La España musulmana Duncan Townson,1990-04-09 La división estructural en libros base y monografías referidas a hechos cruciales para la interpretación de la historia de los pueblos (conflictos, desarrollo social, cultural y tecnológico, vida cotidiana, pensamiento) permite tanto la comprensión global de la historia de la humanidad, como la profundización sobre determinados acontecimientos o aspectos generalmente ignorados en los manuales al uso. Los estudiantes encuentran así una forma atractiva y unas amplias posibilidades de su aplicación al estudio de las múltiples facetas del devenir histórico y de las diferencias culturales y sociales. Se combinan así los grandes acontecimientos históricos con aspectos referidos a la vida cotidiana, al pensamiento o a los avances tecnológicos. Se ofrece de este modo una pluralidad de recursos para la investigación individual o colectiva, y para el desarrollo de actividades sobre temas que, a su vez, relacionan la historia del pasado para la comprensión del mundo actual. Todos los libros de esta colección contienen abundantes ilustraciones, esquemas, mapas y gráficos aclaratorios de los textos, y han sido diseñados en un formato especialmente adecuado para la consulta y el trabajo de los alumnos y alumnas

On Earth or in Poems Eric Calderwood, 2023-05-16 "With extraordinary linguistic range, Calderwood brings us the voices of Arabs and Muslims who have turned to the distant past of Spain to imagine their future." —Hussein Fancy, Yale University How the memory of Muslim Iberia shapes art and politics from New York and Cordoba to Cairo and the West Bank. During the Middle Ages, the Iberian Peninsula was home not to Spain and Portugal but rather to al-Andalus. Ruled by a succession of Islamic dynasties, al-Andalus came to be a shorthand for a legendary place where people from the Middle East, North Africa, and Europe; Jews, Christians, and Muslims lived together in peace. That reputation is not entirely deserved, yet, as *On Earth or in Poems* shows, it has had an enduring hold on the imagination, especially for Arab and Muslim artists and thinkers in Europe, the Middle East, and North Africa. From the vast and complex story behind the name al-Andalus, Syrians and North Africans draw their own connections to history's ruling dynasties. Palestinians can imagine themselves as "Moriscos," descended from Spanish Muslims forced to hide their identities. A Palestinian flamenco musician in Chicago, no less than a Saudi women's rights activist, can take inspiration from al-Andalus. These diverse relationships to the same past may be imagined, but the present-day communities and future visions those relationships foster are real. Where do these notions of al-Andalus come from? How do they translate into aspiration and action? Eric Calderwood traces the role of al-Andalus in music and in debates about Arab and Berber identities, Arab and Muslim feminisms, the politics of Palestine and Israel, and immigration and multiculturalism in Europe. The Palestinian poet Mahmud Darwish once asked, "Was al-Andalus / Here or there? On earth ... or in poems?" The artists and activists showcased in this book answer: it was there, it is here, and it will be.

Power, Piety, and People Michael Dumper, 2020-07-14 Conflicts in cities that have particular religious significance often become intense, protracted, and violent. Why are holy cities so frequently contested, and how can these conflicts be mediated and resolved? In *Power, Piety, and People*, Michael Dumper explores the causes and consequences of contemporary conflicts in holy cities. He explains how common features of holy cities, such as powerful and autonomous religious hierarchies, income from religious endowments, the presence of sacred sites, and the performance of ritual activities that

affect other communities, can combine to create tension. Power, Piety, and People offers five case studies of important disputes, beginning with Jerusalem, often seen as the paradigmatic example of a holy city in conflict. Dumper also discusses Córdoba, where the Islamic history of its Mosque-Cathedral poses challenges to the control exercised by the Roman Catholic Church; Banaras, where competing Muslim and Hindu claims to sacred sites threaten the fragile equilibrium that exists in the city; Lhasa, where the Communist Party of China severely restricts the ancient practice of Tibetan Buddhism; and George Town in Malaysia, a rare example of a city with many different religious communities whose leaders have successfully managed intergroup conflicts. Applying the lessons drawn from these cities to a broader global urban landscape, this book offers scholars and policy makers new insights into a pervasive category of conflict that often appears intractable.

A Companion to Late Antique and Medieval Islamic Cordoba, 2023-03-06 A Companion to Late Antique and Medieval Islamic Cordoba cover the history and culture of Roman, late antique, Visigoth and al-Andalus Cordoba in nineteen contributions, from the foundation of the city in the 169/168 B.C. by the praetor Marcus Claudius Marcellus to the end of the Muslim period in 1236 B.C., when the city fell into the hands of Ferdinand III the Saint, King of Castile. Making use of archaeological data and historical sources, combined with the latest research on the various fields under study, its authors give a compelling account of Cordoba's most important archaeological, urban, political, legal, social, cultural and religious facets throughout the most exciting fifteen centuries of the city.

Contested Cultural Heritage Helaine Silverman, 2010-11-02 Cultural heritage is material – tangible and intangible – that signifies a culture's history or legacy. It has become a venue for contestation, ranging in scale from protesting to violently claimed and destroyed. But who defines what is to be preserved and what is to be erased? As cultural heritage becomes increasingly significant across the world, the number of issues for critical analysis and, hopefully, mediation, arise. The issue stems from various groups: religious, ethnic, national, political, and others come together to claim, appropriate, use, exclude, or erase markers and manifestations of their own and others' cultural heritage as a means for asserting, defending, or denying critical claims to power, land, and legitimacy. Can cultural heritage be well managed and promoted while at the same time kept within parameters so as to diminish contestation? The cases herein range from Greece, Spain, Egypt, the UK, Syria, Zimbabwe, Italy, the Balkans, Bénin, and Central America.

Articulating the Ḥijāba: Cultural Patronage and Political Legitimacy in al-Andalus Mariam Rosser-Owen, 2021-12-20 In *Articulating the Ḥijāba*, Mariam Rosser-Owen analyses for the first time the artistic and cultural patronage of the 'Amirid regents of the last Cordoban Umayyad caliph, Hisham II, a period rarely covered in the historiography of al-Andalus. Al-Mansur, the founder of this dynasty, is usually considered a usurper of caliphal authority, who pursued military victory at the expense of the transcendental achievements of the first two caliphs. But he also commissioned a vast extension to the Great

Mosque of Cordoba, founded a palatine city, conducted skilled diplomatic relations, patronised a circle of court poets, and owned some of the most spectacular objects to survive from al-Andalus, in ivory and marble. This study presents the evidence for a reconsideration of this period.

Medieval Art, Modern Politics Brigitte Buettner,William J. Diebold,2024-12-16 Medieval Art, Modern Politics is an innovative volume of twelve essays by international scholars, prefaced by a comprehensive introduction. It examines the political uses and misuses of medieval images, objects, and the built environment from the 16th to the 20th century. In case studies ranging from Russia to the US and from catacombs, mosques, cathedrals, and feudal castles to museums and textbooks, it demonstrates how the artistic and built legacy has been appropriated in post-medieval times to legitimize varied political agendas, whether royalist, imperial, fascist, or colonial. Entities as diverse as the Roman papacy, the Catholic Church, local arts organizations, private owners of medieval fortresses, or organizers of exhibitions and publishers are examined for the multiple ways they co-opt medieval works of art. Medieval Art, Modern Politics enlarges the history of revivalism and of medievalism by giving it a uniquely political twist, demonstrating the unavoidable (but often ignored) intersection of art history, knowledge, and power.

The Ten Most Influential Buildings in History Simon Unwin,2016-07-07 Even the most inventive and revolutionary architects of today owe debts to the past, often to the distant past when architecture really was being invented for the first time. Architects depend on their own imaginations for personal insights and originality but their ideas may be stimulated (consciously or subliminally) by particularly powerful buildings from history. The Ten Most Influential Buildings in History: Architecture's Archetypes identifies ten architectural archetypes that have been sources of inspiration for architects through the centuries. Each archetype is analysed through distinctive examples, following the methodology established by the author

in his previous books. The variety of 'lines of enquiry' each archetype has provoked in latter-day architects are then explored by analysing their work to reveal ideas inspired by those earlier buildings. Archetypes have a timeless relevance. In adopting this approach, The Ten Most Influential Buildings in History is as pertinent to contemporary practice as it is to understanding buildings from antiquity, and offers insights into the bridges of influence that can operate between the two.
