You Don't Live in My House Ulric R. Gray,2022-07-06 We live in a monitors' world as an output device that displays information in a pictorial form usually comprised with visual display, circuitry, casting, and with a power supply. It is tucked away on a wall showing the visual display of ourselves for all to see with an on and off switch, leaving us there as a circuitry casting in a pictorial form whether we are good or bad! There, we see ourselves mentally transformed from an egg to a worm and from worm to a cocoon, from a cocoon to a butterfly alive; now that we are alive, we can fly. If we weren't alive at birth, we would remain a monitor on a wall with no connection to a power output so as to display a visual pictorial information for all to see. Don't try building your own escape hatch; if you do, your success will depend on your ability to do your own repairs! Success is not a donation; it is a conquest. Self-awareness is knowing yourself from the inside out!

Plant Intelligence and the Imaginal Realm Stephen Harrod Buhner,2014-05-14 A manual for opening the doors of perception and directly engaging the intelligence of the Natural World • Provides exercises to directly perceive and interact with the complex, living, self-organizing being that is Gaia • Reveals that every life form on Earth is highly intelligent and communicative • Examines the ecological function of invasive plants, bacterial resistance to antibiotics, psychotropic plants and fungi, and the human species In *Plant Intelligence and the Imaginal Realm*, Stephen Harrod Buhner reveals that all life forms on Earth possess intelligence, language, a sense of I and not I, and the capacity to dream. He shows that by consciously opening the doors of perception, we can reconnect with the living intelligences in Nature as kindred beings, become again wild scientists, nondomesticated explorers of a Gaian world just as Goethe, Barbara McClintock, James Lovelock, and others have done. For as Einstein commented, "We cannot solve the problems facing us by using the same kind of thinking that created them." Buhner explains how to use analogical thinking and imaginal perception to directly experience the inherent meanings that flow through the world, that are expressed from each living form that surrounds us, and to directly initiate communication in return. He delves deeply into the ecological function of invasive plants, bacterial resistance to antibiotics, psychotropic plants and fungi, and, most importantly, the human species itself. He shows that human beings are not a plague on the planet, they have a specific ecological function as important to Gaia as that of plants and bacteria. Buhner shows that the capacity for depth connection and meaning-filled communication with the living world is inherent in every human being. It is as natural as breathing, as the beating of our own hearts, as our own desire for intimacy

and love. We can change how we think and in so doing begin to address the difficulties of our times.

Don't Live the Good Life; Live the Better Life Ankit Shukla,2013-03-08 In wanting the better life, versus wanting the good life you are in essence, always wanting to strive for more. I relate many aspects of life and how we think, to the central idea of wanting the better life. We all want more, no matter where we are in life, but it's whether or not we want to put in the effort. I discuss many common sense approaches we can all take to create that better life. It is a quite simple, but constant process. Enjoy the results.

Karna's Wheel Michael Tobert,2018-09-28 Secrets present. Secrets past. Secrets in India, where Stephen's grandfather is a lowly functionary in the engine room of the Raj. Secrets at home, held tightly by Stephen's half-Indian, half-Scottish mother. Only by uncovering what has been hidden can Stephen win Julia, a woman with secrets of her own... Set in St Andrews, Scotland before the millennium; among the early-Twentieth century jute mills of Dundee; in the industrial underbelly of colonial Calcutta and on the epic plains of ancient India, Karna's Wheel is a poignant story about love, inheritance, and the things which make us what we are. 'Karna's Wheel is compelling, multi-layered and beautifully written.' Chris Given-Wilson, shortlisted for the Wolfson History Prize 2017

The Kingdom Agenda Tony Evans,2006-03-01 Too many of us live segmented lives, with God residing in one of our many compartments, all of which focus on our own fulfillment. We often struggle because we want God to fulfill our agenda, not follow His. The Kingdom Agenda helps us re-prioritize our lives according to kingdom values, and apply biblical principles to our everyday living.
