High Definition Books

English, August Upamanyu Chatterjee, 2006-04-04 Agastya Sen, known to friends by the English name August, is a child of the Indian elite. His friends go to Yale and Harvard. August himself has just landed a prize government job. The job takes him to Madna, "the hottest town in India," deep in the sticks. There he finds himself surrounded by incompetents and cranks, time wasters, bureaucrats, and crazies. What to do? Get stoned, shirk work, collapse in the heat, stare at the ceiling. Dealing with the locals turns out to be a lot easier for August than living with himself. English, August is a comic masterpiece from contemporary India. Like *A Confederacy of Dunces* and *The Catcher in the Rye*, it is both an inspired and hilarious satire and a timeless story of self-discovery.

South Asian Novelists in English Jaina C. Sanga, 2003-03-30 With the publication of Salman Rushdie's Booker Prize

winning novel, *Midnight's Children* in 1981, followed by the unprecedented popularity of his subsequent works, the cinematic adaptation of Michael Ondaatje's *The English Patient*, many other best-sellers written by South Asian novelists writing in English have gained a tremendous following. This reference is a guide to their lives and writings. The volume focuses on novelists born in South Asia who have written and continue to write about issues concerning that region. Some of the novelists have published widely, while others are only beginning their literary careers. The volume includes alphabetically arranged entries on more than 50 South Asian novelists. Each entry is written by an expert contributor and includes a biography, a discussion of major works and themes, a summary of the novelist's critical reception, and primary and secondary bibliographies. Since many of the contributors are personally acquainted with the novelists, they are able to offer significant insights. The volume closes with a selected bibliography of studies of the South Asian novel in English, along with a list of anthologies and periodicals.

Teaching English from Classes to Masses Sanjay Arora, 2017-05-11 This volume brings together articles based on experimental and theoretical research from teachers working in diverse teaching backgrounds with varying experience, from research scholars to school teachers, from college and university teachers in India to a British native teaching in China. The contributions here provide a mix of global and local teaching scenarios, addressing the need for diagnostic tests, developing need-based material, using the mother tongue to ensure active participation of the masses, and re-examining the language policies in Asian countries. The papers collected here also explore the implementation of Task-based Language Teaching, the integration of technology in developing language skills, and the use of games and activities to engage the interest of low level learners while teaching both literature and language, further linking them with their culture and society. The book offers a reflection of the changes that have taken place in the teaching environment in the last two decades, with the introduction of Communicative Language Teaching, and, as such, will be of immense help for policy framers and educators in South-Asian countries and in countries where English is a second or foreign language. Furthermore, the volume offers valuable information for researchers working in the field of English Language Teaching (ELT), which can be used for reviewing literature and exploring the directions in which the new teaching methods and approaches are leading, and establishing the validity of research.

Hindi Is Our Ground, English Is Our Sky Chaise LaDousa, 2014-01-01 A sea change has occurred in the Indian economy in the last three decades, spurring the desire to learn English. Most scholars and media venues have focused on English exclusively for its ties to processes of globalization and the rise of new employment opportunities. The pursuit of class mobility, however, involves Hindi as much as English in the vast Hindi-Belt of northern India. Schools are institutions on which class mobility depends, and they are divided by Hindi and English in the rubric of “medium,” the primary language of pedagogy. This book demonstrates that the school division allows for different visions of what it means to belong to the nation and what is central and peripheral in the nation. It also shows how the language-medium division reverberates unevenly and unequally through the nation, and that schools illustrate the tensions brought on by economic liberalization and middle-class status.

Encyclopedia of Post-Colonial Literatures in English Eugene Benson, L.W. Conolly, 2004-11-30 Post-Colonial Literatures in English, together with English Literature and American Literature, form one of the three major groupings of literature in English, and, as such, are widely studied around the world. Their significance derives from the richness and variety of experience which they reflect. In three volumes, this Encyclopedia documents the history and development of this body of work and includes original research relating to the literatures of some 50 countries and territories. In more than 1,600 entries written by more than 600 internationally recognized scholars, it explores the effect of the colonial and post-colonial experience on literatures in English worldwide.

Peripheral Centres, Central Peripheries Martina Ghosh-Schellhorn, Vera Alexander, 2006 Prominent scholars in literary and cultural studies, anthropology, sociology, linguistics, media studies, theatre production, and translation challenge the centre-periphery dichotomy used as a paradigm for relations between colonizers and their erstwhile subjects in this collection of critical interventions. Focussing on India and its diaspora(s) in western industrialized nations and former British colonies, this volume engages with topics of centrality and/or peripherality, particularly in the context of Anglophone Indian writing; the Indian languages; Indian film as art and popular culture; cross-cultural Shakespeare; diasporic pedagogy; and transcultural identity.

Handbook of Twentieth-Century Literatures of India Nalini Natarajan, 1996-09-09 India has a rich literary assemblage produced by its many different regional traditions, religious faiths, ethnic subcultures and linguistic groups. The published literature of the 20th century is a particularly interesting subject and is the focus of this book, as it represents the

provocative conjuncture of the transitions of Indian modernity. This reference book surveys the major regional literatures of contemporary India in the context of the country's diversity and heterogeneity. Chapters are devoted to particular regions, and the arrangement of the work invites comparisons of literary traditions. Chapters provide extensive bibliographies of primary works, thus documenting the creative achievement of numerous contemporary Indian authors. Some chapters cite secondary works as well, and the volume concludes with a list of general works providing further information. An introductory essay overviews theoretical concerns, ideological and aesthetic considerations, developments in various genres, and the history of publishing in regional literatures. The introduction provides a context for approaching the chapters that follow, each of which is devoted to the literature of a particular region. Each chapter begins with a concise introductory section. The body of each chapter is structured according to social and historical events, literary forms, or broad descriptive or analytic trends, depending on the particular subject matter. Each chapter then closes with an extensive bibliography of primary works, thus documenting the rich literary tradition of the region. Some chapters also cite secondary sources as an aid to the reader. The final chapters of the book address special topics, such as sub-cultural literatures, or the interplay between literature and film. A list of additional sources of general information concludes the volume.
