The Old Master Hongkyung Kim,2012-01-01 This unique, highly contextualized translation of the Laozi is based on the earliest known edition of the work, Text A of the Mawangdui Laozi, written before 202 BCE. No other editions are comparable to this text in its antiquity. Hongkyung Kim also incorporates the recent archaeological discovery of Laozi-related documents disinterred in 1993 in Guodian, seeing these documents as proto-materials for compilation of the Laozi and revealing clues for disentangling the work from complicated exegetical contentions. Kim makes extensive use of Chinese commentaries on the Laozi and also examines the classic Chinese texts closely associated with the formation of the work to illuminate the intellectual and historical context of Laozi's philosophy. Kim offers several original and thought-provoking arguments on the Laozi, including that the work was compiled during the Qin, which has traditionally been viewed as typical of Legalist states, and that the Laozi should be recognized as a syncretic text before being labeled a Daoist one.

Reading Together, Reading Apart Tamara Bhalla,2016-10-17 Often thought of as a solitary activity, the practice of reading can in fact encode the complex politics of community formation. Engagement with literary culture represents a particularly integral facet of identity formation--and expresses of a sense of belonging--within the South Asian diaspora in the United States. Tamara Bhalla blends a case study with literary and textual analysis to illuminate this phenomenon. Her fascinating investigation considers institutions from literary reviews to the marketplace to social media and other technologies, as well as traditional forms of literary discussion like book clubs and academic criticism. Throughout, Bhalla questions how her subjects' circumstances, desires, and shared race and class, limit the values they ascribe to reading. She also examines how ideology circulating around a body of literature or a self-selected, imagined community of readers shapes reading itself and influences South Asians' powerful, if contradictory, relationship with ideals of cultural authenticity.
