Motorcycling and Leisure Paul Broughton,Linda Walker,2016-12-05 Despite the fact that there are around 1.2 million powered two wheelers (PTWs) within the United Kingdom, riders are often misconceived as living at the edge of society; however, this is often far from the truth. Riding a PTW is a high-risk activity and those who ride are often perceived as being 'risk junkies', but through an in-depth exploration of this leisure activity, *Motorcycling and Leisure* explains that riders ride because they enjoy it and do not necessarily enjoy the risk involved. The book presents a range of contemporary research on riders and how they find enjoyment. The book further explores the rider goal of enjoyment and utilises Fuller's task homeostasis theory along with Csikszentmihalyi's theory of flow to develop an understanding of the interaction between risk and goals. In conclusion it develops principles of interventions with the aim of guiding intervention design and reducing the number of motorcycle crashes.

The Motor Car and Popular Culture in the 20th Century David Thoms,Len Holden,Tim Claydon,1998 Comprises 18 contributions from the US, the UK, and Australia on the motor car as a cultural phenomenon which has come to dominate the 20th century. The contributors come at the subject from a variety of disciplines, including semiotics, social history, literary and film criticism, and musicology. T

Plateaus of Freedom Mark Kristmanson,2003-12-15 'Canadians are not accustomed to thinking of censorship, secret intelligence, and propaganda as a single entity. Much less do they consider that these covertly militaristic activities have anything to do with culture.' So writes Mark Krismanson in this important study of the intertwining activities and careers of those involved in Canada's security agencies and in the state-sanctioned culture industry during the delight of the Cold War.

The connections between secret intelligence and culture might appear to be merely coincidental. Both the spies and the arts people worked with words, with symbols and hidden meanings, with ideas. They had regular informal luncheons together in Ottawa. Some members of the intelligence community even found careers in the arts. Less than a decade after defecting, the Russian Igor Gouzenko wrote a pulp fiction Cold War spy novel- for which he received a Governor General's award. And Peter Dwyer, Britain's top security official in North America during World War II, was a playwright who after the war worked in Canada's intelligence community before drafting the founding for the Canada Council and becoming its first director. But Plateaus of Freedom details much more than a casual relationship between security and the arts. As Kristmanson demonstrates, 'the censorship-intelligence-propaganda complex that proliferated in Canada after World War II played a counterpoint between national culture and state security, with the result that freedom, especially intellectual freedom, plateaued on the principle of nationality.' The security and cultural policy measures examined here, from the RCMP investigations at the National Film Board that led to numerous firings, to the harassment of the extraordinary African-American singer and Soviet sympathizer Paul Robeson, 'attest to the fragility and the enduring power of art to effect social change'.
