The King's Italy Angiulli Saverio, 2016-09-12 Il presente lavoro costituisce una sorta di viaggio attraverso le vicende storiche e testimoniali che hanno caratterizzato le fasi finali del secondo conflitto mondiale, mettendone in luce soprattutto gli aspetti che - nel periodo dal luglio al settembre 1943 - hanno portato alla nascita del "Regno del Sud" o "Italia del Re" (The King's Italy), come la definivano gli Americani, e alla successiva ricostruzione dello Stato italiano, partendo proprio dall'insediamento di un governo nella città di Brindisi. L'importanza assunta dai territori pugliesi liberati dagli Alleati, ma anche i tristi episodi di deportazione degli esuli e rifugiati di guerra che hanno interessato questi tormentati lembi di terra, sono trattati nell'opera evidenziandone i chiaro-oscuro che corrispondono alle contraddizioni di tutta un'epoca, sottoposta a duro esame critico da parte di molti storici. L'autore si sofferma poi ad analizzare - non senza sorprendere il lettore con qualche curiosità - il punto di vista degli Anglo-americani durante la preparazione della campagna d'Italia, nonché le ambiguità che hanno caratterizzato i successivi rapporti con gli Italiani.

New Directions in Mediterranean Maritime History Gelina Harlaftis, Carmel Vassallo, 2017-10-18 This study seeks to correct the underrepresentation of Mediterranean maritime history in academic publications, in attempt to understand the multi-cultural and multi-ethnic environment in which maritime activity takes place, by compiling ten essays from maritime historians concerning Spain, France, Italy, Malta, Slovenia, Greece, Turkey, and Israel. The aim of the collection is to provide an insight into Mediterranean maritime history to those who could not previously access such information due to language barriers or difficulty securing non-English publications; some of the essays have translated into English specifically for this publication. The majority of the essays concern the Early Modern period, and the remainder concern the contemporary.

The Italian Navy and Fascist Expansionism, 1935-1940 Robert Mallett,2013-11-05 Robert Mallett argues that the Duce's aggressive war against the Mediterranean powers, Britain and France, was to secure access to the world's oceans. Mussolini actively pursued the Italo-German alliance to gain a Fascist empire stretching from the Mediterranean to the Indian Ocean.

Warship 2022 ,2022-05-26 A celebrated annual publication featuring the latest research on history, development, and service of the world's warships. For 45 years, Warship has been the leading annual resource on the design, development, and deployment of the world's combat ships. Featuring a broad range of articles from a select panel of distinguished international contributors, this latest volume combines original research, new book reviews, warship notes, an image gallery, and much more, maintaining the impressive standards of scholarship and research with which Warship has become synonymous. Detailed and accurate information is the keynote of all the articles, which are fully supported by plans, data tables, and stunning photographs. The varied topics in this year's annual includes articles on the Imperial Japanese Navy carriers Soryu and Hiryu, post-war radar development in the Royal Navy, gunboats in the Imperial German Navy, Soviet battleship designs of the early Second World War, modern European frigates, and the origins of the Yokosuka naval yard.

Italian Battleships Erminio Bagnasco, Augusto de Toro,2022-10-04 With the publication of their previous book on the battleships of the Littorio class, the authors set new standards for the detailed coverage and sophisticated analysis of Italian warship design. Inspired by its success, both critically and commercially, the authors were inspired to follow up with a similar study of the earlier Italian battleships that were built in the First World War but survived to fight in the Second. Given the level of new research required, this has taken a decade to achieve but the result is a similarly comprehensive coverage. Originally comprising five ships in two related classes, they entered service at the beginning of the Great War. As designed, they were powerful examples of the second generation of dreadnoughts, with a combination of twin and triple turrets producing a unique main armament of thirteen 12-inch guns. One ship, Leonardo da Vinci, was sunk by an internal explosion at Taranto in 1916, and although the hull was raised post-war, the plan to rebuild the ship was abandoned as it was not deemed cost-effective. However, the remaining four ships were to undergo one of the most radical reconstructions of any

battleship class during the 1930s, emerging with an entirely new profile, more powerful machinery and all the characteristics of a modern fast battleship. In this form they became an important element in the Italian fleet that opposed the British after 1940\.. This book covers all the technical details of the ships, both as built and as rebuilt, but also provides an extended history of their active service, including battle plans and track charts. Thoroughly illustrated with photographs, ship and armament plans, detail drawings and colour camouflage schemes, the book is a fitting companion to The Littorio Class.
