Gold Coins of the World - 9th edition Arthur L. Friedberg, Ira S. Friedberg, Robert Friedberg, 2017-01-05 A unique and indispensable reference work Unsurpassed in content and scope When the first edition of Gold Coins of the World made its debut in 1958, it forever changed the way gold coins were collected, cataloged, traded, and priced. For the first time, one book provided a reliable guide for a subject which previously required an often expensive investment in multiple volumes of literature, some of it rare and antique, and much of it badly out-of-date. With the publication of this pioneering work, Robert Friedberg (1912-1963) established himself as an international icon in the field of numismatic literature. This book, and the 'Friedberg Numbering System' he developed became then, and is still today, the internationally-recognized standard for systematically identifying any gold coin ever made. From just 384 pages in 1958, Gold Coins of the World has expanded to the extent that it now contains more than triple the information of its ancestor. It still stands alone as the first and only book to describe, catalog and price two millennia of gold, platinum, and palladium coin issues from across the globe. From the first coins of the ancient Greeks to the most recently-issued modern commemoratives, they are all here, an astonishing compilation of more than 21,000 individual coin listings accompanied by over 8,000 actual-size photographs. The prices have been completely updated, for the most part raised substantially, to reflect the current market. Entire sections have been expanded, many illustrations have been added or improved, and hundreds of new discoveries and recent issues have been included for the first time. Arthur Friedberg, president of the International Association of Professional Numismatists from 2001 to 2007 and now its Honorary President, and Ira Friedberg, have completely revised and expanded their late father's work. They have had the valuable assistance and cooperation of a who's who of the leading numismatists on every continent in bringing this edition to fruition. For the numismatist, banker, economist, historian, institution of higher learning, or a fancier of the noble metal in all its forms, Gold Coins of the World is a book for every library, public and private.

Gold Coins of the World, 10th edition Arthur & Ira Friedberg, 2023-12-20 The tenth edition of Gold Coins of the World expands on its predecessor, digging more deeply into new areas of collector interest, and expanding many sections. From the coins of Ancient Greece, Rome, and the Byzantine Empire, and from Afghanistan through Zanzibar, it includes the addition of many new discoveries for dozens of countries. From the 384 pages of the 1958 edition, the work has expanded to 852 pages, which have been completely revised and updated. The authors have listed more than 22,000 coin types, which are illustrated

with more than 8,500 photos—now, for the first time, each one of them in color. Each country's section includes tables of weight and fineness. The market valuations are extensively revised to reflect both the higher price of gold as well as the skyrocketing demand for numismatic rarities. Valuations are now provided, for the first time, in up to three states of preservation. Many of the prices, especially for great rarities and coins in higher grades, have at least doubled. In fact, as collectors recognize the scarcity of coins in the highest states of preservation, the premium for such coins relative to lower-graded ones is escalating beyond traditional proportions. The coinage of India and the Islamic world, long dismissed by western collectors as difficult to decipher, unimportant, and lacking in value, is now the subject of intense interest, and has shown some of the most dramatic increases of all. The reader will also find a useful directory of the world's leading gold-coin dealers and auction houses. For the numismatist, banker, economist, historian, or institution of higher learning, the tenth edition of *Gold Coins of the World* is a book for every library, public and private.

Iberian Books Volumes II & III / Libros Ibéricos Volúmenes II y III (2 vols) Alexander Samuel Wilkinson,Alejandra

Ulla Lorenzo, 2015-10-05 Iberian Books II & III presents an indispensable foundational listing of everything known to have been published in Spain, Portugal and the New World, or of items printed in Spanish or Portuguese elsewhere, during the first half of the seventeenth century. Drawing on library catalogues, specialist bibliographies and studies, as well as auction catalogue records, Iberian Books lists 45,000 items, and the locations of some 215,000 copies surviving in 1,800 collections worldwide. These volumes offer a powerful research tool which will appeal to researchers, librarians and to the book selling and collecting communities. They will prove invaluable to anyone with a research interest in the literature, history and culture of the Iberian Peninsula in the early modern age. This set supplements Iberian Books, which logs the Iberian print production up to 1601. Los dos volúmenes de Iberian Books II & III ofrecen un registro pionero de todos los impresos publicados en España, Portugal y el Nuevo Mundo, o en español o portugués en otros lugares, entre 1601 y 1650. A partir del trabajo realizado en bibliotecas, la revisión de bibliografías especializadas y de catálogos de casas de subastas, Iberian Books recoge 45.000 impresos conservados en 215.000 ejemplares preservados en 1.800 colecciones de todo el mundo. Estos volúmenes ofrecen una herramienta de investigación de gran utilidad para investigadores, bibliotecarios, libreros y coleccionistas. Los dos volúmenes resultarán de enorme valor a todo aquel investigador interesado en la literatura, la historia y la cultura de la Península Ibérica de la Edad Moderna.

El Libro de Los Misterios / The Book of Mysteries Jonathan Cahn, 2016-09-27 Entre en un viaje transformador para descubrir los MISTERIOS DE DIOS, los SECRETOS de los TIEMPOS, y las LLAVES OCULTAS para abrir las puertas a una vida de gozo, bendición, y el cumplimiento de SU DESTINO. El libro de los misterios comienza con un viajero y su encuentro con un hombre conocido solamente como el maestro, quien lo lleva a una odisea por montañas del desierto, ruinas antiguas y la Cima de los Rollos. Cada día es un nuevo misterio, incluidos el misterio del octavo día, el viaje del Novio, el portal, cómo alterar su pasado, el rostro en las aguas, la huella macabea, el chiasma, los siete misterios de los tiempos, y muchos más. Participe en el viaje y en los sorprendentes misterios revelados. Con 365 misterios, uno para cada día del año, este libro es también un devocional diario como ningún otro, con las llaves más importantes de la verdad espiritual, los misterios de los últimos tiempos y los secretos de la vida. The Book of Mysteries opens up with a traveler and his encounter with a man known only as the teacher. The teacher takes him on an odyssey through desert mountains, valleys, gardens and plains, encounters with nomadic tent dwellers, caverns and ancient ruins, chambers of scrolls and vessels, and more. The reader is taken along to partake in the journey and in all the teachings and revelations. The traveler keeps a journal in which he writes down each of the mysteries given to him by the teacher in his one-year odyssey--365 different mysteries--one for each day of the year. Thus, on top of everything else, The Book of Mysteries is also a daily devotional unlike any other. And each mystery contains

a special mission for each day of the year, a mission that takes the revelation and applies it to reality for a life-changing journey.
