This can create a partial implementation of a function inside a struct. **syntax - What does %>% function mean in R? - Stack Overflow** Nov 25, 2014 · I have seen the use of %>% (percent greater than percent) function in some packages like dplyr and rvest. What does it mean? Is it a way to write closure blocks in R? *Returning multiple values from a C++ function - Stack Overflow* Aug 19, 2015 · Is there a preferred way to return multiple values from a C++ function?
