Screen-obsessed: Parenting In The Digital Age Wonsun Shin, May O Lwin, 2019-10-25 Screen-obsessed: Parenting in the Digital Age is the first book solely focusing on parental supervision of children's media use. This book distills important information regarding how parents can effectively guide their offspring living in the multimedia environment. This book discusses an extensive range of theories, issues, and subjects of parental mediation. Readers will discover how parental mediation works, new and traditional theoretical facets, and how this knowledge can be applied in various settings pertinent to the family.

How Consumer Culture Controls Our Kids Jennifer Hill, 2015-11-02 This gripping book considers the history, techniques, and goals of child-targeted consumer campaigns and examines children's changing perceptions of what commodities they need to be valued and value themselves. In this critique of America's consumption-based society, author Jennifer Hill chronicles the impact of consumer culture on children—from the evolution of childhood play to a child's self-perception as a consumer to the consequences of this generation's repeated media exposure to violence. Hill proposes that corporations, eager to tap into a multibillion-dollar market, use the power of advertising and the media to mold children's thoughts and behaviors. The book features vignettes with teenagers explaining, in their own words, how advertising determines their needs, wants, and self-esteem. An in-depth analysis of this research reveals the influence of media on a young person's desire to conform, shows how broadcasted depictions of beauty distort the identities of children and teens, and uncovers corporate agendas for manipulating behavior in the younger generation. The work concludes with the position that corporations are shaping children to be efficient consumers but, in return, are harming their developing young minds and physical well-being.

Persuasion Robert H. Gass, John S. Seiter, 2022-04-06 The seventh edition of this field-leading textbook provides an accessible and rigorous presentation of major theories of persuasion and their applications to a variety of real-world contexts. In addition to presenting established theories and models, this text encourages students to develop and apply general conclusions about persuasion in real-world settings. Along the way, students are introduced to the practice of social influence in an array of contexts (e.g., advertising, marketing, politics, interpersonal relationships, social media, groups) and across a

variety of topics (e.g., credibility, personality, deception, motivational appeals, visual persuasion). The new edition features expanded treatment of digital and social media; up-to-date research on theory and practice; an increased number of international cases; and new and expanded discussions of topics such as online influencers, disinformation and 'fake news,' deepfakes, message framing, normative influence, stigmatized language, and inoculation theory. This is the ideal textbook for courses on persuasion in communication, psychology, advertising, and marketing programs. Instructors can also use the book's downloadable test bank, instructor's manual, and PowerPoint slides in preparing course material.
