Émile Durkheim

La división del trabajo social Émile Durkheim, 1928

The Division of Labor in Society Emile Durkheim, 2014-02-25 In 1893, a young doctoral student was to publish an entirely original work on the nature of labor and production as they were being shaped by the industrial revolution. Emile Durkheim's *The Division of Labor in Society* studies the nature of social solidarity and explores the ties that bind one person to the next in order to hold society together. This revised and updated second edition fluently conveys original arguments for contemporary readers. Leading Durkheim scholar Steve Lukes's new introduction builds upon Lewis Coser's original -- which places the work in its intellectual and historical context and pinpoints its central ideas and arguments -- by focusing on the text's significance for how we ought to think sociologically about some central problems that face us today.--Back cover.

Manual de la Sociología del Trabajo y de las Relaciones Laborales. 2 Ed. ,2007

La división del trabajo social Émile Durkheim, 1928-01-01 El sociólogo francés Émile Durkheim y su obra son de una importancia fundamental para la disciplina del conocimiento a la que el autor consagró su vida, pues junto con Karl Marx y Max Weber fue fundador de ésta. En el caso específico de esta obra, su tesis para el doctorado que fue publicada en 1893, el autor trata de establecer, fundamentalmente, una ciencia de la moral. La importancia de esta obra también radica en que contiene los postulados fundamentales que su autor desarrollaría luego, más extensamente, en sus trabajos posteriores. Durkheim concibe la división laboral como un fruto inevitable del proceso de complejización de la sociedad contemporánea y un proceso no restringido al campo de lo laboral, sino también presente en otras áreas de la actividad humana, como el sistema gubernamental, la literatura, la ciencia y el arte, entre otros, constituyendo en definitiva la división laboral una fuente de solidaridad establecida sobre la base de la recíproca dependencia y el consenso generalizado en torno a un sistema de reglas morales.

The Division of Labour in Society Émile Durkheim, 1984 What ties bind men to one another? What relationship exists between the individual personality and social solidarity? Trabajo Social en algunos países: aportes para su comprensión Nelia E. Tello Peón, 2025-04-24 ¿Porqué insistir en hablar de nosotros mismos?, ¿por qué buscar y remover los orígenes de nuestra profesión? ¿por qué si estoy convencida de la necesidad de transitar urgentemente otros derroteros que nos permitan desarrollar la profesión y superar las interrogantes que sobre nuestro existir nos inmovilizan? ¿por qué si estoy convencida que nos apremia el recuperar como profesionistas nuestro hacer, es decir, nuestro objeto de trabajo y como académicos recuperar nuestro hacer como objeto de estudio? ¿por qué presentar una aportación más sobre los orígenes históricos, aunque cabe aclarar, no del Trabajo Social sino de la profesionalización del Trabajo Social? Antes que responder a estas preguntas de una sola vez, en un renglón o en un párrafo, quisiera invitarlos a que las respuestas las construyamos juntos en el recorrido que hagamos por las siguientes páginas: la lectura que propongo no es una más, no se trata de una lectura lineal (causa, consecuencia), no es una lectura sobre fechas y acontecimientos, el código que propongo es precisamente el hilo que se deriva de las preguntas que formulo. Estoy convencida que Trabajo Social es la carrera que con urgencia reclama la sociedad, no una en particular, todas en lo general, pues es la profesión que tiene respuestas o que tiene la capacidad de ofrecer alternativas a las diversas y difíciles situaciones que desde lo social enfrentamos, generalmente, sin capacitación profesional.

Fundamentos del Trabajo Social Clínico Jerrold R. Brandell, El Trabajo Social Clínico desempeña un papel crucial en el abordaje de las necesidades psicosociales de individuos, familias y comunidades. A través de una comprensión profunda de las interacciones entre factores personales, sociales y emocionales, las y los trabajadores sociales clínicos ofrecen apoyo terapéutico y recursos a personas y colectivos cuya situación va desde depresión, ansiedad y abuso de sustancias hasta otros cuadros que requieren acompañamiento, apoyo y cuidados. Además de proporcionar intervenciones directas, el Trabajo Social Clínico aboga por el acceso equitativo a los servicios sociales en sus diferentes ámbitos, también en salud mental, trabajando en colaboración con otros profesionales para garantizar una atención integral. Esta obra, desde un enfoque coral e integrador, muestra la diversidad de perspectivas teóricas y prácticas del trabajo social clínico contando con las aportaciones de los mejores especialistas estadounidenses

Tópicos del Trabajo Social y las políticas públicas Carlos Arteaga Basurto,2025-04-22 En Tópicos del trabajo social y las políticas públicas, se condensan diversos ensayos de actualidad académica y profesional en el campo de estudio del trabajo social. Se trata de un esfuerzo de actualidad innegable en cuanto a lo que se refiere al estudio de elementos metodológicos relativos a las problemáticas y políticas públicas que permiten al trabajador social incidir en la hechura, instrumentación y evaluación de las políticas sociales, el problema de la pobreza y la asistencia social. Política social y pobreza en México: consideraciones básicas, destaca la preocupación de Arteaga por la crisis del Estado benefactor en términos de un Estado que ha dejado de proveer de servicios y programas, y fundamentalmente, ha dejado de tener genuina presencia social. El autor enfatiza cómo los programas de compensación diseñados como un esfuerzo del Estado por reducir el impacto de la crisis y el costo social del proceso de ajuste (destinado a darle viabilidad), han fracasado. Estos programas de compensación social, de un carácter emergente de rápida maduración, pretenden que la población más vulnerable y empobrecida tenga

acceso a los satisfactores básicos afectados por el proceso de ajuste; dando lugar a un nuevo tipo de gestión social y de autoridad, pues son programas que procuran, supuestamente, una adecuación entre las necesidades reales de la población beneficiaria, el diseño del programa y la capacidad de ejecución.

Economic Thought and Institutional Change in France and Italy, 1789-1914 Riccardo Soliani, 2016-11-15 This book explores the relationship between economic thought, proposals for reform of political institutions, and civil society in the period between the rise to power of Napoleon and the eve of the First World War in Italy and France – two countries with a similar cultural and political tradition and with personal mobility of the intellectual class. The first section of the book is devoted to the struggle for identity, justice, and liberty, including its economic dimensions. The relation between political and economic freedom and its effect on equity is then addressed in detail, and the third, concluding section focuses on the intellectual and political conflict between the social visions of liberalism and socialism in some of their various forms, again with consideration of the economic implications. The comparative nature of the analysis, combined with its interdisciplinary approach to the history of economic and political thought and social history, will enable the reader to understand more clearly the historical evolution of each country and the relevant contemporary political and economic issues.

Introducción a Las Ciencias Sociales un Enfoque Constructivista Macario Schettino, 2006 This text combines the theoretical and practical elements that will help the student interpret and understand the problems of their social environment, which in turn will allow them to value their place in society to develop their identity and social responsibility. It is prepared with a base rooted in constructive focus and is an invaluable asset that will serve as a platform for the building of knowledge. It includes a classroom planning guide.

The Challenge of Bible Translation Zondervan, 2009-05-18 An In-Depth Look at Bible Translation ·The concerns, issues, and approaches ·The history ·The ins and outs of the translation task With a reach that covers the entire globe, the Bible is the best-selling, most earnestly studied book of all time. It has been translated into well over 1,000 languages, from those of global reach such as English, French, and Arabic, to a myriad of isolated tribal tongues. Yet while most readers of the English Bible have a favorite version, few understand how the different translations came about, or why there are so many, or what determines whether a particular translation is trustworthy. Written in tribute to one of today's true translation luminaries, Dr. Ronald Youngblood, *The Challenge of Bible Translation* will open your eyes to the principles, the methods, the processes, and the intricacies of translating the Bible into language that communicates clearly, accurately, and powerfully to readers of many countries and cultures. This remarkable volume marshals the contributions of foremost translators and linguists. Never before has a single book shed so much light on Bible translation in so accessible a fashion. In three parts, this compendium gives scholars, students, and interested Bible readers an unprecedented grasp of: 1. The Theory of Bible Translation 2. The History of Bible Translation 3. The Practice of Bible Translation *The Challenge of Bible Translation* will

give you a new respect for the diligence, knowledge, and care required to produce a good translation. It will awaken you to the enormous cost some have paid to bring the Bible to the world. And it will deepen your understanding of and appreciation for the priceless gift of God's written Word. Contributors Kenneth L. Barker D. A. Carson Charles H. Cosgrove Kent A.
