Public Feminisms Carrie N. Baker, Aviva Dove-Viebahn, 2023-05-16 The field of feminist studies grew from the U.S. women's movements of the 1960s and 1970s and has continued to be deeply connected to ongoing movements for social justice. As educational institutions are increasingly seeing public scholarship and community engagement as relevant and fruitful complements to traditional academic work, feminist scholars have much to offer in demonstrating different ways to inform and interact with various communities. In *Public Feminisms: From Academy to Community* edited by Carrie N. Baker and Aviva Dove-Viebahn, a diverse range of feminist scholar-activists write about the dynamic and varied methods they use to reach beyond the traditional academic classroom and scholarly journals to share their work with the public. Part one explores how feminist scholars engage broader audiences through art, media, and public programming, including essays on a public discussion series teaching intersectional feminist analysis of popular films, and a podcast from Latina scholars discussing issues of reproductive justice, social justice, motherhood, sexuality, race, and gender. Part two focuses on activism and public education, including essays on "Take Back the Night," and archiving the women's march protests. Part three turns to public writing and scholarship, including an essay on elevating the perspectives and voices of underrepresented creatives in the film and television industry. Part four explores feminist pedagogies for community engagement and for teaching public feminisms. Accessible and engaging to a broad range of readers, the essays in this volume are a rich resource for scholars and students interested in infusing their academic knowledge into the public sphere. With this timely book, the editors offer an opportunity to reflect on the meaning and importance of community engagement and highlight some of the important public-facing work feminist scholars are doing today. Faculty, graduate, and undergraduate students, as well as administrators hoping to increase their schools' connections to the community, will find this volume indispensable.

Prostitution, Pornography and Trafficking in Women Esther Hertzog, Erella Shadmi, 2019-01-15 This book critically analyzes the sex industry in Israel, using feminist concepts and scholarship to elaborate on the power of prostitution to shape a world in which women are objects for fulfilling men's desires. A comprehensive collection of research-based articles that examine prostitution, trafficking in women and pornography from divergent disciplinary angles, it reveals the interconnectedness of these three aspects of the sex trade which objectifies, commercializes and exploits human – and in particular women's – sexuality. Showing these practices to be embedded in a capitalist and patriarchal oppressive context

that is accommodated by state institutions, this volume rejects the argument that it is possible to choose prostitution, and that feminist pornography is possible. With case studies including the conspicuous context of migration that attracts sex traffickers, the liberal discourse introduced by cinema, the media and the arts that serve to legitimate prostitution and pornography, the chauvinist-macho culture that perceives and treats women as sex objects, and the issues of male prostitution and men as clients, *Prostitution, Pornography and Trafficking in Women: Israel's Blood Money* constitutes a study of Israel as a unique context in which the sex trade can prosper, in spite of geographical, religious and institutional constraints. As such, it will be of interest to scholars of sociology, anthropology, history, cultural studies and gender and women's studies.

Disability Studies and the Environmental Humanities Sarah Jaquette Ray, Jay Sibara, 2017-06 Although scholars in the environmental humanities have been exploring the dichotomy between wild and built environments for several years, few have focused on the field of disability studies, a discipline that enlists the contingency between environments and bodies as a foundation of its scholarship. On the other hand, scholars in disability studies have demonstrated the ways in which the built environment privileges some bodies and minds over others, yet they have rarely examined the ways in which toxic environments engender chronic illness and disability or how environmental illnesses disrupt dominant paradigms for scrutinizing disability. Designed as a reader for undergraduate and graduate courses, *Disability Studies and the Environmental Humanities* employs interdisciplinary perspectives to examine such issues as slow violence, imperialism, race, toxicity, eco-sickness, the body in environmental justice, ableism, and other topics. With a historical scope spanning the seventeenth century to the present, this collection not only presents the foundational documents informing this intersection of fields but also showcases the most current work, making it an indispensable reference.

Women's Productive and Reproductive Labour Ayşe Arslan, 2023-07-27 This book looks at the dynamic relationship between women's productive and reproductive work in a Global South country from a Global South perspective. Applying a feminist political economy and historical materialist approach and building on an ethnographic extended case study, it analyses the relationships between class and gender across both the productive and reproductive realms at the macro and micro levels in the case of women garment workers in Turkey. Overall, it shows that the material and social conditions of

women's productive and reproductive work co-constitute each other. It suggests that productive and social reproductive labour should be examined as an integrated process and an interrelated social relation, in constant dialogue with other social relations. This book is of interest to researchers and students in the disciplines of gender studies, labour studies, feminist economics, sociology and development studies. Given that most studies on social reproduction have largely focused on the Global North, this book is of particular interest to those in search of a more comprehensive and holistic understanding. It is also of great relevance to policymakers concerned with gender and labour issues as well as labour and feminist activists.

From Sabotage to Support Joy L. Wiggins, Kami J. Anderson, 2019-05-14 A guide for women on how to dismantle cultural programming at work that promotes tearing one another down and how to raise each other up instead. Joy Wiggins and Kami Anderson advocate that the only way women can successfully support each other is by addressing the varying intersections of our individual power and privileges, particularly focusing on how some privileges are inherited along lines of race, class, sexuality, and geography. When we fully examine how we have power in certain situations and not in others, we start to see where we can lend privilege to create truly inclusive spaces for the historically underrepresented and marginalized. Wiggins and Anderson look at how the dynamics of privilege and power have played out in the history of the feminist movement and identify and break down socialized behaviors and ideologies that trigger implicit bias and microaggressions. And they provide tools to interrupt negative thoughts and actions so women can nurture mutual support and show up as their authentic selves. Each chapter features a dialogue between them reflecting on how issues of race, privilege, and power have played out in their lives and their friendship. The system of patriarchy has created an environment for women to knowingly and unknowingly sabotage each other—it is not inherent in women themselves. This book teaches us how to take an active approach to becoming better allies for each other and by so doing improve our world and end the cycle of injustice. “Packed with everyday wisdom and common-sense recommendations, *From Sabotage to Support* provides an important alternative to our oppositional, combative social milieu. The authors offer insights, analyses, strategies, and everyday wisdom that give us the necessary tools to transform our workplaces into more equitable, harmonious, inclusive spaces.” —AnaLouise Keating, PhD, Professor and Doctoral Program Director, Department of Multicultural Women's and Gender Studies, Texas Woman's University, and Gloria Anzaldúa scholar “A fantastic addition to the body of knowledge for women (and allies) by women. This book lays down a solid foundation for people new to feminist and womanist journeys while providing immensely actionable guidance for managing our sabotaging behaviors toward ourselves and others. The authors thoughtfully include myriad diverse identities and movements that define the complex human experience. This book will forever change you, your workplace, and the way that you embrace and connect with people.” —Tiffany Jana, DM, CEO, TMI Portfolio, and coauthor of *Overcoming Bias and Erasing Institutional Bias*

Millennial Feminism at Work Jane Juffer, 2021-11-15 In *Millennial Feminism at Work*, volume editor Jane Juffer brings

together recently graduated students from across the US to reflect on the relevance of their feminist studies programs in their chosen career paths. The result is a dynamic collection of voices, shaking up preconceived ideas and showing the positive influence of gender and sexuality studies on individuals at work. Encompassing five areas—corporate, education, nonprofit, medical, and media careers—these engaging essays use personal experiences to analyze the pressure on young adults to define themselves through creative work, even when that job may not sustain them financially. Obstacles to feminist work conditions notwithstanding, they urge readers to never downplay their feminist credentials and prove that gender and sexuality studies degrees can serve graduates well in the current marketplace and prepare them for life outside of their alma mater. Emphasizing the importance of individual stories situated within political and economic structures, *Millennial Feminism at Work* provides spirited collective advice and a unique window into the lives and careers of young feminists sharing the lessons they have learned. Contributors: Rose Al Abosy, Rachel Cromidas, Lauren Danzig, Sadaf Ferdowsi, Reina Gattuso, Jael Goldfine, Sassafras Lowrey, Alissa Medina, Samuel Naimi, Stephanie Newman, Justine Parkin, Lily Pierce, Kate Poor, Laura Ramos-Jaimes, Savannah Taylor, Addie Tsai, Hayley Zablotsky

The Ethics of Hospitality Helen T. Boursier, 2019-02-15 Set against an ethical-theological-philosophical framework of the role of love in the Abrahamic tradition (Islam, Judaism, and Christianity), *The Ethics of Hospitality* highlights the personal witness of refugee families seeking asylum from the Northern Triangle in Central America to the U.S. Their heart-wrenching stories include why they fled their homelands, their experiences along the arduous overland journey, and their inhospitable reception when they arrived to the U.S. and requested asylum. It includes an overview of the systemic connections between the U.S. and the violence which catapults these families to seek safety. The voices of the families join the witness of interreligious volunteers of greater San Antonio who assist the refugee families in diverse capacities and who testify to the mutual blessing they receive when love of God, expressed as love of neighbor, becomes central to the immigration conversation. Ultimately, the proposal is that the interreligious community has the privilege and responsibility to respond in love with refugees seeking asylum, while also leading the outcry in the public square for their radical welcome.

Threshold Concepts in Women's and Gender Studies Christie Launius, Holly Hassel, 2018-02-20 *Threshold Concepts in Women's and Gender Studies: Ways of Seeing, Thinking, and Knowing* is a textbook designed primarily for introduction to Women's and Gender Studies courses with the intent of providing both skills- and concept-based foundation in the field. The text is driven by a single key question: What are the ways of thinking, seeing, and knowing that characterize Women's and Gender Studies and are valued by its practitioners? Rather than taking a topical approach, *Threshold Concepts* develops the key concepts and ways of thinking that students need in order to develop a deep understanding and to approach material like feminist scholars do, across disciplines. This book illustrates four of the most critical concepts in Women's and Gender Studies—the social construction of gender, privilege and oppression, intersectionality, and feminist praxis—and grounds

these concepts in multiple illustrations. The second edition includes a significant number of updates, revisions, and expansions: the case studies in all five chapters have been revised and expanded, as have the end of chapter elements, statistics have been updated, and numerous references to significant news stories and cultural developments of the past three years have been added. Finally, many more callbacks to previous chapters have been incorporated throughout the textbook in order to remind students to carry forward and build upon what they have learned about each threshold concept even as they move on to a new one.

The Oxford Handbook of Feminism and Law in the United States Deborah L. Brake, Martha Chamallas, Verna L. Williams, 2023 The Oxford Handbook of Feminism and Law in the United States provides a wide-ranging exploration of U.S. legal feminism, analyzing both prominent brands of feminist legal theory and key feminist social movements. The Handbook's chapters examine the influence that legal feminism has exerted on law, from the creation of feminist claims such as sexual harassment and gender equity in sports to new understandings of consent, motherhood, and reproductive justice. Contributions from leading feminist thinkers dissect the backlash to feminism and compare feminism to adjacent discourses including queer theory and masculinities theory. The Handbook is also forward-looking insofar as it imagines how legal feminism will affect emerging areas like digital privacy, immigration law, and environmental law. Thanks to its expansive scope and highly-regarded team of editors and contributors, The Oxford Handbook of Feminism and Law in the United States will be an essential source for scholars and students working in a range of interconnected fields.

Feminism Nadia Abushanab Higgins, 2016-01-01 While most people say they believe in equal rights, the word feminism—America's new F-word—makes people uncomfortable. Explore the history of US feminism through pioneers such as Elizabeth Cady Stanton, Betty Friedan, Shirley Chisholm, and Gloria Steinem. Meet modern leaders such as Rebecca Walker and Julie Zeilinger, who are striving to empower women at work, in government, at home—and in cultural and personal arenas. Learn from interviews with movement leaders, scholars, pop stars, and average women, what it means to be a feminist—or to reject it altogether. After reading this book, readers will be able to respond to Am I a feminist? with a confident, informed voice.

The Authority of Female Speech in Indian Goddess Traditions Anway Mukhopadhyay, 2020-08-27 Contemporary debates on “mansplaining” foreground the authority enjoyed by male speech, and highlight the way it projects listening as the responsibility of the dominated, and speech as the privilege of the dominant. What mansplaining denies systematically is the right of women to speak and be heard as much as men. This book excavates numerous instances of the authority of female speech from Indian goddess traditions and relates them to the contemporary gender debates, especially to the issues of mansplaining and womansplaining. These traditions present a paradigm of female speech that compels its male audience to reframe the configurations of “masculinity.” This tradition of authoritative female speech forms a continuum, even though

there are many points of disjuncture as well as conjuncture between the Vedic, Upanishadic, puranic, and tantric figurations of the Goddess as an authoritative speaker. The book underlines the Goddess's role as the spiritual mentor of her devotee, exemplified in the Devi Gitas, and re-situates the female gurus in Hinduism within the traditions that find in Devi's speech ultimate spiritual authority. Moreover, it explores whether the figure of Devi as Womansplainer can encourage a more dialogic structure of gender relations in today's world where female voices are still often undervalued.

Feminist Applied Sport Psychology Leeja Carter, 2019-07-01 With an emphasis on women and transwomen athletes and exercisers of color, *Feminist Applied Sport Psychology: From Theory to Practice* introduces the reader to feminist, black feminist, and womanist sport psychology, offering an alternative and powerful approach to working with athletes. Covering core concepts, applied skills, and research methods, the book includes useful features throughout, such as discussion questions and definitions of key terms. It is organized into three sections covering, firstly, feminist theory, history, movements, and their importance in applied sport psychology; secondly, the intersection of race, class, and gender, and the integration of intersectional considerations into sport psychology; and finally, in-depth case studies of feminist sport psychology in action, each of which offers strategies for best practice. *Feminist Applied Sport Psychology: From Theory to Practice* is important reading for feminist-centred students and practitioners in performance and sports domains, and exercise psychology and anybody with an interest in feminist approaches to working with women of diverse backgrounds.

Gender Inequality in The Bahamas Juliette Storr, 2023-09-05 This book examines sexual power dynamics, long-held patriarchal values, and other harmful attitudes toward women in The Bahamas and Caribbean through the lens of media and law. Though gender politics is pushing these societies toward inclusivity, Storr, adopting a phenomenological framework, argues that, as sites of both reinforcement and resistance to misogynistic norms, future progress must focus on deconstructing the inequitable social institutions underlying unhealthy gender relations.

The Man-Not Tommy J. Curry, 2017-07 The Before Columbus Foundation 2018 Winner of the AMERICAN BOOK AWARD Tommy J. Curry's provocative book *The Man-Not* is a justification for Black Male Studies. He posits that we should conceptualize the Black male as a victim, oppressed by his sex. *The Man-Not*, therefore, is a corrective of sorts, offering a concept of Black males that could challenge the existing accounts of Black men and boys desiring the power of white men who oppress them that has been proliferated throughout academic research across disciplines. Curry argues that Black men struggle with death and suicide, as well as abuse and rape, and their genred existence deserves study and theorization. This book offers intellectual, historical, sociological, and psychological evidence that the analysis of patriarchy offered by mainstream feminism (including Black feminism) does not yet fully understand the role that homoeroticism, sexual violence, and vulnerability play in the deaths and lives of Black males. Curry challenges how we think of and perceive the conditions that actually affect all Black males.

I Confess! Thomas Waugh, Brandon Arroyo, 2019-11-21 In the postwar decades, sexual revolutions - first women's suffrage, flappers, Prohibition, and Mae West; later Alfred Kinsey, Hugh Hefner, and the pill - altered the lifestyles and desires of generations. Since the 1990s, the internet and its cataclysmic cultural and social technological shifts have unleashed a third sexual revolution, crystallized in the acts and rituals of confession that are a staple of our twenty-first-century lives. In *I Confess!*, a collection of thirty original essays, leading international scholars such as Ken Plummer, Susanna Paasonen, Tom Roach, and Shohini Ghosh explore the ideas of confession and sexuality in moving image arts and media, mostly in the Global North, over the last quarter century. Through self-referencing or autobiographical stories, testimonies, and performances, and through rigorously scrutinized case studies of gay for pay, gaming, camming, YouTube uploads, and the films *Tarnation* and *Nymph()*maniac, the contributors describe a spectrum of identities, desires, and related representational practices. Together these desires and practices shape how we see, construct, and live our identities within this third sexual revolution, embodying both its ominous implications of surveillance and control and its utopian glimmers of community and liberation. Inspired by theorists from Michel Foucault and Gilles Deleuze to Gayle Rubin and José Esteban Muñoz, *I Confess!* reflects an extraordinary, paradigm-shifting proliferation of first-person voices and imagery produced during the third sexual revolution, from the eve of the internet to today.
