**The Past in Pieces** Rebecca Bryant, 2011-09-28 On April 23, 2003, to the surprise of much of the world, the ceasefire line that divides Cyprus opened. The line had partitioned the island since 1974, and so international media heralded the opening of the checkpoints as a historic event that echoed the fall of the Berlin Wall. As in the moment of the Wall's collapse, cameras captured the rush of Cypriots across the border to visit homes unwillingly abandoned three decades earlier. It was a euphoric moment, and one that led to expectations of reunification. But within a year Greek Cypriots overwhelmingly rejected at referendum a United Nations plan to reunite the island, despite their Turkish compatriots' support for the plan. In *The Past in Pieces*, anthropologist Rebecca Bryant explores why the momentous event of the opening has not led Cyprus any closer to reunification, and indeed in many ways has driven the two communities of the island further apart. This chronicle of the new Cyprus tells the story of the opening through the voices and lives of the people of one town that has experienced conflict. Over the course of two years, Bryant studied a formerly mixed town in northern Cyprus in order to understand both experiences of life together before conflict and the ways in which the dissolution of that shared life is remembered today. Tales of violation and loss return from the past to shape meanings of the opening in daily life, redefining the ways in which Cypriots describe their own senses of belonging and expectations of the political future. By examining the ways the past is rewritten in the present, Bryant shows how even a momentous opening may lead not to reconciliation but instead to the discovery of new borders that may, in fact, be the real ones.

**Quit Smoking Weapons of Mass Distraction** Simon Chapman, 2022-06-26 Who keeps telling smokers they can't quit without help? For decades there have been far more ex-smokers than smokers, and an estimated 75% of smokers quit without drugs or professional help. But smoking cessation is a global phenomenon serviced by multibillion-dollar industries, including the pharmaceutical and e-cigarette sectors and health professionals. These industries try to denigrate unassisted cessation and promote their products and services – “weapons of mass distraction” – as essential to successful quitting. This contributes to the medicalisation of a process that, before these products were available, had a natural history where drugs and expertise were absent, yet millions of people around the world still quit. Simon Chapman AO is one of Australia's foremost experts on strategies to minimise harm from tobacco. In *Quit Smoking Weapons of Mass Distraction*, he reviews the early history of quitting smoking and the rise of assisted quitting, and gives insight into the forces that have tried to undermine smokers' agency to stop. Chapman also provides actionable policy solutions to help people actually quit smoking. This is a splendid read for anyone interested in what really works to reduce smoking, and what helps to keep Big Tobacco in business. — Mike Daube AO, Emeritus Professor in Public Health, Curtin University Chapman is indispensable reading for anyone wanting to help the billion-odd smokers end their addiction. A powerful and important book! — Robert N. Proctor, Professor of the History of Science at Stanford University

**In the Mists of Time: Negotiating the Past in Ancient Literature** Franco Montanari,Theodore Papangelis,Bernhard Zimmermann,Evanthia Sistikou,2024-10-07 The idea of the past, far from suggesting a nostalgic longing or an antiquarian curiosity for ages and cultures irrevocably lost, is essential to the human perception of the world. The volume at hand, entitled *In the Mists of Time: Negotiating the Past in Ancient Literature*, explores pastness as expressed through myth and early history and as reflected in sophisticated concepts and epistemological questions in Ancient Greek and Latin literature. The eighteen contributions illustrate how the ancients addressed the past through poetry, history and philosophy and lend insight into the metaliterary, self-reflexive way of dealing with past texts through scholarship.

*All the Money in the World* Laura Vanderkam,2013-05-28 The universal lament about money is that there is never enough. We spend endless hours trying to figure out ways to stretch every dollar and kicking ourselves whenever we spend too much or save too little. For all the stress and effort we put into every choice, why are most of us unhappy about our finances? According to Laura Vanderkam, the key is to change your perspective. Instead of looking at money as a scarce resource, consider it a tool that you can use creatively to build a better life for yourself and the people you care about. Drawing on the latest happiness research as well as the stories of dozens of real people, Vanderkam offers a contrarian approach that forces us to examine our own beliefs, goals, and values.

*Anthropologists in the Public Sphere* Roberto J. González,2004-04-01 Anthropologists have a long tradition of prescient diagnoses of world events. Possessing a knowledge of culture, society, and history not always shared by the media's talking heads, anthropologists have played a crucial role in educating the general reader on the public debates from World War I to the second Gulf War. This anthology collects over fifty commentaries by noted anthropologists such as Margaret Mead, Franz Boas, and Marshall Sahlins who seek to understand and explain the profound repercussions of U.S. involvement in the Middle East, Asia, Africa, and Latin America. Frequently drawing on their own fieldwork, the anthropologists go beyond the headlines to draw connections between indigenous cultures, corporate globalization, and contemporary political and economic crises. Venues range from the op-ed pages of internationally renowned newspapers such as the New York Times and the Washington Post to magazine articles and television interviews. Special sections entitled Prelude to September 11 and Anthropological Interpretations of September 11 include articles that provided many Americans with their first substantial introduction to the history of Islam, Central Asia, and the Middle East. Each article includes a brief introduction contextualizing the commentary.

*Year to Success* Bo Bennett,2018-08-20 Have you been promised success if you follow a few quick and dirty rules or secrets of success? Are you tired of irrelevant analogies that do nothing for you but make you feel inadequate? Have you had enough of highly metaphysical concepts and not enough practical solutions? Have you had your fill of grossly exaggerated claims that try to trick you into thinking success is easy? Are you all affirmationed out? You are not alone. Think of success as

a game of chance in which you have control over the odds. As you begin to master concepts in personal achievement, you are increasing your odds of achieving success. Year To Success is a full year course in success, designed to be a practical guide to achieving your definition of success. Each day of this course will, through practical application, increase your odds of achieving success. It has been said that one line of wisdom can change your life more than volumes of books. Imagine what hundreds of pages of wisdom can do. Year To Success is perhaps the most complete book on success ever written. It uses my formula for success: education + inspiration + action = success. Education: each week starts off with two educational articles and ends with two more educational articles. Inspiration: the third day of the week is a success biography on someone I believe is one of the most successful people in history. These success biographies are full of inspiration to help keep your flame for success burning on high. Action: each of the educational articles has one or more action steps associated with it. Taking action and getting results are what this book is all about.
