Managerial Dilemmas in Developing Countries Mohammed Aslam,Malcolm J.M. Cooper,Athula Gnanapala,2019-04-02 Since organizations and industries are the catalysts for sustainable development, managing organizations and industries along with resource protection dilemmas is critical for developing countries. This volume brings together contributions from experts and new researchers on managerial dilemmas in developing countries, and is divided into five parts: namely, organizational development; human resource management; consumer behaviour; finance; and tourism and hospitality. The chapters in the first section provide empirical insights into e-learning systems, information systems for decision-making processes, business reengineering, and performance efficiency. The second part explores the role of human resource, organization downsizing, work-life balance, fair treatment and a good working environment, job satisfaction and job stress, the big five personality traits, and psychological contract and employment. The next section investigates bank interest rates, insurance policies, organic foods in consumer behaviour, and a marketing value chain analysis of cinnamon. Studies of the effect of financial development, foreign direct investment on economic and endogenous

growth, and the effect of institutional excellence and information efficiency on stock market development make up the fourth part of the book. The fifth section then embraces studies of the impact of tourist guides on tourist satisfaction, the behavioural characteristics of solo female travellers, community participation in tourism, and the unplanned development of tourism.

IMF, World Bank & ADB Agenda on Privatisation Nihal Sri Ameresekere, 2011 This shockingly explosive Book deals with the manipulative privatization of Sri Lanka Insurance, under a privatization program, pushed by IMF, World Bank and ADB; questionably mishandled by PricewaterhouseCoopers and Ernst & Young, contravening governmental procedures and professional standards; involving a consortium of leading corporates, controlled by one individual, portrayed as a close associate of former US President Bill Clinton. This dubious deal was annulled as wrongful, unlawful and illegal by the Supreme Court, the highest judiciary, observing that it 'shocked the conscience of Court', asserting that public assets are held in trust on behalf of the people. This Book exposes those holding elected and selected influential and powerful public office unabashedly compromising national and public interests, in the disposal of an invaluable national asset, at a ridiculous price, to parties, who had not even been pre-qualified, with one party incorporated in Gibraltar after the completion of the process, and whose source of funds channeled through a leading Bank remained a mystery. This Book appallingly reveals how pontificating professionals retrospectively manipulated the financials of Sri Lanka Insurance, facilitating a fraudulent demand for a refund from the Government. It reveals the unashamed condoning of fraud and corruption, and bestowing on corrupt miscreants even more recognition, shunning the 'rule of law'; and the absence of law enforcement; and the duplicitous stances of the Chamber of Commerce and the Institute of Chartered Accountants. This book is an 'eye opener' on socio-political realities, and is invaluable to those dealing with privatization, public finance and commerce, fraud and corruption, forensic accounting, and to legal academics and professionals, and public interest activists.
