The first book-length study of Philadelphia publications by intellectuals such as Vicente Rocafuerte, José María Heredia, Manuel Torres, Juan Germán Roscio, and Servando Teresa de Mier, *Letters from Filadelfia* offers an approach to discussing their work as part of early Latino literature and the way in which it connects to the United States and other

parts of the Americas. Lazo's book is an important contribution to the complex history of the United States' first capital. More than the foundation for the U.S. nation-state, Philadelphia reached far beyond its city limits and, as considered here, suggests new ways to conceptualize what it means to be American.

Women Letter-Writers in Tudor England James Daybell, 2018-09-26 This book represents the most comprehensive study of women's letters and letter-writing during the early modern period so far undertaken, and acts as an important corrective to traditional ways of reading and discussing letters as private, elite, male, and non-political. Based on over 3,000 manuscript letters, it shows that letter-writing was a larger and more socially diversified area of female activity than has been hitherto assumed. In that letters constitute the largest body of extant sixteenth-century women's writing, the book initiates a reassessment of women's education and literacy in the period. As indicators of literacy, letters yield physical evidence of rudimentary writing activity and abilities, document 'higher' forms of female literacy, and highlight women's mastery of formal rhetorical and epistolary conventions. The book also stresses that letters are unparalleled as intimate and immediate records of family relationships, and as media for personal and self-reflective forms of female expression. Read as documents that inscribe social and gender relations, letters shed light on the complex range of women's personal relationships, as female power and authority fluctuated, negotiated on an individual basis. Furthermore, correspondence highlights the important political roles played by early modern women. Female letter-writers were integral in cultivating and maintaining patronage and kinship networks; they were active as suitors for crown favour, and operated as political intermediaries and patrons in their own right, using letters to elicit influence. Letters thus help to locate differing forms of female power within the family, locality and occasionally on the wider political stage, and offer invaluable primary evidence from which to reconstruct the lives of early modern women.

Love Letters Michelle Janning, 2018-06-14 In today's world of Tinder and texting, do we write and save love letters anymore? Are we more likely to save a screenshot of a text exchange or a box of paper letters from a lover? How might these different ways to store a love letter make us feel? Sociologist Michelle Janning's Love Letters: Saving Romance in the Digital

Age offers a new twist on the study of love letters: what people do with them and whether digital or paper format matters. Through stories, a rich review of past research, and her own survey findings, Janning uncovers whether and how people from different groups (including gender and age) approach their love letter curatorial practices in an era when digitization of communication is nearly ubiquitous. She investigates the importance of space and time, showing how our connection to the material world and our attraction to nostalgia matter in actions as seemingly small and private as saving, storing, stumbling upon, or even burning a love letter. Janning provides a framework for understanding why someone may prefer digital or paper love letters, and what that preference says about a person's access and attachment to powerful cultural values such as individualization, taking time in a hectic world, longevity, privacy, and keeping cherished things in a safe place. Ultimately, Janning contends, the cultural values that tell us how romantic love should be defined are more powerful than the format our love letters take.

A History of Chinese Letters and Epistolary Culture ,2015-05-19 A History of Chinese Letters and Epistolary Culture is the first publication, in any language, that is dedicated to the study of Chinese epistolary literature and culture in its entirety, from the early empire to the twentieth century. The volume includes twenty-five essays dedicated to a broad spectrum of topics from postal transmission to letter calligraphy, epistolary networks to genre questions. It introduces dozens of letters, often the first translations into English, and thus makes epistolary history palpable in all its vitality and diversity: letters written by men and women from all walks of life to friends and lovers, princes and kings, scholars and monks, seniors and juniors, family members and neighbors, potential patrons, newspaper editors, and many more. With contributions by: Pablo Ariel Blitstein, R. Joe Cutter, Alexei Ditter, Ronald Egan, Imre Galambos, Natascha Gentz, Enno Giele, Natasha Heller, David R. Knechtges, Paul W. Kroll, Jie Li, Y. Edmund Lien, Bonnie S. McDougall, Amy McNair, David Pattinson, Zeb Raft, Antje Richter, Anna M. Shields, Suyoung Son, Janet Theiss, Xiaofei Tian, Lik Hang Tsui, Matthew Wells, Ellen Widmer, and Suzanne E. Wright.

Stories in Letters - Letters in Stories Rebekka Schuh,2021-10-04 This book deals with letters in Anglophone Canadian short stories of the late twentieth and the early twenty-first century in the context of liminality. It argues that in the course of the epistolary renaissance, the letter - which has often been deemed to be obsolete in literature - has not only enjoyed an upsurge in novels but also migrated to the short story, thus constituting the genre of the epistolary short story. .

The Literary Field of Twentieth Century China Michel Hockx,2019-05-08 At least since the late nineteenth century onwards, Chinese literature as a form of cultural production has been taking place within a specific social space, including writers, critics, journalists, editors, publishers, printers and booksellers. Focusing on people as well as on texts, and looking at what writers did as well as at what they wrote, the essays in this volume draw a vivid and variegated picture of Chinese literary life throughout the modern period. The book treats differences between periods, but also traces the continuities that

have characterised modern Chinese literary practice and its discourses from the beginning to the present, including ties of allegiance, utilisation of 'the people' and appropriation of the west. The book places modern Chinese literature firmly within its socio-historical context, thereby increasing the reader's awareness of the hidden assumptions behind literary production. In doing so, it opens new perspectives on Chinese culture as a whole, and on literature as a cosmopolitan concept.

Editing Early Modern Women Sarah C. E. Ross, Paul Salzman, 2016-07-21 This volume offers a new and comprehensive exploration of the theory and practice of editing early modern women's writing.

Manuscript Miscellanies in Early Modern England Joshua Eckhardt, Daniel Starza Smith, 2016-05-13 Perhaps more than any other kind of book, manuscript miscellanies require a complex and 'material' reading strategy. This collection of essays engages the renewed and expanding interest in early modern English miscellanies, anthologies, and other compilations. Manuscript Miscellanies in Early Modern England models and refines the study of these complicated collections. Several of its contributors question and redefine the terms we use to describe miscellanies and anthologies. Two senior scholars correct the misidentification of a scribe and, in so doing, uncover evidence of a Catholic, probably Jesuit, priest and community in a trio of manuscripts. Additional contributors show compilers interpreting, attributing, and arranging texts, as well as passively accepting others' editorial decisions. While manuscript verse miscellanies remain appropriately central to the collection, several essays also involve print and prose, ranging from letters to sermons and even political prophesies. Using extensive textual and bibliographical evidence, the collection offers stimulating new readings of literature, politics, and religion in the early modern period, and promises to make important interventions in academic studies of the history of the book.

Documentary Arabic Private and Business Letters on Papyrus Eva Mira Grob, 2010-10-28 Arabic letters on papyrus challenge the modern reader. There are few to no diacritical dots to distinguish homographs, no systematic spacing between single words, and in the majority of cases a low degree of graphical structuring. However, contemporary readers usually read and understood these documents easily - probably because the recipient of a letter knew what to expect. The letters are formulaic, and their information packaging follows an algorithm typical for their time and content. Here formulaic letter writing means not only the reuse of the same formulae or topoi but expressing thoughts in a predictable linguistic way and order, both as a matter of readability and as one of adequacy and politeness. The main concern of this work is to discover these unwritten rules and norms behind Arabic letter writing on papyrus.

A Political Romance S. Foley, C. Sowerwine, 2012-03-20 Léon Gambetta is renowned as a founder of the French Third Republic. This unique study of his correspondence with his lover, Léonie Léon, provides a fascinating insight into their intimate and political partnership. It brings to life Gambetta as lover and politician, the unknown figure of Léon, and the political and cultural world of 1870s Paris.

Epistolary Community in Print, 1580-1664 Diana G. Barnes, 2016-05-13 *Epistolary Community in Print* contends that the printed letter is an inherently sociable genre ideally suited to the theorisation of community in early modern England. In manual, prose or poetic form, printed letter collections make private matters public, and in so doing reveal, first how tenuous is the divide between these two realms in the early modern period and, second, how each collection helps to constitute particular communities of readers. Consequently, as *Epistolary Community* details, epistolary visions of community were gendered. This book provides a genealogy of epistolary discourse beginning with an introductory discussion of Gabriel Harvey and Edmund Spenser's *Wise and Wittie Letters* (1580), and opening into chapters on six printed letter collections generated at times of political change. Among the authors whose letters are examined are Angel Day, Michael Drayton, Jacques du Bosque and Margaret Cavendish. *Epistolary Community* identifies broad patterns that were taking shape, and constantly morphing, in English printed letters from 1580 to 1664, and then considers how the six examples of printed letters selected for discussion manipulate this generic tradition to articulate ideas of community under specific historical and political circumstances. This study makes a substantial contribution to the rapidly growing field of early modern letters, and demonstrates how the field impacts our understanding of political discourses in circulation between 1580 and 1664, early modern women's writing, print culture and rhetoric.

Letters and Communities Paola Ceccarelli, Lutz Doering, Thorsten Fögen, Ingo Gildenhard, 2018-08-16 The writing of letters often evokes associations of a single author and a single addressee, who share in the exchange of intimate thoughts across distances of space and time. This model underwrites such iconic notions as the letter representing an 'image of the soul of the author' or constituting 'one half of a dialogue'. However justified this conception of letter-writing may be in particular instances, it tends to marginalize a range of issues that were central to epistolary communication in the ancient world and have yet to receive sustained and systematic investigation. In particular, it overlooks the fact that letters frequently presuppose and were designed to reinforce communities-or, indeed, to constitute them in the first place. This volume explores the interrelation of letters and communities in the ancient world, examining how epistolary communication aided in the construction and cultivation of group-identities and communities, whether social, political, religious, ethnic, or philosophical. A theoretically informed Introduction establishes the interface of epistolary discourse and group formation as a vital but hitherto neglected area of research, and is followed by thirteen case studies offering multi-disciplinary perspectives

from four key cultural configurations: Greece, Rome, Judaism, and Christianity. The first part opens the volume with two chapters on the theory and practice of epistolary communication that focus on ancient epistolary theory and the unavoidable presence of a letter-carrier who introduces a communal aspect into any correspondence, while the second comprises five chapters that explore configurations of power and epistolary communication in the Greek and Roman worlds, from the archaic period to the end of the Hellenistic age. Five chapters on letters and communities in Ancient Judaism and Early Christianity follow in the third, part before the volume concludes with an envoi examining the trans-historical, or indeed timeless, philosophical community Seneca the Younger construes in his Letters to Lucilius.

Writing and Materiality in China Judith T. Zeitlin, 2020-10-26 Speaking about Chinese writing entails thinking about how writing speaks through various media. In the guises of the written character and its imprints, traces, or ruins, writing is more than textuality. The goal of this volume is to consider the relationship of writing to materiality in China's literary history and to ponder the physical aspects of the production and circulation of writing. To speak of the thing-ness of writing is to understand it as a thing in constant motion, transported from one place or time to another, one genre or medium to another, one person or public to another. Thinking about writing as the material product of a culture shifts the emphasis from the author as the creator and ultimate arbiter of a text's meaning to the editors, publishers, collectors, and readers through whose hands a text is reshaped, disseminated, and given new meanings. By yoking writing and materiality, the contributors to this volume aim to bypass the tendency to oppose form and content, words and things, documents and artifacts, to rethink key issues in the interpretation of Chinese literary and visual culture.
