## **International Journal of Mental Health and Addiction ,**

Marketing and Dysfunctional Consumer Behaviour Gioele Zamparo, 2025-05-05 This book explores the relationship between marketing practices and dysfunctional consumption behaviors, specifically focusing on two behavioral addictions: compulsive buying and problematic gambling. It offers a comprehensive analysis grounded in marketing theory, examining how marketing strategies and actions can significantly influence these behaviors. Using a mixed-method approach, the book reviews existing literature and presents empirical findings related to compulsive buying and gambling. It also discusses the implications of marketing's role in fostering these behaviors, aiming to inform both academic discourse and the responsibilities of marketers. This work is essential for scholars and practitioners seeking to understand dysfunctional consumer behaviors and the impact of marketing strategies on consumer well-being.

*Maladaptive Consumer Behavior* Ingrid M. Martin, David W. Stewart, 2024-07-29 This edited volume provides a marketing perspective on maladaptive consumer behavior, especially behavior with dysfunctional consequences that does not have its origins in physical addiction. It brings together contributions of leading scholars who have expertise in various forms of maladaptive consumption. The chapters address specific manifestations of maladaptive consumption, such as those related to food, alcoholic beverages, online gaming, and media consumption, among others, with an emphasis on behaviors that are not traditionally regarded as arising from physical addiction. Further, the book includes chapters that focus more broadly of definitional and conceptual issues, methodological approaches, implications for intervention and regulation, and the value judgments inherent in the identification and classification of behaviors as "maladaptive. It examines numerous alternative theories of maladaptive consumption and places such behavior in a larger market context. Taken together, the contributions in this volume (1) describe the general phenomenon of maladaptive consumption, (2) describe specific manifestations of maladaptive consumption, (3) identify issues of research methodology and definition related to the study of maladaptive consumption, and (4) address relevant interventions, regulations, and public policy issues. It will appeal to scholars interested in maladaptive consumption behaviors and their treatments as well as consumer behavior more generally across

multiple fields, including marketing, clinical psychology, social work, and public health.

**A Guide to Assessments that Work** John Hunsley, Eric J. Mash, 2018 This volume addresses the assessment of the most commonly encountered disorders or conditions among children, adolescents, adults, older adults, and couples. Strategies and instruments for assessing mood disorders, anxiety and related disorders, couple distress and sexual problems, health-related problems, and many other conditions are reviewed by leading experts.

**Treating Addictions** An-Pyng Sun, 2018-07-20 Treating Addictions: The Four Components offers a unique and coherent understanding of addiction. The book begins with a chapter discussing the framework of addiction and the four essential components of treatments—the fundamentals of addiction, co-occurring disorders, quality of life, and macro factors—and subsequent chapters elaborate on each component. Most currently available addiction treatment books present knowledge and skills in separate chapters and fail to integrate all chapters within a single framework that can weave all concepts into a meaningful tapestry. Using a unified framework, this book offers students a comprehensive skill set for treating addictions.

The Oxford Handbook of Digital Technologies and Mental Health Marc N. Potenza, Kyle A. Faust, David Faust, 2020 This book provides a comprehensive and authoritative description of the relationships between mental health and digital technology use, including how such technologies may be harnessed to improve mental health.

**Substance Abuse and the Family** Michael D. Reiter, 2025-08-12 This fully updated third edition of Substance Abuse and the Family demonstrates what it means to view addiction through a systems lens by considering biology and genetics, family relationships, and larger systems. Michael D. Reiter illustrates how to examine a person's predilection to become addicted, their social environment around substance use, the functionality of their family, and various treatment options. Chapters are organized around two sections: assessment and treatment. The first section pays attention to how the family system organizes around substance use and abuse. Here family roles, culture, and other issues such as family violence and resilience are covered. Two chapters are also included on the neuroscience and genetics of addiction. There are also chapters on roles of family members in addicted families, using genograms, and working in a culturally sensitive way, with culture-specific consideration paid to Black, Hispanic and Latin American, Asian American, and Indigenous families. A separate chapter examines issues faced by both youth and adult children of alcoholics. The second half of the book explores what a systems orientation means in practice and goes over self-help groups for individuals and families. An overview of the major family therapy theories is included, which examines intergenerational, experiential, communication, strategic, systemic, and postmodern models. New to this edition is a chapter on trauma and stigma and its relationship to addictions and substance use and abuse. Each chapter has been updated with cutting-edge research and additional figures to enhance concepts, as well a case application to demonstrate and apply each chapter's ideas. Intended for undergraduate and graduate students, as

well as beginning practitioners, this text provides one of the most in-depth examinations on the topic available.

**People of Color in the United States** Kofi Lomotey, Pamela Braboy Jackson, Muna Adem, Paulina X. Ruf, Valire Carr Copeland, Alvaro Huerta, Norma Iglesias-Prieto, Donathan L. Brown, 2016-10-17 This expansive, four-volume ready-reference work offers critical coverage of contemporary issues that impact people of color in the United States, ranging from education and employment to health and wellness and immigration. *People of Color in the United States: Contemporary Issues in Education, Work, Communities, Health, and Immigration* examines a wide range of issues that affect people of color in America today, covering education, employment, health, and immigration. Edited by experts in the field, this set supplies current information that meets a variety of course standards in four volumes. Volume 1 covers education grades K-12 and higher education; volume 2 addresses employment, housing, family, and community; volume 3 examines health and wellness; and volume 4 covers immigration. The content will enable students to better understand the experiences of racial and ethnic minorities as well as current social issues and policy. The content is written to be accessible to a wide range of readers and to provide ready-reference content for courses in history, sociology, psychology, geography, and economics, as well as curricula that address immigration, urbanization and industrialization, and contemporary American society.

**The Wiley-Blackwell Handbook of Disordered Gambling** David C. S. Richard, Alex Blaszczyński, Lia Nower, 2013-10-08 The Wiley-Blackwell Handbook of Disordered Gambling is a complete guide to the current empirical literature relating to the conceptualization, assessment, and treatment of disordered gambling. The international contributors are all experienced, practicing clinicians who discuss gambling within a global context. Best-practice guidelines for the clinical management of problem and disordered gambling Contains empirically derived findings that translate research into practical clinical applications that clinicians and counselors can use in understanding and treating problem gamblers Brings together a distinguished international group of scholars whose contributions discuss gambling as it occurs around the globe Clearly organized into sections that cover conceptualization, research, assessment, treatment, and special topics

*Compulsive Buying* Trevor A. Smith, Kenroy C. Wedderburn, 2021-11-03 Compulsive buying is a shopping addiction with worldwide prevalence that causes significant emotional, financial, and social problems for those afflicted by it. While most research has focused on the problem and its consequences, this book examines the intersections between consumer traits, self-regulation, ethical considerations, and compulsive buying. *Compulsive Buying: Consumer Traits, Self-Regulation and Marketing Ethics* presents a model on consumer trait predictors of compulsive buying as well as guidelines for consumers, government policymakers, and companies.

**Sport Marketing in a Global Environment** Ruth M. Crabtree, James J. Zhang, 2022-04-19 This book examines contemporary sport marketing, with a particular focus on strategic marketing, the process of longer-term planning and

development that involves identifying the needs and wants of potential customers and satisfying their needs through the exchange of products and services. It presents cutting-edge case studies from around the world, including from the United States, China, Europe, the Middle East, South America, and Africa. It considers some of the most interesting emerging themes and topics in contemporary sport business, including fitness marketing, the role of sustainability in sport marketing, social media and digital marketing, athlete-brand relationships, and the promotion and development of collegiate and scholastic sport. As a whole, this volume presents a snapshot of the opportunities and challenges facing sport marketers around the world. Sport Marketing in a Global Environment is fascinating reading for any advanced student, researcher, or professional working in sport business and management, sport development, marketing, strategic management, or global business.

**International Research in Education Sciences VII** Murat Demirekin,2024-02-03

Suicide David Lester Ph.D.,James R. Rogers,2013-10-29 Intended for the general reader, this masterful compilation probes the psychology of suicide, revealing the latest research and spotlighting global efforts to reduce the million suicide deaths each year. Exceeding previously available studies in both scope and depth, the two-volume Suicide: A Global Issue explores and explains both why suicides—and suicide attempts—occur and what can be done to prevent them. The first volume, Understanding, considers factors that may play into the choice to take one's life, discussing forces as varied as culture, psychology, religion, and biology. The second volume, Prevention, covers steps that can be taken to prevent suicide, whether individually or by society as a whole. Articles by widely respected experts consider questions such as why people kill themselves, why some countries have extremely high suicide rates, and whether the treatment of suicidal individuals actually prevents them from taking their lives. Each chapter presents incidents, research, and actions from nations around the globe, as well as from the United States.

**Intervention in Mental Health-Substance Use** David B. Cooper,2016-09-19 The Mental Health-Substance Use series provides clear guidance for professionals on this complex and increasingly recognised field. It concentrates on the concerns, dilemmas and concepts that impact on the life and well-being of affected individuals and those close to them, and the future direction of practice, education, research, services, intervention, and treatment. Mental health-substance use is a complex and varied phenomenon, and this volume stresses an appreciation that interventions that work for one individual or family may prove ineffective for another. It therefore explores the needs of individuals and carers, the nature of the therapeutic relationship, and the theory and application of a variety of interventional techniques; these include group therapy, cognitive behaviour therapy (CBT), motivational interviewing (MI), brief interventions and many more. The volumes in this series are designed to challenge concepts and stimulate debate, exploring all aspects of the development in treatment, intervention and care response, and the adoption of research-led best practice. They are essential reading for mental health and substance use

professionals, students and educators.

*Drugs and Society* Glen R Hanson, Peter J Venturelli, Peter Platteborze, 2024-08-30 As a long-standing, reliable resource *Drugs & Society*, Fifteenth Edition continues to captivate and inform students by taking a multidisciplinary approach to the impact of drug use and abuse on the lives of average individuals. The authors have integrated their expertise in the fields of drug abuse, pharmacology, and sociology with their extensive experiences in research, treatment, drug policy making, and drug policy implementation to create an edition that speaks directly to students on the medical, emotional, and social damage drug use can cause. NEW - Includes new and updated content on important topics, such as: - The potential value of genetics in assessing risk, consequences, and treatment of drug use disorder or addiction - The abuse and extent of performance-enhancing drugs in athletic and sport activity - Statistics of use and the impact of drugs of abuse - The value of forensic drug testing - Recent findings concerning the extent of vaping and its negative long-term consequences - The escalation of American overdose deaths due to opioids directly related to both prescription abuse and the emergence of illicit fentanyl in counterfeit medications - The pharmacological and behavioral characteristics of alcohol use and abuse including major costs to society - The pattern of methamphetamine resurgence uses in the United States and its trafficking patterns from Mexico, as well as the recent connections between methamphetamine and heroin/opioid use - The use of hallucinogenic drugs such as Ecstasy (MDMA) to treat mental conditions such as posttraumatic stress disorder and the use of ketamine to treat depression - Problems associated with the rapidly escalating drug costs in the U.S. and how to address these challenges - Tobacco regulation by the FDA and the continued increase in the popularity of e-cigarettes - Recent changes in most state marijuana laws in the United States that legally redefine marijuana as medicine for neurological and mental health issues and most recent events to make it a legal drug for recreational marijuana use. Engaging boxed features throughout the text include: Holding the Line: vignettes that help readers assess governmental efforts to deal with drug-related problems Case in Point: examples of relevant clinical and/or social issues that arise from the use of each major group of drugs Here and Now: current events that illustrate the personal and social consequences of drug abuse Family Matters: examples of how genetics and heredity contribute to drug abuse Prescription for Abuse: current stories that illustrate the problems of prescription abuse and its consequences Point/Counterpoint: exposes students to different perspectives on drug-related issues and encourages them to draw their own conclusions.

*Responding in Mental Health-Substance Use* David B. Cooper, 2020-09-23 Mental health-substance use is a complex interrelation, with equally complex implications for individuals and their families, health professionals and society. Although its international recognition as an issue of critical importance is growing, clear guidance for professionals on mental health-substance use and its treatment is hard to find. The Mental Health-Substance Use series addresses this need, concentrating on concerns, dilemmas and concepts that impact on the life and well-being of affected individuals and those close to them,

and the future direction of practice, education, research, services, interventions, and treatment. Having outlined the field and service development in previous books, the third book in the series explores how professionals can best respond to the particular concerns and dilemmas arising from and in mental health-substance use for individuals and their families. It aims to inform, develop and educate these responses by sharing knowledge and enhancing expertise in this fast-developing field by exploring the interrelated psychological, physical, social, legal and spiritual experiences. The volumes in this series are designed to challenge concepts and stimulate debate, exploring all aspects of the development in treatment, intervention and care responses, and the adoption of research-led best practice. They are essential reading for mental health and substance use professionals, students and educators.

*DSM-IV-TR in Action* Sophia F. Dziegielewski, 2013-12-17 Preceded by: *DSM-IV-TR in action* / Sophia F. Dziegielewski. 2nd ed. 2010.

EBOOK: Doing Social Research: A Global Context Claire Wagner, Barbara Kawulich, Mark Garner, 2012-08-16 With its focus on critical thinking and applied learning, *Doing Social Research* provides a unique approach to conducting social research. The book is organised according to the broad chronology of developing and conducting a typical student research project and provides coverage of key theories alongside exercises, case studies and scenarios. Written specifically for students in South Africa and the developing world and drawing on examples from a range of fields in the social sciences, the book brings research methods to life.

**Spirituality** Dr Michael Gray, 2015-04-29 The undeniable truth for many is that their spirit is in pain. It is manifested in many ways, such as anger, grief, anxiety, depression, or a lack of hope in their future. The most immediate need is to realize there is a means to overcome the pain, and it involves having a spiritual life. This is the basis for this work's initial printing in 2012. Since the initial printing of the book's first edition, entitled *Spirituality: Key to Physical and Mental Well-Being*, it has become apparent to the writer that this pained spirit operates deceptively by lack of reason and purpose. This absence of rational-based thinking and preference for emotional feelings over reasoned behaviors represents our present place. This is how our world has adapted to the luxuries and illusions of security in the present social order. The result is a lack of critical concern for the individual's (and civilized societies) survival to be assured into the future. The theoretical address to this perceptual shift is the reason for the reprint of this book with two parts. The second part addresses this issue. It is entitled *The Modern Perceptual Shift: Preference for Emotional Responses as Reality*. It is important to understand that, although this book appears to be a scholarly and difficult read, it is essential to the well-being of the individual as a parent and productive member of society. In order to understand our world and our individual functioning, a read and consideration of this book is vital. To the mental health professional, this treatment provides a balanced approach to utilizing therapy to assist clients in gaining control over their world.

Delve into the emotional tapestry woven by Crafted by in **International Journal Of Mental Health And Addiction** .
