

Battle Of Horns Of Hattin

Library of Congress

Journal of Medieval Military History Clifford J. Rogers, Kelly DeVries, John France, 2007-10-18 Latest volume of original articles on all aspects of warfare in the middle ages. The broad topic of medieval warfare is here explored across the full chronological range of the Middle Ages, using a wide variety of approaches, including literary, prosopographical, technological, and narrative-based analysis. A key feature of the journal is its commitment to fostering debate on the most significant issues in medieval military history; that tradition is continued here with Bernard Bachrach's argument against the idea that early medieval military structures and practices were sharply different from Late Antique ones. Individual battles, the Hattin campaign of 1187 and Byzantine war against Bulgaria in 1254-1256, are the focus of two other chapters; an article by Richard Kaeuper (based on his *De Re Militari* special lecture at the International Congress of Medieval Studies) emphasizes the value of chansons de geste and other romance material for understanding the mentalité of the martial lay aristocracy of medieval Christendom; and there are further articles on the factors that motivated gentlemen to fight, in both open warfare, and individual combat. Weapons of warfare are not neglected, with chapters casting light on the development of the crossbow and the trebuchet. CONTRIBUTORS: BERNARD S. BACHRACH, MICHAEL EHRLICH, MICHAEL BASISTA, NICHOLAS S. KANELLOPOULOS, JOANNE K. LEKEA, RICHARD W. KAEUPER, MARK DUPUY, MALCOLM MERCER, STEVEN C. HUGHES

Crusading Warfare, 1097-1193 R. C. Smail, 1995 A revised edition of R. C. Smail's classic account of waging warfare in the time of the Crusades.

Piercing the Fog of War Brian L. Steed, 2009-04-15 A primer in meeting the shock of the new, through case studies of military aberrations from the classical to the modern era.

A Guide to Battles Richard Holmes, Martin Marix Evans, 2006-09-14 This fascinating book tells the stories of the most dramatic, memorable, and important conflicts in world history, from Agincourt, Lepanto, and Trafalgar, to Gettysburg, Stalingrad, and the Somme. It begins with the battle of Megiddo fought by the ancient Egyptians and takes the reader through to the Second Gulf War of 2003. On the way it encompasses almost 300 battles from around the world - from the Middle East, Asia, and Africa, to Europe and the Americas.

Warfare in the Age of Crusades Brian Todd Carey, Joshua B. Allfree, John Cairns, 2023-01-05 Warfare in the Age of

Crusades: The Latin East explores in fascinating detail the key campaigns, battles and sieges that shaped the crusading period of the Middle Ages, giving special attention to military technologies, tactics and strategies. Key personalities and political factors are addressed, including the role of papal monarchy in initiating the crusading expeditions, the relationship between Catholic Europe and the Byzantine empire, the role of the religious military orders, and Islamic and Mongol military capabilities. Chapters are devoted to each of the major crusades to the Levant – First, Second, Third and Fourth crusades – and an analysis of the Islamic response. The rise of the Mamluks in Egypt, with their innovative military organization, is covered, as are the failed Egyptian and Tunisian campaigns. The concluding chapters describe the Mongol campaigns in the Levant, the Mamluk response, and the final siege of Acre in 1291. This original and perceptive study of a key stage in medieval military history features regional, strategic and multi-phase tactical maps that illuminate the narrative and provide a valuable resource for students, historians and wargamers alike.

Famous Battles of the Medieval Period Chris McNab, 2017-12-15 The battles waged from 476 to 1485 demonstrate the complexity and importance of the medieval era. Combatants included the English, French, Muslims, Mongols, and crusaders, and their victories and failures laid the foundations of modern history. This book brings battles like the Battle of Tours and the Battle of Agincourt into sharp focus, and gives context to the warfare of the Middle Ages.

The Life and Legend of the Sultan Saladin Jonathan Phillips, 2019-08-20 An engaging biography that offers a new perspective on one of the most influential figures of the Crusades. In 1187, Saladin marched triumphantly into Jerusalem, ending decades of struggle against the Christians and reclaiming the holy city for Islam. Four years later he fought off the armies of the Third Crusade, which were commanded by Europe's leading monarchs. A fierce warrior and savvy diplomat, Saladin's unparalleled courtesy, justice, generosity, and mercy were revered by both his fellow Muslims and his Christian rivals such as Richard the Lionheart. Combining thorough research with vivid storytelling, Jonathan Phillips offers a fresh and captivating look at the triumphs, failures, and contradictions of one of the Crusades' most unique figures. Bringing the vibrant world of the twelfth century to life, this book also explores Saladin's complicated legacy, examining the ways Saladin has been invoked in the modern age by Arab and Muslim leaders ranging from Nasser in Egypt, Asad in Syria, and Saddam Hussein in Iraq to Osama bin Laden, as well as his huge appeal across popular culture in books, drama, and music.

The Knights Templar at War, 1120-1312 Paul Hill, 2018-01-30 A look at the famed medieval Catholic order, with an emphasis on military history—includes numerous illustrations. There are many books about the Knights Templar, the medieval military order which played a key role in the crusades against the Muslims in the Holy Land, the Iberian peninsula, and elsewhere in Europe. What is seldom explored is the military context in which they operated. This book focuses on how this military order prosecuted its wars. The order was founded as a response to attacks on pilgrims in the Holy Land, and it was involved in countless battles and sieges, always at the forefront of crusading warfare. This absorbing study examines

why they were such an important aspect of medieval warfare on the frontiers of Christendom for nearly two hundred years. The author shows how they were funded and supplied, how they organized their forces on campaign and on the battlefield, and the strategies and tactics they employed in the various theaters of warfare in which they fought. Templar leadership and command and control are examined, and sections cover their battles and campaigns, fortifications, and castles.

Library of Congress Subject Headings Library of Congress, 2004

Battles Map by Map DK, 2021-05-04 Experience the world's most significant battles through bold, easy-to-grasp maps. Covering everything from the battlefields of the ancient world to the bomb-scarred landscapes of World War II and beyond, this ebook includes engrossing maps telling the story of history's most famous battles. Using brand new, in-depth maps and expert analysis, see for yourself how legendary military milestones were won and lost, and how tactics, technology, vision, and luck have all played a part in the outcome of wars throughout history. Additionally, historic paintings, photographs, and objects take you to the heart of the action; profiles introduce famous commanders and military leaders and analyze their achievements; and the impact of groundbreaking weapons and battlefield innovations is revealed. Bursting with lavish illustrations and full of fascinating detail, *Battles Map by Map* is the ultimate history ebook for map lovers, military history enthusiasts, and armchair generals everywhere.

Over the Hills and Far Away Ian Colquhoun, 2008-12-05 Fascinating tales of ordinary soldiers who have served since World War Two. 50% of all author royalties go to the Poppy Appeal.

The Crusader States Malcolm Barber, 2020-08-11 An enriching account of the expansion of the political and cultural frontiers of the Latin West in the central Middle Ages.— *History Today* When the armies of the First Crusade wrested Jerusalem from control of the Fatimids of Egypt in 1099, they believed their victory was an evident sign of God's favor. It was, therefore, incumbent upon them to fulfill what they understood to be God's plan: to re-establish Christian control of Syria and Palestine. This book is devoted to the resulting settlements, the crusader states, that developed around the eastern shores of the Mediterranean and survived until Richard the Lionheart's departure in 1192. Focusing on Jerusalem, Antioch, Tripoli, and Edessa, Malcolm Barber vividly reconstructs the crusaders' arduous process of establishing and protecting their settlements, and the simultaneous struggle of vanquished inhabitants to adapt to life alongside their conquerors. Rich with colorful accounts of major military campaigns, the book goes much deeper, exploring in detail the culture of the crusader states—the complex indigenous inheritance, the architecture, the political, legal, and economic institutions, the ecclesiastical framework through which the crusaders perceived the world, the origins of the Knights Templar and the Hospitallers, and more. With the zest of a scholar pursuing a life-long interest, Barber presents a complete narrative and cultural history of the crusader states while setting a new standard for the term total history. A Choice Outstanding Academic Title in the Western Europe Category Barber is a highly distinguished scholar, whose touch is continually deft, and he navigates the basis of the

main narrative histories with care . . . a delight to read.— Literary Review

The Origins of Israeli Mythology David Ohana, 2012-01-23 It is claimed that Zionism as a meta-narrative has been formed through contradiction to two alternative models, the Canaanite and crusader narratives. These narratives are the most daring and heretical assaults on Israeli-Jewish identity. The Israelis, according to the Canaanite narrative, are from this place and belong only here; according to the crusader narrative, they are from another place and belong there. The mythological construction of Zionism as a modern crusade describes Israel as a Western colonial enterprise planted in the heart of the East and alien to the area, its logic and its peoples. The nativist construction of Israel as neo-Canaanism demands breaking away from the chain of historical continuity. These are the greatest anxieties that Zionism and Israel needed to encounter and answer forcefully. *The Origins of Israeli Mythology* seeks to examine the intellectual archaeology of Israeli mythology, as it reveals itself through the Canaanite and crusader narratives.

A Commentary on the Holy Scriptures: Genesis Johann Peter Lange, 1899

Hattin John France, 2015 The story of Saladin's recapture of the Holy City of Jerusalem from the Crusaders at the Battle of Hattin in 1187. A pivotal battle in the history of the Crusades - and in the subsequent history of the Middle East and the Muslim world.

Timelines of History DK, 2018-04-03 Humans are a recent event in the planet's history, but we've wasted little time in making our mark. The range of our achievements has created a rich and elaborate heritage that we have the unique ability to capture and record—meaning we can look back and learn from the road traveled. *Timelines of History* begins with the emergence of our earliest African ancestors and takes the reader through the history of cultures and nations around the world to arrive at the present day—the beginning of a new millennium. A dynamic, layered timeline zooms in and out of time, speeding up or slowing down to keep pace with the size and scope of events.

The Crusader World Adrian Boas, 2015-10-14 *The Crusader World* is a multidisciplinary survey of the current state of research in the field of crusader studies, an area of study which has become increasingly popular in recent years. In this volume Adrian Boas draws together an impressive range of academics, including work from renowned scholars as well as a number of thought-provoking pieces from emerging researchers, in order to provide broad coverage of the major aspects of the period. This authoritative work will play an important role in the future direction of crusading studies. This volume enriches present knowledge of the crusades, addressing such wide-ranging subjects as: intelligence and espionage, gender issues, religious celebrations in crusader Jerusalem, political struggles in crusader Antioch, the archaeological study of battle sites and fortifications, diseases suffered by the crusaders, crusading in northern Europe and Spain and the impact of Crusader art. The relationship between Crusaders and Muslims, two distinct and in many way opposing cultures, is also examined in depth, including a discussion of how the Franks perceived their enemies. Arranged into eight thematic sections,

The Crusader World considers many central issues as well as a large number of less familiar topics of the crusades, crusader society, history and culture. With over 100 photographs, line drawings and maps, this impressive collection of essays is a key resource for students and scholars alike.

Crusades Benjamin Z. Kedar, Jonathan Phillips, Nikolaos G. Chrissis, 2017-10-23 Crusades covers seven hundred years from the First Crusade (1095-1102) to the fall of Malta (1798) and draws together scholars working on theatres of war, their home fronts and settlements from the Baltic to Africa and from Spain to the Near East and on theology, law, literature, art, numismatics and economic, social, political and military history. Routledge publishes this journal for The Society for the Study of the Crusades and the Latin East. Particular attention is given to the publication of historical sources in all relevant languages - narrative, homiletic and documentary - in trustworthy editions, but studies and interpretative essays are welcomed too. Crusades also incorporates the Society's Bulletin.

The Path to Salvation Heather Selma Gregg, 2014-01-01 In the wake of 9/11, policy analysts, journalists, and academics have tried to make sense of the rise of militant Islam, particularly its role as a motivating and legitimating force for violence against the United States. The general perception is that Islam is more violence-prone than other religions and that scripture and beliefs within the faith, such as the doctrines of jihad and martyrdom, demonstrate the inherently violent nature of Islam. Here, however, Heather Selma Gregg draws comparisons across religious traditions to investigate common causes of religious violence. The author sets side-by-side examples of current and historic Islamic violence with similar acts by Christian, Jewish, Buddhist, and Hindu adherents. Based on her findings, Gregg challenges the assumption that religious violence stems from a faith's scriptures. Instead, Gregg argues that religious violence is the result of interpretations of a religion's beliefs and scriptures. Interpretations calling for violence in the name of a faith are the product of individuals, but it is important to understand the conditions under which these violent interpretations of a religion occur. These conditions must be considered by identifying who is interpreting the religion and by what authority; the social, political, and economic circumstances surrounding these violent interpretations; and the believability of these interpretations by members of religious communities.

The Race for Paradise Paul M. Cobb, 2016-09 An accessible and stirring representation of what it means to be the crusader, The Race for Paradise captures for the first time the rich variety of the Islamic experience of the Crusades during the Middle Ages.
