Transforming from Consumer to Producer in 90 Days Darryl L. Wortham, 2011-08-10 **FOREWORD** The core concept is not just saving money, but saving time and energy as well. These savings are multiplied together, giving you more money to invest. To summarize, I created the equation: $\$ET = M2 \text{ to INVEST}$, in which saving Money, Energy, and Time ($\$ET$) are multiplied to generate (=) More Money (M2) to INVEST. This equation is fundamental to your success! You must be prepared to take action to start having enough money to accomplish your goals, to stop living paycheck to paycheck, and to retire early. If you are on course to make the same income as last year or, worse, facing declining take-home pay because of ever-increasing taxes, medical costs and declining economy, don't give up! Saving money, energy, and time will generate more money to invest creating real income and wealth. Transforming you from consumer to producer! You must expand yourself personally as well as enhance your inner and micro economics. Rather than growing a mega-company's revenue or the financial fortitude of millionaires' pockets, you are going to grow your own individual savings account, retirement plan, and children's college funds. This book is a guide to help you create a path and roadmap to a life of saving money, reducing debt, living efficiently, and creating wealth by investing within a reasonable timeframe. Together we will examine four major building blocks that inspire and accelerate behavioral changes: 1. Why and how to change your behavior and lifestyle. 2. How to save money, energy, and time. 3. How to invest your money, energy, and time savings to improve your present situation

and build for the future. 4. How to create and implement a transformation plan. Progressive ideas and hilarious cheap strategies are also detailed. These are necessary to exceed your personal and financial goals. I want you to be thrilled about life, saving money for a brighter future, and early retirement, while having fun at the same time.

Manly Meals and Mom's Home Cooking Jessamyn Neuhaus, 2003-07-28 From the first edition of The Fannie Farmer Cookbook to the latest works by today's celebrity chefs, cookbooks reflect more than just passing culinary fads. As historical artifacts, they offer a unique perspective on the cultures that produced them. In Manly Meals and Mom's Home Cooking, Jessamyn Neuhaus offers a perceptive and piquant analysis of the tone and content of American cookbooks published between the 1790s and the 1960s, adroitly uncovering the cultural assumptions and anxieties—particularly about women and domesticity—they contain. Neuhaus's in-depth survey of these cookbooks questions the supposedly straightforward lessons about food preparation they imparted. While she finds that cookbooks aimed to make readers—mainly white, middle-class women—into effective, modern-age homemakers who saw joy, not drudgery, in their domestic tasks, she notes that the phenomenal popularity of Peg Bracken's 1960 cookbook, *The I Hate to Cook Book*, attests to the limitations of this kind of indoctrination. At the same time, she explores the proliferation of bachelor cookbooks aimed at the man in the kitchen and the biases they display about male and female abilities, tastes, and responsibilities. Neuhaus also addresses the impact of World War II rationing on homefront cuisine; the introduction of new culinary technologies, gourmet sensibilities, and ethnic foods into American kitchens; and developments in the cookbook industry since the 1960s. More than a history of the cookbook, *Manly Meals and Mom's Home Cooking* provides an absorbing and enlightening account of gender and food in modern America.

Lidia's Family Table Lidia Matticchio Bastianich, 2004-11-23 From one of America's best-loved and most-admired chefs, an instructive and creative collection of over 200 recipes that bring simple, delicious Italian cooking to the family table, with imaginative ideas for variations and improvisations. *Lidia's Family Table* features hundreds of fabulous new dishes that will appeal both to Lidia's loyal following, who have come to rely on her wonderfully detailed recipes, and to the more adventurous cook ready to experiment. • She welcomes us to the table with tasty bites from the sea (including home-cured tuna and mackerel), seasonal salads, and vegetable surprises (Egg-Battered Zucchini Roll-Ups, Sweet Onion Gratin). • She reveals the secret of simple make-ahead soup bases, delicious on their own and easy to embellish for a scrumptious soup that can make a meal. • She opens up the wonderful world of pasta, playing with different shapes, mixing and matching, and creating sauces while the pasta boils; she teaches us to make fresh egg pastas, experimenting with healthful ingredients—whole wheat, chestnut, buckwheat, and barley. And she makes us understand the subtle arts of polenta- and risotto-making as never before. • She shares her love of vegetables, skillet-cooking some to intensify their flavor, layering some with yesterday's bread for a lasagna-like gratin, blanketing a scallop of meat with sautéed vegetables, and finishing seasonal greens with the perfect little sauce. • She introduces us to some lesser-known cuts of meats for main courses (shoulders, butts, and tongue) and underused, delicious fish (skate and monkfish), as well as to her family's favorite recipes for chicken and a beautiful balsamic-glazed roast turkey. • And she explores with us the many ways fruits and crusts (pie, strudel, cake, and toasted bread) marry and produce delectable homey desserts to end the meal. Lidia's warm presence is felt on every page of this book, explaining the whys and wherefores of what she is doing, and the brilliant photographs take us right into her home, showing her rolling out pasta with her grandchildren, bringing in the summer harvest, and sitting around the food-laden family table. As she makes every meal a celebration, she invites us to do the same, giving us confidence and joy in the act of cooking.

Cooking Lessons Sherrie A. Inness, 2001-08-07 Meatloaf, fried chicken, Jell-O, cake—because foods are so very common, we rarely think about them much in depth. The authors of *Cooking Lessons* however, believe that food is deserving of our critical scrutiny and that such analysis yields many important lessons about American society and its values. This book explores the relationship between food and gender. Contributors draw from diverse sources, both contemporary and historical, and look at women from various cultural backgrounds, including Hispanic, traditional southern White, and African American. Each chapter focuses on a certain food, teasing out its cultural meanings and showing its effect on women's identity and lives. For example, food has often offered women a traditional way to gain power and influence in their households and larger communities. For women without access to other forms of creative expression, preparing a superior

cake or batch of fried chicken was a traditional way to display their talent in an acceptable venue. On the other hand, foods and the stereotypes attached to them have also been used to keep women (and men, too) from different races, ethnicities, and social classes in their place.
