**On Søren Kierkegaard** Edward F. Mooney, 2007 Tracing a path through Kierkegaard's writings, this book brings the reader into close contact with the texts and purposes of this remarkable 19th century Danish writer and thinker. Kierkegaard writes in a number of voices and registers: as a sharp observer and critic of Danish culture, or as a moral psychologist, and as a writer concerned to evoke the religious way of life of Socrates, Abraham, or a Christian exemplar. In developing these themes, Mooney sketches Kierkegaard's Socratic vocation, gives a close reading of several central texts, and traces 'The Ethical Sublime' as a recurrent theme. He unfolds an affirmative relationship between philosophy and theology and the potentialities for a religiousness that defies dogmatic creeds, secular chauvinisms, and restrictive philosophies.

**Kierkegaard's Philosophy of Becoming** Clare Carlisle, 2006-06-01 An accessible and original exploration of the theological and philosophical significance of Kierkegaard's religious thought.

*The Sirens' Call* Chris Hayes, 2025-01-28 An Instant #1 New York Times Bestseller From the New York Times bestselling author and MSNBC and podcast host, a powerful wide-angle reckoning with how the assault from attention capitalism on our minds and our hearts has reordered our politics and the very fabric of our society "An ambitious analysis of how the trivial amusements offered by online life have degraded not only our selves but also our politics." —New York Times "Brilliant book... Reading it has made me change the way I work and think." —Rachel Maddow We all feel it—the distraction, the loss of focus, the addictive focus on the wrong things for too long. We bump into the zombies on their phones in the street, and sometimes they're us. We stare in pity at the four people at the table in the restaurant, all on their phones, and then we feel the buzz in our pocket. Something has changed utterly: for most of human history, the boundary between public and private has been clear, at least in theory. Now, as Chris Hayes writes, "With the help of a few tech firms, we basically tore it down in about a decade." Hayes argues that we are in the midst of an epoch-defining transition whose only parallel is what happened to labor in the nineteenth century: attention has become a commodified resource extracted from us, and from which we are increasingly alienated. *The Sirens' Call* is the big-picture vision we urgently need to offer clarity and guidance. Because there is a breaking point. Sirens are designed to compel us, and now they are going off in our bedrooms and kitchens at all hours of the day and night, doing the bidding of vast empires, the most valuable companies in history, built on harvesting human attention. As Hayes writes, "Now our deepest neurological structures, human evolutionary inheritances, and social impulses

are in a habitat designed to prey upon, to cultivate, distort, or destroy that which most fundamentally makes us human.” The Sirens’ Call is the book that snaps everything into a single holistic framework so that we can wrest back control of our lives, our politics, and our future.

**Boredom and Academic Work** Mariusz Finkielsztejn, 2021-07-29 Introducing the notion of boredom into the academic context, Boredom and Academic Work proposes a fresh sociological perspective on boredom and academic work alike. It invites a reader to reflect on the essence of boredom and the nature of academic work from the sociological perspective. It constitutes methodological and conceptual guidance for all those interested in their own emotions both at work and outside. It also provides an original, interactional and essential definition of boredom and a novel standpoint for observing academic work, both in its systemic and practical level, and shows how the academic system influences its subjects' well-being, motivation, emotions, and practices. Covering various approaches from the qualitative methodology, linguistics, sociology of work, emotions, and higher education, and telling a story of research and teaching university staff, the book will be of interest to researchers in a broad range of areas and the general academic public as well.

**The Character of the Manager** G. Beabout, 2013-08-01 Explores Alasdair MacIntyre's criticisms of the manager and retrieves an interdisciplinary approach to character transforming arguments. The manager as wise steward is proposed as a model for virtuous management.

**Phenomenology and Cultural Difference in High Modernism** Maria-Ana Tupan, 2023-05-16 Born at the intersection of literary analysis and cultural history, the present book collects evidence in support of the idea that, far from being decadent, in the sense of perverse pursuit of gratuitous refinement and aesthetic relief from historical apathy, the art at the turn of the twentieth century was energised by a desire for meaningful form, grounded in current epistemology, especially of the science maîtresse of the time, psychology, and other kindred disciplines – psychological phenomenology and phenomenological existentialism. The circle of influencers has been broadened to include figures of the latter half of the nineteenth century and the beginning of the twentieth, such as Washington Allston, H. L. Mansel, Wilhelm Wundt, Alexander Bain, Alfred Binet, Alfred Adler, and Sándor Ferenczi, whose shadows are shown to be looming behind modernist texts by T. S. Eliot, James Joyce, Virginia Woolf, Thomas Wolfe, Wallace Stevens, T. E. Hulme, Flann O’Brien, Mircea Eliade, amongst others. A less-discussed subject, literary genre in modernism, is redefined in light of psychology-based modernist aesthetics.

**The Seduction of Pessimism in the Novel** Tom Ribitzky, 2024-10-18 The Seduction of Pessimism in the Novel: Eros, Failure, and the Quarrel with Philosophy explores the novel as a response to the Platonic myth that narrates the rift at the core of our being. Eros is supposedly the consolation for this rift, but the history of the novel documents its expression as one of frustrated desires, neuroses, anxieties, and cosmic doom. As if repeating the trauma from that original split in Plato—a split that also divides philosophy from literature—the novel treats eros as a site of loss and grief, from the medieval romances

to Goethe, Brontë, Proust, Mann, Woolf, Lawrence, and Nabokov. The pessimism that emerges from this eros tells us something fundamental about who we are, something that only the novel can say. At a time when both education and leisure are increasingly ignoring the novel's imperative to sit with ambiguity, complexity, and contingency, and as we are hurtling toward a bleak future of climate catastrophe and political instability, the novel is one of the last bastions of humanity even as it is quickly being eroded.

**Becoming a Genuine Muslim** Sevcen Ozturk, 2018-06-12 Despite the apparent lack of any cultural and religious connection between Kierkegaard and Iqbal, their philosophical and religious concerns and their methods of dealing with these concerns show certain parallels. This book provides a Kierkegaardian reading of Muhammad Iqbal's idea of becoming a genuine Muslim. It reflects on the parallels between the philosophical approaches of Kierkegaard and Iqbal, and argues that, though there are certain parallels between their approaches, there is a significant difference between their philosophical stances. Kierkegaard was concerned with developing an existential dialectics; Iqbal, however, focused mostly on the identification of the problems of the modern Muslim world. As a result, Iqbal's idea of becoming a genuine Muslim – the practical aspect of his thought and one of the most central issues of his philosophy – seems to be unclear and even contradictory at points. This book therefore uses the parallels between the two philosophers' endeavours and the notions developed by Kierkegaard to provide a strong hermeneutical tool for clarifying where the significance of Iqbal's idea of becoming a Muslim lies. By bringing together two philosophers from different cultural, traditional and religious backgrounds, this book will appeal to students and scholars of Comparative Politics, Contemporary Islamic Philosophy and the Philosophy of Religion.

**Self-construal in Postcolonial Literature** Maria-Ana Tupan, 2024-12-10 Opening with an analysis of the concept of self-construal from René Descartes and Immanuel Kant to the beginning of the new millennium, this collection of essays contributed by academics from India, Romania and Bosnia and Herzegovina removes self-construction from the field of anthropology, relocating the process within the wake of social and political psychology. The postcolonial condition is the catalyst of inquiries into collective traumas in the former colonies, in parallel with attempts at writing new narratives in the space left blank by metropolitan representations. Transnational space is a palimpsest of conflicting discourses, often revealing a double consciousness in writers living in the country of origin, as well as in migrants. A broader and more complex approach to the postcolonial condition than the reductive and politicized one-factor analysis has been attempted, benefiting from recent theoretical developments (trauma studies, identity studies, studies of the affect, political psychology, and others).

**Kierkegaard and Political Theology** Roberto Sirvent, Silas Morgan, 2018-03-06 The nature of Kierkegaard's political legacy is complicated by the religious character of his writings. Exploring Kierkegaard's relevancy for this political-

theological moment, this volume offers trans-disciplinary and multi-religious perspectives on Kierkegaard studies and political theology. Privileging contemporary philosophical and political-theological work that is based on Kierkegaard, this volume is an indispensable resource for Kierkegaard scholars, theologians, philosophers of religion, ethicists, and critical researchers in religion looking to make sense of current debates in the field. While this volume shows that Kierkegaard's theological legacy is a thoroughly political one, we are left with a series of open questions as to what a Kierkegaardian interjection into contemporary political theology might look like. And so, like Kierkegaard's writings, this collection of essays is an argument with itself, and as such, will leave readers both edified and scratching their heads--for all the right reasons.

**Augustine and Kierkegaard** Kim Paffenroth, John Doody, Helene Tallon Russell, 2017-09-20 This volume is a continuation of our series exploring Saint Augustine's influence on later thought, this time bringing the fifth century bishop into dialogue with 19th century philosopher, theologian, social critic, and originator of Existentialism, Søren Kierkegaard. The connections, contrasts, and sometimes surprising similarities of their thought are uncovered and analyzed in topics such as exile and pilgrimage, time and restlessness, inwardness and the church, as well as suffering, evil, and humility. The implications of this analysis are profound and far-reaching for theology, ecclesiology, and ethics.

*Religion After Kant* Paolo Diego Bubbio, Paul Redding, 2011-11-15 After a period of neglect, the idealist and romantic philosophies that emerged in the wake of Kant's revolutionary writings have once more become important foci of philosophical interest, especially in relation to the question of the role of religion in human life. By developing and reinterpreting basic Kantian ideas, an array of thinkers including Schelling, Hegel, Friedrich Schlegel, Hölderlin and Novalis transformed the conceptual framework within which the nature of religion could be considered. Furthermore, in doing so they significantly shaped the philosophical perspectives from within which later thinkers such as Feuerbach, Kierkegaard, Wagner and Nietzsche could re-pose the question of religion. This volume explores the spaces opened during this extended period of post-Kantian thinking for a reconsideration of the place of religion within the project of human self-fashioning.

The Political Vocation of Philosophy Donatella Di Cesare, 2021-05-27 It is time for philosophy to return to the city. In today's crisis-ridden world of globalised capitalism, increasingly closed in on itself, it may seem harder than ever to think of ways out. Philosophy runs the risk of becoming the handmaiden of science and of a hollowed-out democracy. Donatella Di Cesare calls on philosophy instead to return to the political fray and to the city, the global pólis, from which it was banished after the death of Socrates. Suggesting a radical existentialism and a new anarchism, Di Cesare shows that Western philosophy has been characterised by a political vocation ever since its origins in ancient Greece, and argues that the separation of philosophy from its political roots robs it of its most valuable and enlightening potential. But critique and dissent are no longer enough. Mindful of a defeated exile and an inner emigration, philosophers should return to politics and forge an alliance with the poor and the downtrodden. This passionate defence of the political relevance of philosophy and its

radical potential in our globalised world will be of great interest to students and scholars of philosophy and to a wide general readership.

**Kierkegaard's Incarnational Mission** Michio Ogino, 2025-06-30 One lacuna in Søren Kierkegaard scholarship is in analyzing his works with his self-described identity as a “missionary to Christendom” in mind. Challenging the international connotation of the term “missionary,” Dr. Michio Ogino examines Kierkegaard’s works in which he identified himself as a missionary writer, to reveal how he considered being a missionary an integral part of being a Christian. By chronologically and empirically examining the writings of Søren Kierkegaard, Dr. Ogino argues that Kierkegaard not only proclaimed Jesus Christ in his homeland but did so in a manner similar to how Christ had done on earth, incarnating the Christian message for his contemporaries. Through this provocative exploration, Ogino lays out how the application of Kierkegaardian mission can help to overcome five recognized barriers in Japanese evangelization. Kierkegaard scholars and readers will find a new understanding of the motivations and reasoning behind his works, and missionaries, not only to Japan but all nations, will be encouraged in how his approach can be applied in their context.

*Sacrifice in the Post-Kantian Tradition* Paolo Diego Bubbio, 2014-07-07 In this book, Paolo Diego Bubbio offers an alternative to standard philosophical accounts of the notion of sacrifice, which generally begin with the hermeneutic and postmodern traditions of the twentieth century, starting instead with the post-Kantian tradition of the nineteenth century. He restructures the historical development of the concept of sacrifice through a study of Kant, Solger, Hegel, Kierkegaard, and Nietzsche, and shows how each is indebted to Kant and has more in common with him than is generally acknowledged. Bubbio argues that although Kant sought to free philosophical thought from religious foundations, he did not thereby render the role of religious claims philosophically useless. This makes it possible to consider sacrifice as a regulative and symbolic notion, and leads to an unorthodox idea of sacrifice: not the destruction of something for the sake of something else, but rather a kenotic emptying, conceived as a withdrawal or a making room for others.

*Public Relations and Individuality* Simon Moore, 2018-05-08 Our individuality is partly shaped by encounters with the external world so it is inconceivable that we are unaffected by the planned management of public communications which manages much of our external experience. Exploring one of the most important mediators between organizations and individual encounters – public relations (PR) – is long overdue. By developing new ways to create and connect with us as members of particular target audiences, has it changed our interior existence by altering perceptions of the world outside ourselves? PR’s massive impact on groups, society or organizations is rightly explored, but its immense influence on our individuality is neglected. In an age where new media makes deepening connections to individuals, the relationship of PR to individuality is one of the field’s most profoundly important issues. This provocative book will assist scholars and advanced students in PR and communication research to develop a clear, structured, disciplined understanding of this phenomenon

and its implications.

**Kierkegaard's International Reception: The Near East, Asia, Australia and the Americas** Jon Stewart, 2008-06-01 Although Kierkegaard's reception was initially more or less limited to Scandinavia, it has for a long time now been a highly international affair. As his writings became translated into the different languages, his reputation spread, and he became read more and more by people increasingly distant from his native Denmark. While in Scandinavia, the attack on the Church in the last years of his life became something of a cause célèbre, later many different aspects of his work became the object of serious scholarly investigation well beyond the original northern borders. As his reputation grew, he was co-opted by a number of different philosophical and religious movements in different contexts throughout the world. The three tomes of the present volume attempt to record the history of this reception according to national and linguistic categories. Tome III is the most geographically diverse, covering the Near East, Asia, Australia and the Americas. The section on the Near East features pioneering articles on the Kierkegaard reception in Israel, Turkey, Iran, and the Arab world. The next section dubbed Asia and Australia features articles on the long and rich traditions of Kierkegaard research in Japan and Korea along with the more recent ones in China and Australia. A final section is dedicated to Americas with articles on Canada, the United States, hispanophone South America, Mexico and Brazil.

*Either/Or* Søren Kierkegaard, 2004-07-01 In *Either/Or*, using the voices of two characters - the aesthetic young man of part one, called simply 'A', and the ethical Judge Vilhelm of the second section - Kierkegaard reflects upon the search for a meaningful existence, contemplating subjects as diverse as Mozart, drama, boredom, and, in the famous *Seducer's Diary*, the cynical seduction and ultimate rejection of a young, beautiful woman. A masterpiece of duality, *Either/Or* is a brilliant exploration of the conflict between the aesthetic and the ethical - both meditating ironically and seductively upon Epicurean pleasures, and eloquently expounding the noble virtues of a morally upstanding life.

*Another Kind of Normal* Graham Ward, 2022-01-13 Every age needs to examine and propose its ways of living ethically. *Another Kind of Normal: Ethical Life II* constructs a mode of such living according to the Christian tradition, based upon an interpretation of Christ's coming and the relationship of that incarnation to God as the Creator of all things. In the second of four volumes, Graham Ward explores an Augustinian vision of consonance between divine rhythm and the rhythmic orders of creation. On the basis of what Augustine calls the 'interval', it proposes Christ is encountered as riddle, scandal, and paradox. It provides an account of creation as a Trinitarian event that calls for a rethinking of what are the key teachings in Christianity with respect to an understanding of creation as a divine benediction and a theatre for transformation and healing. Ward argues through Scriptural exegesis, for the omnidirectionality of time as graced, rejecting a conception of linear temporality and theologies indebted to that conception. Throughout, participation in God, through our hiddenness in Christ develops an account of the complex relationship between divine and human creativity, appealing to music, painting,

poetry, drama, film, architecture, and novels.

*Philosophy and Life* A. C. Grayling, 2023-04-06 'Grayling brings satisfying order to daunting subjects' Steven Pinker 'An enthusiastic thinker who embraces humour, common sense and lucidity' Independent \_\_\_\_\_ From the eminent philosopher, an authoritative exploration of the great questions of how to live 'There is a question everyone has to ask and answer - in fact, has to keep on asking and keep on answering. It is, 'How should I live my life?' meaning, 'What values shall I live by? 'What sort of person should I be? What shall I aim for?' The great majority of people do not ask this question, they merely answer it unthinkingly, by adopting conventional views of life and what matters in it...' From Stoics to existentialists, in philosophy and literature, discussion of the philosophy of life -- of love and death, of courage, fortitude and wisdom -- challenges us all to think about what kinds of life are truly worth living. In this summation of a lifetime thinking and writing about this great question, A. C. Grayling explores with clarity and depth the ideas that each of us must use in answering it for ourselves. Drawing on the lives, experiences and works of a fantastically eclectic range of thinkers -- taking in not only philosophers such as Confucius, Seneca and Nietzsche, but also authors from Shakespeare to Ursula LeGuin, and modern thinkers such as Martha Nussbaum and Bernard Williams - *Philosophy and Life* brings together wisdom from across eras and continents in a tour de force on the philosophy of being human in a complicated world.
